### 3. SETUP AND ASSEMBLY

Follow these steps to assemble your TOBBI Snail Baby Bumper Car. Ensure all parts are present and undamaged before beginning.

1. **Install Motor:** Turn the car body over. Connect the motor connection wire pair according to the wire color and embed it into the body hole.
2. **Attach Rear Axle Wheels:** Insert the wheels into the rear axle, follow the gasket, and tighten with a nut. Repeat for the other wheel.
3. **Install Universal Wheels:** Put the two universal wheels into the slots and use the 4\*14 large flat head screws to tighten them into the car body.
4. **Connect Head Stock Wires:** Connect the wire from the head stock with the car base according to their matching colors.
5. **Insert Head Stock:** Insert the head stock into the car base according to the slot and secure it with screws.
6. **Install Backrest:** Insert the backrest into the back position and fix it with screws.

7. **Connect Power Wire:** Connect the power wire according to their same color, before tightening the seat with the car body.
8. **Secure Seat:** Tighten the seat with the car base using the screws.
9. **Apply Stickers:** Customize your bumper car with the provided DIY stickers.

## 4. OPERATING INSTRUCTIONS

---

The TOBBI Snail Baby Bumper Car offers two modes of operation for varied user experience and parental control.

### Child-Controlled Mode (Joysticks):

- Children can operate the car independently using the joystick controls located on the console.
- Push both joysticks forward simultaneously to move straight.
- Push one joystick forward to turn in the opposite direction.
- The car is designed for a safe and enjoyable speed.

### Parental Remote Control Mode:

- Parents can take control of the car using the included remote control.
- The remote allows for adjusting speed and direction, providing an extra layer of safety and assistance for younger children.

### Features During Operation:

- The car lights up in vibrant colors and plays music during operation.
- The car is capable of a full 360-degree spin for dynamic play.

## 5. MAINTENANCE

---

Regular maintenance ensures the longevity and safe operation of your bumper car.

- Keep the vehicle clean by wiping it with a damp cloth. Avoid using harsh chemicals.
- Regularly check all screws, nuts, and fasteners to ensure they are tight.
- Inspect the battery and charging cable for any signs of damage. Replace if necessary.
- Store the bumper car in a dry, cool place away from direct sunlight and moisture when not in use.

## 6. TROUBLESHOOTING

---

If you encounter any issues with your TOBBI Snail Baby Bumper Car, refer to the following common solutions:

- **Car not moving:** Ensure the power switch is on and the battery is charged. Check all wire connections for proper seating.
- **Lights or music not working:** Verify the respective switches are turned on. Check battery charge.
- **Remote control not responding:** Ensure the remote control has fresh batteries and is properly paired with the car.
- **Reduced performance:** This may indicate a low battery charge. Charge the battery fully before next use.

For persistent issues, please contact customer support.
