

Slopehill QN8010CE

Slopehill Professional Ionic Hair Dryer with Diffuser

MODEL: QN8010CE

User Instruction Manual

1. Important Safety Information

Please read all instructions carefully before using this appliance. Keep this manual for future reference.

- Do not use this appliance near water.
- Always unplug the appliance immediately after use.
- Do not place or store the appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If the appliance falls into water, unplug it immediately. Do not reach into the water.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged in any manner.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and the like.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- Do not direct hot air towards eyes or other heat-sensitive areas.
- Attachments may be hot during use. Allow them to cool before handling.
- Do not place appliance on any surface while it is operating.
- While using the appliance, keep your hair away from the air inlet openings.

2. Product Overview

The Slopehill Professional Ionic Hair Dryer (Model QN8010CE) is designed for efficient and gentle hair drying and styling. It features a high-speed brushless motor, ionic technology, and multiple settings to suit various hair types and styling needs.

Figure 1: Slopehill Professional Ionic Hair Dryer with included attachments.

Key Features:

- **2000W Brushless Motor:** High-speed 110,000 RPM motor for fast drying.
- **Ionic Technology:** Emits 30 million negative ions to reduce frizz and enhance shine.
- **Constant Temperature Control:** Monitors and prevents overheating damage.
- **Auto Clean Function:** Reverses airflow for 10 seconds to clean the filter.
- **Lightweight Design:** Weighs only 0.7 lb for comfortable use and travel.
- **Magnetic Attachments:** Includes 2 styling nozzles and 1 volumizing diffuser.

Components:

1. Hair Dryer Unit
2. Styling Nozzles (2 sizes)
3. Volumizing Diffuser
4. Power Cord (8.2 ft / 2.5m)

Figure 3: Visual representation of negative ion hair care benefits.

Figure 4: Product dimensions highlighting its lightweight and compact design.

Figure 5: The three magnetic attachments: two styling nozzles and one diffuser.

3. Setup

1. Unpack the hair dryer and all accessories from the packaging.
2. Ensure the power cord is free from kinks or damage.
3. Select the desired magnetic attachment (styling nozzle or diffuser) and securely attach it to the front of the hair dryer. The magnetic connection will hold it in place.
4. Plug the hair dryer into a suitable electrical outlet (110-120V, 50Hz/60Hz).

4. Operating Instructions

The hair dryer features intuitive controls for adjusting wind speed and temperature.

Figure 6: Control panel with power, temperature, and wind speed buttons.

Power On/Off:

- Press the **Power button** (bottom button) to turn the appliance on or off.

Adjusting Wind Speed:

- Press the **Wind Speed button** (top button with fan icon) to cycle through 3 wind speed levels:
 - Level I: Gentle wind
 - Level II: Medium wind
 - Level III: Strong wind

Adjusting Temperature:

- Press the **Temperature button** (middle button with thermometer icon) to cycle through 3 heat settings:
 - Low Heat (approx. 65°C ± 5°)
 - Medium Heat (approx. 82°C ± 5°)
 - High Heat (approx. 95°C ± 5°)
- To activate the **Cold Wind** function, long-press the Temperature button for 2 seconds. All heat indicator lights will turn off. Long-press again to return to heat settings.

Using Attachments:

- **Styling Nozzles:** Use the narrower nozzles for precise styling and smoothing. The wider nozzle provides a broader airflow for faster drying. These nozzles can be rotated 360° for optimal angle.
- **Volumizing Diffuser:** Ideal for enhancing natural curls and waves. It disperses air evenly to reduce frizz and add volume.

Video Demonstration:

Watch this video for a demonstration of the hair dryer's features and controls.

Video 2: Overview of the Slopehill High-Speed Brushless Motor Hair Dryer.

5. Maintenance

Auto Clean Function:

The hair dryer is equipped with an auto-cleaning feature to maintain optimal performance and extend motor life.

- While the hair dryer is in standby mode (plugged in but turned off), press and hold the **Wind Speed button** (top button) for 3 seconds.
- The motor will reverse its direction for approximately 10 seconds, blowing out any accumulated dust or debris from the rear filter.
- The appliance will automatically turn off after the cleaning cycle.

Figure 7: Auto Clean Technology in action.

Manual Filter Cleaning:

For thorough cleaning, the rear microfilter can be manually removed.

1. Ensure the hair dryer is unplugged from the power outlet.
2. Gently twist the rear filter cover counter-clockwise and pull it off.
3. Remove any visible hair, lint, or dust from the filter mesh using a soft brush or cloth.
4. Replace the filter cover by aligning it and twisting clockwise until it clicks into place.

6. Troubleshooting

- **Appliance not turning on:** Ensure the power cord is securely plugged into a working outlet. Check for any tripped circuit breakers.
- **No heat or inconsistent heat:** Verify that the temperature setting is not on 'Cold Wind'. If the issue persists, the appliance may have activated its overheat protection. Unplug and allow it to cool down for several minutes before restarting.
- **Reduced airflow:** Check the rear filter for blockages (hair, lint). Perform the auto-clean function or manually clean the filter.
- **Unusual noise or smell:** Immediately unplug the appliance and discontinue use. Contact customer support.

7. Specifications

Model Number	QN8010CE
Brand	Slopehill
Power Source	Corded Electric
Wattage	2000 watts
Motor Speed	110,000 RPM
Material	Ceramic
Color	Silver
Product Dimensions	7.48 x 7.48 x 1.57 inches
Item Weight	0.7 lbs (approx. 2.91 Pounds shipping weight)
First Available Date	April 26, 2022

8. Warranty and Support

For product support or warranty inquiries, please contact Slopehill customer service.

- Customer Support Phone: +1 (732) 762-3574

Please retain your proof of purchase for any warranty claims.
