

GODEER B09YTVGSJ8

GODEER Queen Size Platform Bed User Manual

Model: B09YTVGSJ8

Brand: GODEER

INTRODUCTION

Thank you for choosing the GODEER Queen Size Platform Bed. This bed frame features a modern design with an upholstered faux leather finish, a convenient hydraulic storage system, and an integrated LED light headboard. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure you get the most out of your new bed. Please read this manual thoroughly before assembly and use, and retain it for future reference.

SAFETY INFORMATION

Please observe the following safety precautions to prevent injury or damage to the product:

- Always assemble the bed frame on a soft, clean surface to prevent scratches.
- Ensure all parts are present and undamaged before beginning assembly. Do not use if any parts are missing or broken.
- Tighten all screws and bolts securely, but do not overtighten. Periodically check and re-tighten fasteners.
- Keep small parts and packaging materials away from children and pets to prevent choking hazards.
- Do not stand or jump on the bed frame.
- The maximum weight capacity for this bed frame is 500 pounds. Do not exceed this limit.
- When operating the hydraulic lift, ensure no objects or body parts are in the path of the moving frame to prevent pinching or injury.
- Only use the recommended mattress thickness of 6"-8" for optimal performance of the hydraulic lift and overall stability.

PACKAGE CONTENTS

Before assembly, verify that all components listed below are included in your package:

- Headboard with integrated LED light

- Side Rails (Left and Right)
- Footboard
- Center Support Beam
- Wooden Slats and Plastic Caps
- Hydraulic Lift Mechanism (2 units)
- Hardware Pack (screws, bolts, washers, Allen wrench)
- LED Remote Control
- Instruction Manual

ASSEMBLY INSTRUCTIONS

Please follow these steps carefully for proper assembly. Two people are recommended for assembly.

Step 1: Unpack and Identify Parts

Carefully unpack all components and lay them out on a soft, clean surface. Refer to the parts list to identify each piece. The overall dimensions of the assembled bed are approximately 88.6"L x 65.7"W x 26.6"H.

Image: Overall dimensions of the GODEER Queen Size Platform Bed.

Step 2: Assemble the Bed Frame

Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure. The faux leather upholstery provides a sleek black finish.

Step 3: Install the Center Support Beam

Secure the center support beam to the designated points on the headboard and footboard. This beam provides crucial support for the mattress and slats.

Step 4: Attach the Hydraulic Lift Mechanism

Mount the two hydraulic lift mechanisms to the bed frame according to the pre-drilled holes. Ensure they are oriented correctly and securely fastened. These mechanisms allow for easy lifting of the mattress platform.

Image: Detailed view of the hydraulic lift mechanism.

Step 5: Install the Wooden Slats

Insert the wooden slats into the plastic caps and attach them to the side rails and center support beam. Distribute the slats evenly across the frame. The slatted frame is designed for high load capacity, up to 500 LBS.

Image: Installation of wooden slats on the bed frame.

Step 6: Connect LED Lights

Connect the LED light strip cable from the headboard to the power adapter. Plug the adapter into a standard wall outlet. The LED lights offer 16 color options and 4 automatic changing modes.

OPERATING INSTRUCTIONS

Operating the LED Light Headboard

The LED lights are controlled by the included 24-button remote control. Ensure the power adapter is plugged in.

- **Power Button:** Turn the LED lights On/Off.
- **Color Selection:** Press the colored buttons to select from 16 static colors.
- **Brightness Adjustment:** Use the brightness up/down buttons to adjust the intensity of the lights.
- **Mode Selection:** Choose from 4 automatic changing modes (Flash, Strobe, Fade, Smooth) for dynamic lighting

effects.

Using the Hydraulic Storage System

The hydraulic storage system allows you to easily lift the mattress platform to access the large storage box underneath the bed. This creates extra space for your bedroom.

- **To Open:** From the foot of the bed, firmly grasp the edge of the mattress platform and lift upwards. The hydraulic mechanism will assist in lifting and holding the platform in the open position.
- **To Close:** Gently push the mattress platform downwards. The hydraulic mechanism will smoothly lower the platform back into place. Ensure no items are obstructing the closing path.

Image: Bed with hydraulic storage system open.

MAINTENANCE

Proper care will extend the life and appearance of your bed frame:

- **Cleaning the Faux Leather:** Wipe the upholstered surfaces with a soft, damp cloth. For tougher stains, use a mild soap solution and wipe dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning the LED Headboard:** Use a dry, soft cloth to gently wipe the LED light area. Do not spray liquids directly onto the lights or electrical components.
- **Hardware Check:** Periodically check all screws, bolts, and connections to ensure they remain tight. Re-tighten as necessary to maintain stability.
- **Hydraulic System:** The hydraulic system is designed for durability and requires minimal maintenance. Do not attempt to lubricate or disassemble the hydraulic pistons.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following table for common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame is wobbly or squeaks.	Loose hardware.	Check and tighten all screws and bolts.
LED lights not turning on.	Power adapter unplugged; remote battery dead; loose connection.	Ensure power adapter is securely plugged in. Replace remote battery. Check all cable connections.
Hydraulic lift difficult to open/close or does not stay open.	Mattress too heavy/light; obstruction; hydraulic mechanism issue.	Ensure mattress thickness is 6"-8". Check for obstructions. If issue persists, contact customer support.
Slats are falling out.	Slats not properly seated in plastic caps; caps damaged.	Ensure each slat is fully inserted into its plastic cap. Check caps for damage and replace if necessary.
