Instant Pot 140-6017-01

Instant Pot Cold Brew Electric Coffee Maker

MODEL: 140-6017-01

Introduction

The Instant Pot Cold Brew Electric Coffee Maker is designed to produce true cold brew coffee or iced tea in under 20 minutes, significantly faster than traditional overnight brewing methods. Utilizing FlashExtract technology, this appliance extracts rich flavor without heat, offering a smooth, less acidic beverage. It accommodates your preferred ground coffee or loose tea leaves, allowing for customizable brew strength. The removable glass pitcher is suitable for brewing, serving, and storing, and is dishwasher safe for convenient cleaning.

Setup

Before first use, ensure all removable parts are thoroughly cleaned. Wash the glass pitcher, brewing basket, and lid with warm, soapy water or place them in the dishwasher. Wipe the base unit with a damp cloth. Ensure all parts are dry before assembly.

Components Overview

- **Base:** The electronic unit with touch controls for setting brew time.
- **Glass Pitcher:** Holds water and brewed beverage, with measurement markings.
- **Brewing Basket:** Stainless steel mesh filter for coffee grounds or tea leaves.
- **Lid:** Secures the brewing basket and pitcher.

Assembly

1. Place the glass pitcher onto the base.
2. Insert the brewing basket into the pitcher.
3. Place the lid onto the pitcher, ensuring it is properly aligned and secured.

Operating Instructions

Making Cold Brew Coffee

1. Fill the glass pitcher with cold water up to the MAX (32oz/950ml) line.

2. Add 7 scoops (approx. 36 tsp/67 grams) of medium-ground coffee to the brewing basket. Do not overfill the brewing basket.
3. Place the loaded brewing basket into the glass pitcher.
4. Secure the lid onto the glass pitcher, turning it to the closed position.
5. Place the pitcher onto the powered base.
6. Use the '+' and '-' buttons on the touch-screen interface to set the desired brew time. For a 32oz batch, 20 minutes is recommended. For a 16oz batch, 15 minutes is recommended.
7. Press the Start (play) button to begin brewing.
8. The unit will agitate the coffee grounds periodically.
9. Once the timer reaches '00', brewing is complete.
10. Remove the lid and the brewing basket.
11. Pour the cold brew over ice and add milk or sweeteners to taste.

Brew fast. Sip slow.

Customizing Brew Strength

The Instant Cold Brew Coffee Maker allows you to control the strength of your beverage. You can increase the brew time up to a maximum of 30 minutes for a bolder flavor. Alternatively, you can adjust the amount of ground coffee or tea leaves used to achieve your preferred strength.

Making Iced Tea

The Instant Cold Brewer can also be used to make iced tea. Use loose tea leaves (not tea bags) in the brewing basket. The brew basket can hold up to 6 teaspoons of loose tea leaves. Adjust the quantity of tea and brew time (up to 30 minutes) to achieve your desired tea strength.

Maintenance

Regular cleaning ensures optimal performance and longevity of your Instant Pot Cold Brew Electric Coffee Maker.

Cleaning

- The glass pitcher, lid, and brewing basket are **dishwasher safe** (top rack recommended).
- After each use, discard used coffee grounds or tea leaves from the brewing basket.
- Wipe the exterior of the base unit with a soft, damp cloth. Do not immerse the base unit in water.

Easy to clean
