

Nothing Nothing Earbuds

# Nothing Ear (1) Wireless Earbuds User Manual

Model: Nothing Earbuds

## PRODUCT OVERVIEW

The Nothing Ear (1) are true wireless earbuds designed for immersive audio experience with active noise cancellation. Their distinctive transparent design showcases internal components, offering a unique aesthetic. These earbuds are engineered for comfort, durability, and high-quality sound performance across various activities.

Image: Nothing Ear (1) earbuds in their transparent charging case, showcasing the unique design.

## WHAT'S IN THE BOX

---

- Wireless Earbuds (Nothing Ear (1))
- Wireless Charging Case
- USB-C Cable
- Silicone Ear Tips (Small, Medium, Large)

## KEY FEATURES

---

### Unique Transparent Design

NOTHING

## UNIQUE TRANSPARENT DESIGN

Through the shell to  
penetrate the  
internal components ,it is  
very delicate and is full of  
technology sense

The earbuds feature a unique transparent design, allowing visibility of the internal components, giving them a distinct technological aesthetic.

**Pure Sound & Precise Tuning**

## PURE SOUND

Nothing ear (1) wields a sizable 11.6 mm dynamic driver to power rich, immersive sound. A spacious air chamber allows your content to expand and realise its full potential. Note by note, the audiophiles at Teenage Engineering painstakingly dialled in the software and hardware for extraordinary bass, mid, and treble performance. Behind the scenes, the latest Bluetooth 5.2 connectivity ensures you never miss a beat

Equipped with an 11.6mm dynamic driver and a spacious air chamber, the earbuds deliver pure sound with high-quality bass, midrange, and treble performance, tuned by Teenage Engineering.

### Smart Adaptive Noise Cancellation

## Pure sound Precisely Tuned

We have cleared the way for superb sound, voice, and connectivity. And 11.6mm dynamic driver and spacious air chamber provide advanced bass, mid, and treble performance. All tuned by audiophiles at teenage engineering.

Support for Active Noise Cancellation (ANC) and Transparency Mode. Three-mic call noise reduction ensures clear voice calls by effectively isolating and enhancing the main voice.

## Extended Battery Life

### 34H Music Playback\* Ready for Non-stop Enjoyment

Optimized for low power consumption, the NOTHING Ear 1 Earbuds features a combined battery life of 34 hours (with charging case)

(ANC Off)

Up to

**34**

hrs in the case

(ANC On)

**24**

hrs

Ear (L) case charges with Qi compatible wireless chargers or USB-C chargers

Enjoy up to 5 hours of listening time on a single charge, and a total of 34 hours with the charging case (ANC off). A 10-minute charge provides 1.2 hours of playback.

## SETUP & PAIRING

### Initial Pairing

1. Ensure the earbuds are in the charging case and the case lid is open.
2. Press and hold the pairing button on the charging case for a few seconds until the indicator light flashes.
3. On your device (smartphone, tablet, etc.), go to Bluetooth settings and select "Nothing Ear (1)" from the list of available devices.
4. Confirm the pairing.

### Nothing Ear (1) App

Download the official Nothing Ear (1) app from your device's app store (available on iOS and Android). The app allows you to customize settings, adjust the equalizer, and access features like 'Find My Earbud'.

NOTHING

ear(1)

# OUT.OFF. IN.ON.

Pause music or video automatically by removing an earbud. When you're ready to play, just pop it back in.

# ear (1) APP

Access ear(1) features and customise settings including equalizers and control gestures. Available on iOS and Android.

# SWEAT & SPLASH RESISTANT

With help from its composite mesh design, ear(1) earbuds are sweat and water splash resistant and hold an IP X4 rating.

# PAIR & PLAY

Pair instantly with Google Fast Pair compatible devices. Just open the case, hit pair, and enjoy.

Image: Nothing Ear (1) app features and pairing instructions.

## OPERATING INSTRUCTIONS

---

### Touch Controls

The Nothing Ear (1) earbuds feature customizable touch controls on each earbud. These controls allow you to manage playback, calls, and noise cancellation modes.

- **Triple Tap:** Next Song (Right Earbud), Previous Song (Left Earbud)
- **Tap & Hold:** Toggle Noise Cancellation / Transparency Mode / Off
- **Double Tap:** Play/Pause music
- **Slide on Stem:** Volume Up/Down (works on both earbuds)

### In-Ear Detection

The earbuds automatically play audio when inserted into your ears and pause when removed. This feature can be toggled on/off via the Nothing Ear (1) app.

### Latency Mode

The app offers a Low Latency Mode to optimize sound and video synchronization for a better experience when playing games or watching videos. Be aware that using this mode in environments with many wireless devices may cause signal interference.

