Wavytalk Salon Flat Iron Hair Straightener (Model N-35US-137RG-L) Instruction Manual

Model: N-35US-137RG-L | Brand: wavytalk

1. INTRODUCTION

Thank you for choosing the Wavytalk Salon Flat Iron Hair Straightener. This manual provides essential information for the safe and effective use of your new styling tool. Please read it thoroughly before use and keep it for future reference.

2. IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of burns, electrocution, fire, or injury to persons:

- **Burn hazard:** Surfaces get extremely hot during use. Avoid contact with skin.
- **Electric shock risk:** Keep away from water. Do not use near bathtubs, sinks, or other water sources.
- **Fire risk:** Unplug when not in use. Do not leave unattended when plugged in.
- Keep out of reach of children.

3. KEY FEATURES

- **Negative Ion Function:** 1-inch pure titanium plates deliver heat fast and evenly, boosting shine and reducing frizz for smoother hair.
- **Fast Heating:** Heats up in just 15 seconds for quick styling.
- **Adjustable Temperature:** 15 settings ranging from 170°F to 450°F (77°C to 232°C) for all hair types.
- **Preset Temperature Settings:** Quick access to 270°F (fragile hair), 350°F (damaged hair), and 410°F (healthy hair) via a dedicated 'P' button.
- **Versatile Styling:** Round edges and 3D floating plates allow for smoothing, straightening, curling, and

flipping.

- **Dual Voltage:** Worldwide compatible 100V-240V, automatically switches voltage (adapter may be required for the plug overseas).
- **Auto Shut-Off:** Automatically turns off after 60 minutes of inactivity for safety.
- **Safety Lock:** Features a safety lock for secure storage.

4. PRODUCT OVERVIEW

Figure 1: The Wavytalk Salon Flat Iron Hair Straightener in Bright Rose Gold.

Figure 2: The negative ion function helps smooth frizz and makes hair soft.

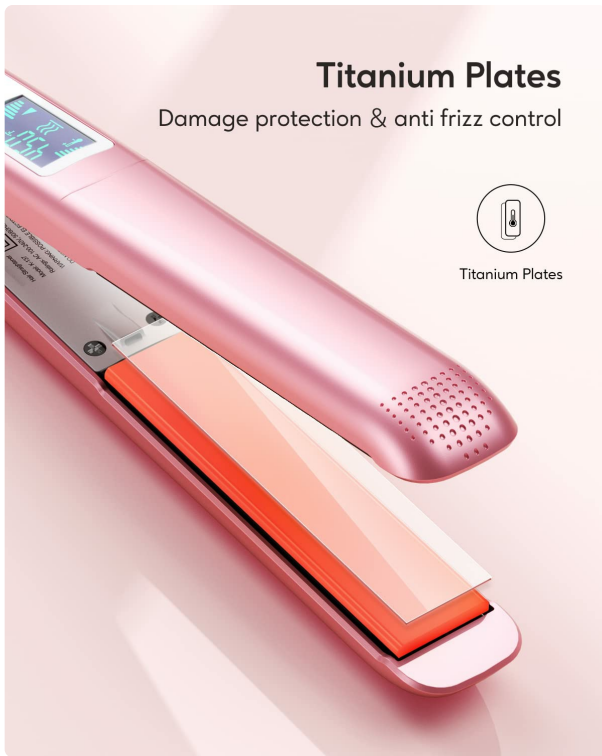

Figure 3: Titanium plates provide damage protection and anti-frizz control.

Figure 4: Digital display with 15 temperature levels from 170°F to 450°F and a preset button for quick selection.

Figure 5: Advanced PTC heater ensures 15-second fast heating.

