## MAINTENANCE

### Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your phone. Avoid using harsh chemicals or abrasive materials, as these can damage the device's surfaces and waterproof seals. For stubborn dirt, a slightly damp cloth with water is recommended.

### Battery Care

To prolong battery life, avoid exposing your phone to extreme temperatures. Charge your device using the provided charger and cable. Do not leave the phone charging for extended periods after it has reached 100% to prevent overcharging.

## Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. You can usually find this option in the 'Settings' menu under 'System' or 'About phone'.

## TROUBLESHOOTING

### Common Issues and Solutions

- **Device not turning on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- **Screen unresponsive:** Try restarting the device by holding down the Power button for about 10-15 seconds.
- **Network connectivity issues:** Check if your SIM card is properly inserted. Toggle Airplane Mode on and off. Restart your device. Verify your mobile data or Wi-Fi settings.
- **Apps crashing or freezing:** Clear the cache and data for the problematic app in 'Settings > Apps'. If the issue persists, uninstall and reinstall the app.
- **Slow performance:** Close unused apps, clear cache regularly, and ensure sufficient storage space. Consider a factory reset as a last resort (back up your data first).
