Robustt B-LIGHT-NON-RECHARGEABLE

Robustt Baton Light Stick User Manual

Model: B-LIGHT-NON-RECHARGEABLE

Brand: Robustt

INTRODUCTION

The Robustt Baton Light Stick is a non-rechargeable, 21-inch safety device designed for traffic control, street protection, and general signaling in various environments. It features red and green blinking light modes to enhance visibility and communication, particularly in low-light conditions or at night. This manual provides essential information for the safe and effective use of your Robustt Baton Light Stick.

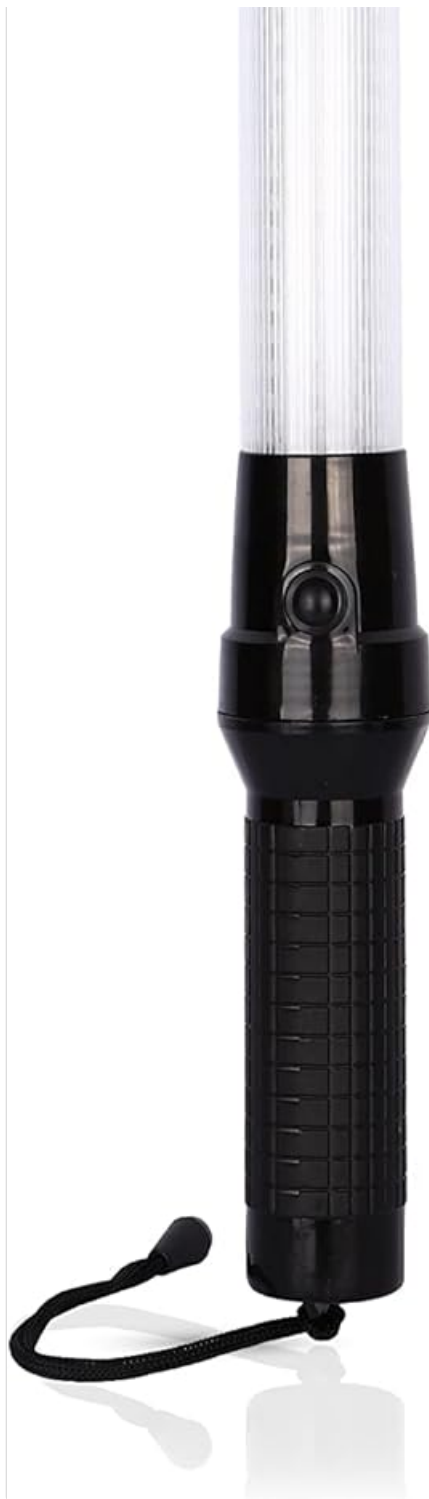

Figure 1: Robust 21-inch Baton Light Stick, showing its cylindrical shape and black handle with a clear light tube.

SAFETY INFORMATION

Please read and understand all safety instructions before operating the device. Failure to do so may result in injury or damage to the product.

- Do not immerse the light stick in water. While it has some water resistance for light rain, it is not certified as waterproof.
- Ensure batteries are inserted correctly according to polarity markings.
- Do not mix old and new batteries, or different types of batteries.
- Remove batteries if the device will not be used for an extended period to prevent leakage.
- Keep out of reach of children.
- Do not look directly into the light source to avoid eye strain.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x Robustt Baton Light Stick

SETUP

Battery Installation

The Robustt Baton Light Stick is non-rechargeable and requires batteries for operation. Batteries are not included with the product.

1. Locate the battery compartment at the base of the light stick handle.
2. Twist or unscrew the cap of the battery compartment.
3. Insert the required batteries (e.g., D-cell, specific type not explicitly stated in product data, but typically for such devices) according to the polarity indicators (+/-) inside the compartment.
4. Securely replace the battery compartment cap.

