BoxWave Designio Leather Pouch

Instruction Manual: Designio Leather Pouch

Model: Designio Leather Pouch (Compatible with DT-Research DT380CR)

1. INTRODUCTION

The BoxWave Designio Leather Pouch is a protective sleeve designed to carry and safeguard your DT-Research DT380CR device. Crafted from genuine leather with a soft interior lining, this pouch offers protection against scratches and minor impacts during transport. Its simple design ensures ease of use and secure storage for your device.

2. SETUP

2.1 Unpacking

Carefully remove the Designio Leather Pouch from its packaging. Inspect the pouch for any signs of damage during shipping. If any damage is observed, please contact customer support.

2.2 Initial Inspection

Before first use, ensure the interior of the pouch is clean and free of any debris that could potentially scratch your device. The interior is lined with velvet to provide a smooth surface for your device.

3. OPERATING INSTRUCTIONS

3.1 Inserting Your Device

1. Hold the Designio Leather Pouch with the opening facing upwards.
2. Gently slide your DT-Research DT380CR device into the pouch. Ensure the device is aligned with the opening to prevent snagging.
3. Push the device fully into the pouch until it is securely seated at the bottom.
4. Close the small buckle closure flap over the top of your device to secure it within the pouch.

3.2 Removing Your Device

1. Unfasten the buckle closure flap.
2. Gently pull your DT-Research DT380CR device upwards and out of the pouch. Avoid forcing the device to prevent damage to both the device and the pouch.

4. MAINTENANCE

4.1 Cleaning

To clean the exterior of the leather pouch, use a soft, damp cloth. For stubborn dirt, a mild leather cleaner specifically designed for genuine leather can be used. Apply the cleaner sparingly to the cloth, not directly to the pouch. Wipe gently and then buff with a dry, soft cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive water, as these can damage the leather.

The interior velvet lining can be cleaned by gently shaking out any dust or debris. A lint roller can also be used for light cleaning.

4.2 Storage

When not in use, store the pouch in a cool, dry place away from direct sunlight and extreme temperatures to preserve the integrity of the leather.

5. TROUBLESHOOTING

5.1 Device Does Not Fit

This Designio Leather Pouch is specifically designed for the DT-Research DT380CR. If your device does not fit, please verify that you have the correct model. Ensure no other accessories (e.g., bulky cases) are attached to your device that might prevent it from fitting into the pouch.

5.2 Pouch Appears Damaged

If the pouch arrives damaged or shows signs of wear prematurely, please refer to the warranty information or contact BoxWave customer support for assistance.

6. SPECIFICATIONS

Feature	Detail
Product Name	Designio Leather Pouch
Compatibility	DT-Research DT380CR
Brand	BoxWave
