How to Play

Objective

The goal of Vollifanten is to be the first player to completely fill all spaces within your elephant's belly with food foils.

Gameplay

1. Players take turns in a clockwise direction.
2. On your turn, draw one food foil from the face-down draw pile.
3. Carefully place the drawn food foil into your elephant's belly. The foil must cover at least one empty space. You cannot place a foil on top of another foil unless it completely covers it and fits within the grid.
4. Players must choose the foil that best fits their elephant's current configuration, aiming to efficiently cover all available spaces.
5. The game involves strategic placement to efficiently cover all available spaces.
6. The first player to completely fill their elephant's belly wins the game.

Solo Variant

The game includes a solo play option for individual practice and challenge. Follow the main gameplay rules, aiming to fill your elephant's belly in the fewest possible turns or with the most efficient use of foils.