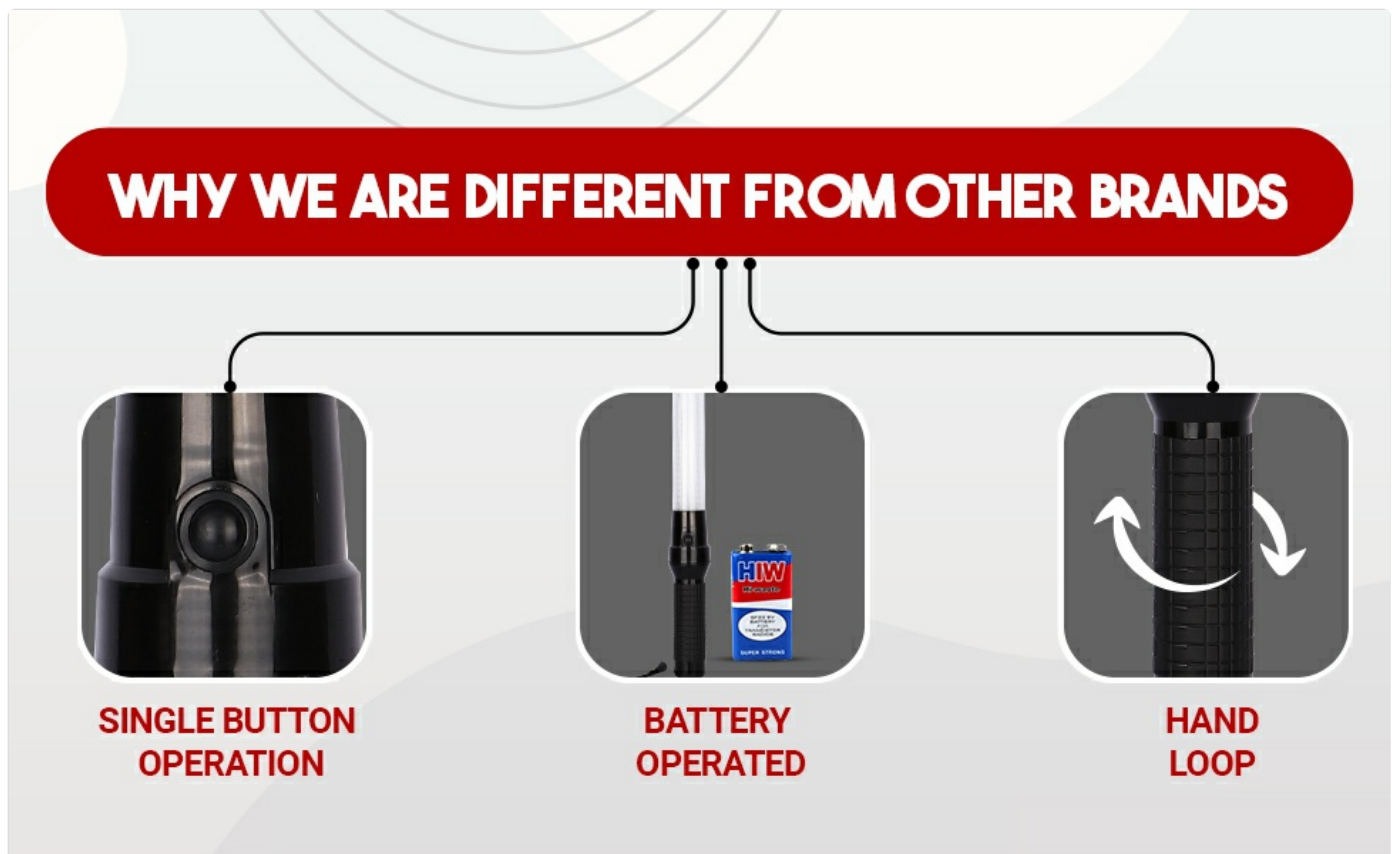

Figure 3: Illustration showing the light stick is battery operated. Ensure correct battery insertion for proper function.

OPERATING INSTRUCTIONS

The light stick features a single button for cycling through its various light modes.

1. **Power On / Blinking Red:** Press the button once to turn on the light stick. It will illuminate with a blinking red light.
2. **Steady Green:** Press the button a second time to switch to a steady-glow green light.
3. **Red and Green Blinking:** Press the button a third time to activate both red and green lights blinking simultaneously.
4. **Power Off:** Press the button a fourth time to turn off the light stick.

Figure 5: Depiction of the light stick displaying both red and green illumination options, demonstrating its dual-color capability.

MAINTENANCE

Cleaning

To clean the light stick, wipe it with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the polycarbonate material.

Battery Replacement

When the light output diminishes or the device stops functioning, it is time to replace the batteries. Follow the battery installation steps in the "Setup" section to replace them.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Light stick does not turn on.	Batteries are dead or low. Batteries are inserted incorrectly. Battery compartment cap is not secured.	Replace with new batteries. Check and correct battery polarity. Ensure the cap is tightly closed.
Light is dim or flickers.	Batteries are low. Loose connection in battery compartment.	Replace batteries. Re-seat batteries and ensure cap is secure.

SPECIFICATIONS

Feature	Detail
Model Number	B-LIGHT-NON-RECHARGEABLE
Dimensions	21.65 x 1.97 x 1.97 inches (55 x 50 x 50 mm)
Weight	5.8 ounces (165 grams)
Color	Transparent (Red & Green Blink)
Material	Plastic, Polycarbonate (PC)
Light Source Type	Light Emitting Diode (LED)
Power Source	Battery Powered (Batteries not included)
Brightness	100 lumen
Bulb Features	Blinking, Color Changing
Water Resistance	Designed for light rain, not certified waterproof.

Weight 100 gm