## SOUND CUSTOMIZATION

---

The Nothing Ear (1) app includes an Equalizer feature to fine-tune your sound experience. While not a multi-band equalizer, it offers several presets:

- **Balanced:** Default sound profile.
- **More Treble:** Enhances high frequencies.
- **More Bass:** Boosts low frequencies for a punchier sound.
- **Voice:** Optimizes vocals, ideal for podcasts or audiobooks.

## MICROPHONE QUALITY

---

Each earbud is equipped with three high-definition microphones and Clear Voice Technology. Advanced algorithms analyze voice and sound combinations, even in windy conditions (up to 40km/h), to isolate and amplify your voice for remarkable clarity during calls.

## MAINTENANCE & CARE

---

- Keep the earbuds and charging case clean using a soft, dry cloth.
- Avoid exposing the earbuds to extreme temperatures or direct sunlight for prolonged periods.
- The earbuds are IPX4 sweat-proof and water-resistant, suitable for daily use and workouts, but should not be submerged in water.
- Store in the charging case when not in use to protect and charge them.

## TROUBLESHOOTING

---

For common issues such as pairing problems or sound discrepancies, try the following:

- Ensure both earbuds are charged.
- Reset the earbuds by placing them in the case, closing the lid, and then reopening.
- Forget the device in your phone's Bluetooth settings and re-pair.
- Check for firmware updates via the Nothing Ear (1) app.
- If issues persist, refer to the 'Tips & Support' section within the app or contact Nothing customer support.

Hold them for 2s, they will power on.

**Manually Power Off**  
In non-music mode or standby mode, press & hold either earbud for 3s, both earbuds will power off at the same time.

01

#### Bluetooth Connection

Prior to first use (or not in use for long time), please fully charge both earbuds and charging case.

##### First Time Pairing

**Step 1:** Take both earbuds out from charging case, they will automatically power on and enter pairing mode.  
At this time, red indicator of master earbud will flash Blue & Red light alternately, and the vice earbud red indicator flashes Blue 2 times every 2s.  
**Step 2:** Activate the Bluetooth setting on your phone, search and connect "D8".

Once connected, the red light of both earbuds goes off.

**\*Note:** If the earbuds are not connected to your device over 5 minutes, the earbuds will power off automatically.

02

##### For Second Time Use

If the earbuds have already connected with your device, and the Bluetooth setting of this device is on, in the second time using, when you take out the earbuds from the charging case, they will connect with your device automatically.

##### Pair with Other Device

D8 earbuds have memory function, they usually auto connect with the last paired device.

Thus, if you want to pair them with other device, you should disconnect "D8" from the last paired device, and forget the pairing record on the last device. Then try to connect it to a new device, it should work properly.

##### Music Mode (Only Left/Right Earbud is being Used)

You can use one earbud alone, leave another earbud in the charging case.

• When in Dual mode, put one earbud into the charging case.  
• Or only take one earbud out of the charging case, then search & connect "D8" on your device.

03

#### Factory Restore Settings

When should I reset?

- 1) Only one earbud plays music.
- 2) Both earbuds can not work together.
- 3) Once connection issue.

##### Follow Steps Below to Reset Earbuds

**Step 1:** Delete the pairing name "D8" on your phone and deactivate the Bluetooth setting of all device near by the earbuds.

**Step 2:** Put the two earbuds in the charging case, keep them in the charging state.

**Step 3:** Press the MFB button for 8 seconds, then the earbud will flash red & blue light alternately for 8 seconds, which means the both earbuds have reset completely.

**Step 4:** Now, pick up the earbuds to turn them on, activate the Bluetooth setting on your phone search and select "D8" to connect, it should work properly.

If not, please put the earbuds back to the charging case and repeat the steps above.

**\*Note:** After resetting, the pairing record between the earbuds and all your devices will be cleared. In case there is any unsuccessful message in your device. Please consider to delete the historical record of "D8" and try the pairing process again.

04

#### Earbuds Charging

##### To Charge Earbuds

Insert the earbuds into charging case properly, they will power off & get charged.

Flash during charging:  
Turn off once fully charged.

(Earbud's LED light: Red light up means "being charged", Red light off means "fully charged".)

##### Low Battery Alarm

When the battery is less than 10% (and the voltage is lower than 3.4V), a prompt voice "Please charge" will be emitted, announce once every 3 minutes and 5 times in total, and then the earbuds will power off as normal.

**\*Tip:** If the earbuds don't charge or even can't turn on, that may because there is solidified layer or something else on the charging connector or charging pin.  
You can solve this problem by cleaning the magnet connector on the earbuds and charging pins on the charging case with another object.