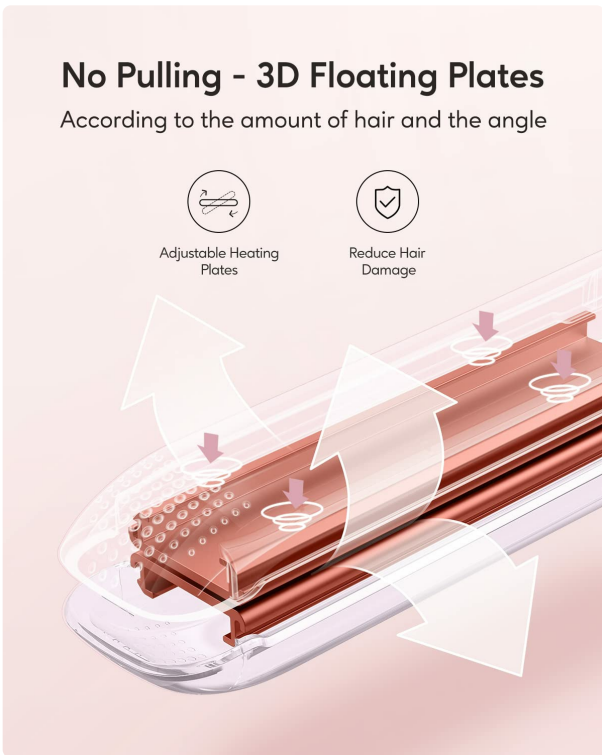

Figure 6: 3D floating plates adjust to hair thickness and angle, reducing pulling and damage.

Figure 7: The safety lock keeps the plates closed for convenient storage.

5. SETUP

1. **Plug In:** Insert the power plug into a suitable electrical outlet. The device is dual voltage (100V-240V) and will automatically adjust. An adapter may be needed for the plug type in some regions.
2. **Power On:** Press and hold the power button for a few seconds until the digital display illuminates.
3. **Select Temperature:** Use the '+' and '-' buttons to adjust the temperature to your desired setting (170°F - 450°F). Alternatively, press the 'P' (Preset) button to cycle through pre-set temperatures for fragile (270°F), damaged (350°F), or healthy (410°F) hair.
4. **Heat Up:** The flat iron will heat up rapidly, reaching the selected temperature in approximately 15 seconds. The digital display will show the current temperature as it rises.

6. OPERATING INSTRUCTIONS

6.1 Straightening Hair

1. Ensure hair is clean, dry, and detangled.
2. Section your hair into manageable strands, about 1-2 inches wide.
3. Place a section of hair between the titanium plates, close to the roots.
4. Gently glide the flat iron down the hair section from root to tip in one smooth motion. Avoid stopping in one place to prevent heat damage.
5. Repeat on all sections until desired straightness is achieved.

6.2 Curling Hair

1. Ensure hair is clean, dry, and detangled.
2. Section your hair into manageable strands.

3. Clamp a section of hair between the plates, about halfway down the strand.
4. Rotate the flat iron 180 degrees (either towards or away from your face) and slowly pull it down through the hair section to create a curl.
5. Release the hair and allow the curl to cool before touching it to set the style.
6. Repeat on all sections until desired curls are achieved.

6.3 Video Demonstration

Video 1: Official demonstration by Wavytalk US on how to achieve smooth, frizz-free hair using the 1-inch negative ion flat iron.

7. MAINTENANCE

- **Cleaning:** Ensure the device is unplugged and completely cool before cleaning. Wipe the plates and exterior with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Storage:** After use, allow the flat iron to cool completely. Use the safety lock to keep the plates closed. Store in a dry, safe place away from moisture and extreme temperatures.

8. TROUBLESHOOTING

- **Device not turning on:** Ensure the power cord is securely plugged into a working outlet. Press and hold the power button for a few seconds.
- **Not heating up:** Check the temperature setting on the digital display. Allow approximately 15 seconds for the device to reach the set temperature. If still not heating, ensure the power cord is not damaged.
- **Hair snagging:** Ensure hair is thoroughly detangled before use. Use smaller sections of hair. The 3D floating plates are designed to minimize snagging.
- **Auto shut-off:** This is a safety feature. The device will automatically turn off after 60 minutes of inactivity. Simply turn it back on if needed.

9. SPECIFICATIONS

Feature	Detail
Product Dimensions	13.58 x 2.36 x 2.36 inches; 15.52 ounces
Item Model Number	N-35US-137RG-L
Manufacturer	wavytalk
Product Benefits	Straightening, Hair Styling, Curling
Hair Type	All
Resulting Hair Type	Straight
Unit Count	1.0 Count
Size	1 inch
Item Dimensions L x W	12.2"L x 1.22"W
Cable Length	2.5 Meters
Item Shape	Flat
Color	Bright Rose Gold
Power Source	Corded Electric
Max Temperature Setting	450 Degrees Fahrenheit
Material Type	Titanium
Heater Surface Material	Titanium
