

Sea-Doo BRP Audio-Premium System User Manual

Model: 295100839

1. INTRODUCTION

The Sea-Doo BRP Audio-Premium System is a high-quality, fully integrated audio solution designed specifically for compatible Sea-Doo watercraft. This system features Bluetooth connectivity, allowing seamless streaming of music from your smartphone or other Bluetooth-enabled devices. Equipped with two powerful 50-watt marine-grade speakers, it delivers crisp, clear sound even in challenging marine conditions. The system is built with corrosion-resistant materials and is sealed for water resistance, ensuring durability and reliability on the water. A convenient remote control pad on the left speaker provides easy access to volume and track controls. Notably, the system is designed to continue playing music even after the engine is turned off.

2. SAFETY INFORMATION

Please read all safety instructions carefully before installation and operation. Failure to follow these instructions may result in damage to the product, watercraft, or personal injury.

- Ensure the watercraft's power is disconnected before beginning any installation or maintenance procedures.
- Always use appropriate tools and follow recommended torque specifications for fasteners.
- Verify all electrical connections are secure and properly insulated to prevent short circuits and water ingress.
- Do not attempt to modify the audio system. Unauthorized modifications can void the warranty and create safety hazards.
- Keep the volume at a reasonable level to remain aware of your surroundings and other watercraft.

3. PACKAGE CONTENTS

Verify that all components listed below are present in your package:

- Amplifier
- Main harness
- Speaker harness
- Speaker x 2
- Speaker grille x 2
- Bluetooth remote control radio
- Left and right enclosure assembly

- Elastic stop nut x 6
- Insert x 4

4. SETUP AND INSTALLATION

4.1 Compatibility

This audio system is compatible with the following Sea-Doo models:

- GTI, GTI SE, GTR, GTR-X and Wake 170 (2020 and up)
- RXP-X (2021 and up)
- FishPro Scout

4.2 Installation Overview

Installation typically involves mounting the speakers and amplifier, connecting the main and speaker harnesses, and integrating the Bluetooth remote control. For detailed, model-specific installation instructions, refer to your watercraft's service manual or consult an authorized BRP dealer.

Note: A harness (PN 278003684) is required if installing this audio system with the Garmin Echomap Plus 62cv Fish Finder or heated grips.