05

#### Charging Case Charging

##### Type-C Charging

There is a Type-C charging cable in the small black paper box inside the parking box. Please use the provided Type-C cable with a 5V/1A adapter(not included) to charge the charging case.

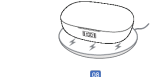

During charging, the charging case power display will show the battery in real time. The number will be displayed as 100 when fully charged.

##### Wireless Charging

Easy to charge your charging case without cables, just put the charging case on a wireless charging pad.

If the charging case doesn't start to charge, please try to reposition it.  
(Wireless Charging Pad Not Included)

06

##### To Charge Your Phone

Fully charged charging case supports charging your mobile phone, connect it to your mobile phone with your charging cable.

#### Multi-Function Operations

##### For Call

Answer Call: Click Once  
End Call: Click Once  
Reject Call: Long Press 2S

##### Voice Assistant

Voice assistant: Quick Triple-Click

**\*Note:** Must in non-music mode or standby mode.

07

##### For Music

###### [Functions on "R" Earbud]

Play/Pause: Click Once  
Next Track: Quick Double-Click  
Volume +: Long Press & Hold

**\*Note:** In music mode, "R" earbud only supports next song and volume +. Now turn it back to the previous song by your phone.

[Functions on "L" Earbud]

Play/Pause: Click Once  
Previous Track: Quick Double-Click  
Volume -: Long Press & Hold

**\*Note:** In music mode, "L" earbud only supports last song and volume -. The turn it back to the previous song by your phone.

##### How to Wear the Earbuds Correctly?

Choose both fit ear

Use gently push the earbuds into your ears and adjust them to suit

## D8 Wireless Earbuds User Manual

User manual for the D8 Wireless Earbuds, detailing features, setup, operation, and troubleshooting. Includes information on Bluetooth pairing, charging, call and music controls, and safety precautions.

10

Safety Attention

1. Do not use the earbuds while driving a car, operating machinery or performing other activities that require hearing surrounding sounds.

2. Using earbuds at high to moderate volumes for extended periods of time will result in permanent hearing damage. It is advised you keep volume levels moderate to low at times for your safety.

3. Please avoid use in thundering and raining days to prevent damage or electrical shock.

4. Please keep the earbuds out of extreme heat or humidity, do not use any corrosive chemical to clean the earbuds.

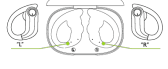

5. Please avoid disassemble/reassemble the product in case of failure or the accident.

6. Please keep beyond the reach of kids or pets.

7. Please stop using the device if it causes any discomfort or pain.

8. As the Bluetooth signal cannot transmit in water it is not suitable for swimming or diving. If submerged in water, do not turn the earbuds on until completely dried.

How to Place the Earbuds?

11

How to Sync Volume on Android?

To protect users from potential hearing damage, Android's limit on max volume is quite low for Bluetooth audio device.

If you feel the volume is too low, please access developer options and enable absolute volume, so you'll be able to max the volume at your own volition and to the full capabilities of your Bluetooth earbuds.

(Please scan this QR code to watch a video to learn more details.)

Find Build Number Firstly

Android 4.1 and lower: the Developer options screen is available by default.

Android 4.2 and higher: the Developer options in Android phones are hidden, you must enable this screen through Build Number.

Android 7.1 and lower: Settings > About Phone > Build Number

Android 8.0 and Android 8.1.0 : Settings > System > About Phone > Build Number

Enable Developer Options

Locate the Build number and tap it about 7 times in succession to enable Developer options. You may also have to tap to your PIN for verification. Once developer options are activated, you will see a message that reads "You are now a developer".

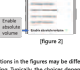

12

Go back to the Settings page, search Developer options as an entry. At the top of the Developer options screen, you can toggle the options as figure 1.

Enable Absolute Volume

Scroll down until you reach the Networking section. Once there, enable (toggle ON) the absolute volume option as figure 2.

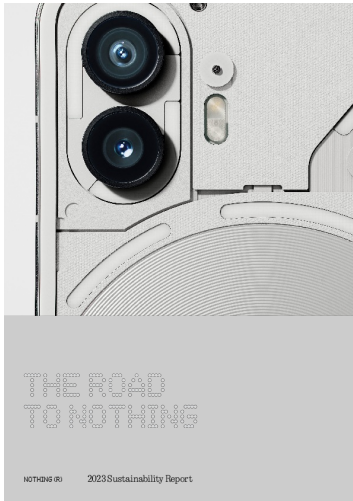

13

\*Note: These options in the figure may be different from the device you're using. Typically, the choices depend on the type and model of the device you are working with.
