The YANZHI 15W power cord is compatible with a range of Amazon Echo Dot, Echo Show, Echo Pop, and Fire TV Cube models.

2. SETUP INSTRUCTIONS

Follow these steps to correctly connect your YANZHI 15W Replacement Power Cord to your compatible device.

1. **Unpack the Power Cord:** Carefully remove the power cord from its packaging. Inspect it for any visible damage.
2. **Locate the Power Port:** Identify the power input port on your Amazon Echo or Fire TV device. This is typically a circular port.
3. **Connect to Device:** Insert the small, round connector end of the YANZHI power cord firmly into the power input port of your device. Ensure it is fully seated.
4. **Connect to Power Outlet:** Plug the AC adapter end of the power cord into a standard 110V AC wall outlet.
5. **Verify Power:** Your device should now power on. Look for indicator lights on your device to confirm it is receiving power.

3. OPERATING INSTRUCTIONS

The YANZHI 15W Replacement Power Cord operates as a direct power supply for your compatible Amazon device. Once connected as described in the Setup section, the power cord continuously supplies the necessary electrical current to your device.

- **Continuous Power:** The adapter provides a stable 12V 1.25A (15W) output to ensure consistent operation of your device.
- **Indicator Light:** Some compatible devices may display an indicator light (e.g., blue or green ring) when successfully powered on.
- **Unplugging:** To power off your device, simply unplug the AC adapter from the wall outlet.

4. MAINTENANCE

Proper care and maintenance will extend the lifespan of your power cord and ensure safe operation.

- **Keep Dry:** Avoid exposing the power cord and adapter to water or excessive moisture.
- **Avoid Extreme Temperatures:** Do not use or store the power cord in extremely hot or cold environments.
- **Handle with Care:** Do not pull on the cord to disconnect it from the wall or device. Always grasp the plug or connector directly.
- **Prevent Bending:** Avoid sharp bends or kinks in the cable, especially near the connectors, as this can damage internal wires.
- **Clean Gently:** If cleaning is necessary, unplug the adapter and wipe it with a dry, soft cloth. Do not use liquid cleaners.

5. TROUBLESHOOTING

If you encounter issues with your YANZHI 15W Replacement Power Cord, refer to the following common problems and solutions.

- **Device Not Powering On:**

- Ensure both ends of the power cord are securely connected to the device and the wall outlet.
- Try plugging the adapter into a different wall outlet to rule out an issue with the original outlet.
- Verify that your device is listed as compatible with this 15W power cord.

- **Intermittent Power:**

- Check for loose connections at both the device and the wall outlet.
- Inspect the cable for any visible damage, such as cuts or severe kinks. If damaged, discontinue use and replace.

- **Adapter Feels Hot:**

- It is normal for power adapters to feel slightly warm during operation. However, if it feels excessively hot to the touch or emits a burning smell, immediately unplug it and discontinue use. Contact customer support.
