## Puig 20820W

# Puig 20820W New Generation Touring Windshield Instruction Manual

Model: 20820W

## PRODUCT OVERVIEW

The Puig 20820W New Generation Touring Windshield is designed to enhance the riding experience for motorcycles with non-round headlights, offering improved protection against wind and weather conditions. Manufactured from PMMA (Polymethyl methacrylate), this windshield provides durability and contributes to the motorcycle's aerodynamic capacity.

This windshield is compatible with the Honda CMX 1100 REBEL models from 2021 and 2022.

Key features include:

- Manufactured from PMMA for protection against impacts, wind, and weather.
- Designed to complement naked-type motorcycles with non-round headlights.
- Enhances the motorcycle's aerodynamic profile.
- Available in various colors to match motorcycle aesthetics (specific color for this model: Clear).

## INSTALLATION GUIDE

The installation of the Puig 20820W windshield is designed to be straightforward. Detailed, intuitive, and visual instructions are included with the product to facilitate the mounting process.

Before beginning installation, ensure all components are present and undamaged. Refer to the specific instructions provided in the product packaging for step-by-step guidance tailored to your motorcycle model.

**Important:** Always ensure all fasteners are securely tightened according to the provided instructions to prevent vibration or detachment during operation. If you are unsure about any step, consult a qualified motorcycle technician.

## USAGE

---

Once installed, the Puig 20820W windshield provides enhanced wind deflection and protection from road debris, contributing to a more comfortable riding experience, especially at higher speeds or during long journeys. The clear material ensures unobstructed visibility.

The windshield is designed to integrate with the motorcycle's existing structure, offering a balance between protection and aesthetic appeal.

## CARE AND MAINTENANCE

---

To maintain the clarity and longevity of your Puig 20820W windshield, follow these care instructions:

- **Cleaning:** Use a soft cloth and mild soap with lukewarm water. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the PMMA material.
- **Drying:** Gently dry with a clean, soft microfiber cloth to prevent water spots and scratches.
- **Inspection:** Regularly inspect the windshield and its mounting hardware for any signs of damage, cracks, or loose connections. Address any issues promptly.
- **Storage:** When not in use for extended periods, store the motorcycle in a covered area to protect the windshield from prolonged exposure to direct sunlight and extreme weather conditions.

## TROUBLESHOOTING

---

This section addresses common issues that may arise with your windshield.

## Excessive Vibration

If the windshield vibrates excessively during riding, especially at certain speeds or in windy conditions:

- **Check Mounting:** Ensure all mounting bolts and fasteners are securely tightened. Refer to the installation instructions to confirm correct assembly.
- **Inspect Hardware:** Examine the mounting brackets and hardware for any signs of bending, damage, or wear that might contribute to instability.
- **Compatibility:** Verify that the windshield model is correctly matched to your motorcycle's make and model (Honda CMX 1100 REBEL 2021-2022).

## Missing Parts

If any parts are missing upon unboxing:

- **Inventory Check:** Compare the contents of your package with the parts list provided in the product's instruction manual.
- **Contact Support:** Immediately contact Puig customer support or your retailer with details of the missing components. Provide your purchase information and the specific part numbers if available.
