onerbl B09Z6LKH8C

onerbl AC/DC Adapter Instruction Manual

Model: B09Z6LKH8C

1. Introduction

This manual provides instructions for the safe and effective use of your onerbl AC/DC Adapter. This adapter is designed as a replacement power supply for specific monitors, including the 22bw 21.5" IPS LED Backlit Monitor (C4D29AA#ABA) and the Pavilion 23BW 23" IPS LED Backlit Monitor (C3Z93AA#ABA).
The adapter features a wide input voltage range (AC 100-240V, 50/60Hz) for worldwide compatibility and includes built-in protection mechanisms for safety.

2. Safety Information

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or damage to the product or connected devices.

- **Indoor Use Only:** This adapter is designed for indoor use. Do not expose it to rain, moisture, or extreme temperatures.
- **Proper Ventilation:** Ensure adequate ventilation around the adapter. Do not cover it or place it in an enclosed space during operation.
- **Compatible Devices:** Only use this adapter with devices that match its voltage and current specifications. Refer to your device's manual for power requirements.
- **Avoid Damage:** Do not use the adapter if the cord or plug is damaged. Do not bend, twist, or pull the cord excessively.
- **Disconnect Power:** Always unplug the adapter from the wall outlet before cleaning or if it will be unused for an extended period.
- **Children and Pets:** Keep the adapter out of reach of children and pets.

3. Package Contents

Verify that all items are present in the package:

- 1 x onerbl AC/DC Adapter
- 1 x AC Power Cord (2-pin)

Image: A close-up view of the 2-pin AC power cord.

4. Setup Instructions

Follow these steps to connect your onerbl AC/DC Adapter to your monitor:

1. **Connect AC Power Cord:** Insert the 2-pin end of the AC power cord into the corresponding receptacle on the AC/DC adapter unit.
2. **Connect DC Output:** Plug the barrel connector (DC output) of the adapter into the power input port of your compatible monitor (e.g., 22bw or Pavilion 23BW).
3. **Connect to Wall Outlet:** Insert the 2-prong plug of the AC power cord into a standard wall electrical outlet (AC 100-240V, 50/60Hz).
4. **Verify Connection:** Ensure all connections are secure. The adapter may have an indicator light to show it is receiving power.

5. Operating Instructions

Once properly connected, the onerbl AC/DC Adapter will supply power to your monitor. No further user interaction is typically required for operation.

- The adapter is designed for continuous operation within its specified voltage and current limits.
- It features built-in protections against over-voltage, over-current, and short-circuits to safeguard your devices.

Image: Diagram illustrating the smart chip with multiple protection features: short-circuit protection, over-voltage protection, and over-current protection.

6. Maintenance

To ensure the longevity and proper functioning of your AC/DC adapter, follow these maintenance guidelines:

- **Cleaning:** Disconnect the adapter from the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly winding the cable.
- **Inspection:** Periodically inspect the adapter and cables for any signs of damage, such as frayed wires, cracks, or loose connections. If damage is found, discontinue use and replace the adapter.

7. Troubleshooting

If you encounter issues with your AC/DC adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Monitor not receiving power.	Adapter not properly connected. Wall outlet not functioning. Damaged adapter or cable. Incompatible monitor.	Ensure all connections (AC cord to adapter, adapter to monitor, AC cord to wall) are secure. Test the wall outlet with another device. Inspect the adapter and cables for visible damage. If damaged, replace the adapter. Verify your monitor model is listed as compatible.
Adapter feels hot during use.	Normal operation (slight warmth). Poor ventilation. Overload or internal fault.	A slight warmth is normal. Ensure the adapter is in a well-ventilated area and not covered. If excessively hot or emitting smoke/smell, immediately unplug and discontinue use.

8. Specifications

Model	B09Z6LKH8C
Brand	onerbl

Input Voltage	AC 100-240V, 50/60Hz (Worldwide AC Input)
Output Voltage/Current	Matches original monitor requirements (e.g., 22bw, Pavilion 23BW)
Connector Type	Barrel Connector
Compatible Devices	• 22bw 21.5" IPS LED Backlit Monitor (C4D29AA#ABA) • Pavilion 23BW 23" IPS LED Backlit Monitor (C3Z93AA#ABA) • Other monitors requiring similar power specifications.
Cable Length	Approximately 10 feet (3 meters) total length.
Protection Features	Over Voltage Protection, Over Heat Protection, Short-Circuit Protection, Over-Current Protection.
Certifications	UL Listed
Product Dimensions (Adapter Unit)	Approximately 4.2 x 1.8 x 1.2 inches (10.7 x 4.6 x 3 cm)

Image: Diagram showing the dimensions of the AC/DC adapter unit and its cables. Total cable length is approximately 127.8 inches (10.65 feet).

Image: Illustration highlighting the extended cord design, showing a 10 ft cable length in use.

9. Warranty and Support

For warranty information or technical support, please refer to the seller's policy on the purchase platform or contact the manufacturer directly. Keep your purchase receipt for warranty claims.
