Merax House Bed with Roof and Fence (Twin Size)

Merax Twin Size House Bed with Roof and Fence Instruction Manual

Model: House Bed with Roof and Fence (Twin Size) | ASIN: B09ZKH8XNT

INTRODUCTION

Thank you for choosing the Merax Twin Size House Bed with Roof and Fence. This manual provides essential information for the safe assembly, proper use, and maintenance of your new bed. Please read these instructions carefully before beginning assembly and retain them for future reference.

This bed is designed to provide a fun and secure sleeping environment for children, featuring a unique house-like structure with a roof and a decorative fence.

SAFETY INFORMATION

- Always follow assembly instructions precisely. Incorrect assembly can lead to instability and injury.
- Ensure all hardware is securely tightened before use. Periodically check and re-tighten as necessary.
- Do not allow children to climb on the roof structure or use the bed as a trampoline.
- Keep small parts out of reach of children during assembly to prevent choking hazards.
- This bed is intended for use with a twin-size mattress. Ensure the mattress fits snugly to prevent gaps.
- Maximum weight recommendation for this bed is 220 pounds.

SETUP AND ASSEMBLY

Assembly of the Merax Twin Size House Bed requires careful attention to detail. While designed for straightforward assembly, having two adults for the process is recommended to ensure ease and safety.

Before You Begin:

- Unpack all components and verify against the parts list (not provided in this manual, refer to your product packaging).
- Ensure you have sufficient space for assembly.

- Gather any necessary tools. Hardware is included with the bed.
- **Important Note:** Slats are not included with this bed. A box spring or foundation is required to support your mattress.

Assembly Steps:

1. Begin by assembling the main frame components according to the detailed diagrams provided in your product packaging.
2. Attach the fence panels to the side rails, ensuring they are oriented correctly.
3. Construct the roof frame by connecting the designated wooden pieces.
4. Secure the roof frame to the main bed frame.
5. Once the frame is fully assembled, place your box spring or foundation inside the bed frame.
6. Finally, place your twin-size mattress on top of the foundation.
7. Double-check all screws and bolts to ensure they are tight and secure.

OPERATING INSTRUCTIONS (USAGE)

The Merax Twin Size House Bed is designed for comfortable and imaginative use by children.

- **Sleeping Area:** The bed provides a secure and cozy space for sleeping. Its low height makes it easy for children to get in and out independently, reducing the risk of falls.
- **Playhouse Feature:** The roof and fence design encourages imaginative play. Children can decorate the bed with lights, fabrics, or toys to personalize their space.
- **Air Circulation:** The semi-enclosed design ensures adequate air circulation for a comfortable sleep environment.

MAINTENANCE

Regular maintenance will help prolong the life and ensure the safety of your Merax House Bed.

- **Cleaning:** Wipe down the wooden surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Hardware Check:** Periodically inspect all screws, bolts, and connections. Re-tighten any loose hardware to maintain stability and safety.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, which can cause wood to dry out or warp. Maintain a stable room temperature and humidity.

TROUBLESHOOTING

If you encounter any issues with your Merax House Bed, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware.	Check and re-tighten all screws and bolts. Ensure all connections are firm.
Squeaking noises.	Loose connections or friction between wood parts.	Re-tighten all hardware. If squeaking persists, apply a small amount of paraffin wax or silicone spray to contact points between wooden components.
Mattress not properly supported.	Missing box spring or foundation.	This bed requires a box spring or foundation as slats are not included. Ensure one is in place for proper mattress support.

SPECIFICATIONS
