# GE LED+ A21 LED Light Bulb with Bluetooth Speaker and Color Changing Features

Model: 93129723

Brand: GE Lighting

### IMPORTANT SAFETY INFORMATION

**WARNING:** This product contains a lithium button/coin cell battery. Keep coin cell batteries out of reach of children. Ingestion can lead to severe injury or death in as little as 2 hours due to chemical burns and potential perforation of the esophagus.

### PRODUCT OVERVIEW

The GE LED+ A21 LED Light Bulb combines efficient LED lighting with a high-quality Bluetooth speaker and color-changing capabilities. It offers a versatile lighting and audio solution for indoor environments, controlled conveniently via an included wireless remote.

Figure 1: GE LED+ A21 LED Light Bulb and its packaging, highlighting speaker and color features.

## SETUP INSTRUCTIONS

1. **Install the Bulb:** Carefully screw the GE LED+ A21 LED Light Bulb into any standard E26 medium base lamp or light fixture. Ensure the fixture is powered off before installation.
2. **Power On:** Turn on the light fixture. The bulb will illuminate in its default soft white setting.
3. **Connect via Bluetooth:** On your smartphone or tablet, enable Bluetooth and search for available devices. Select the GE LED+ speaker bulb to pair. No app, hub, or Wi-Fi is required for this connection.
4. **Remote Control Setup:** The included remote control is pre-paired with the bulb. Ensure the battery is correctly installed.

**Connect through  
Bluetooth®  
for premium sound**

**Included remote dims  
& brightens light and  
adjusts volume**

## OPERATING INSTRUCTIONS

The GE LED+ A21 LED Light Bulb offers versatile control over both lighting and audio through its wireless remote.

### Light Control

- **Power On/Off:** Use the power button on the remote to turn the light on or off.
- **Color Selection:** Choose from 8 different color settings or a soft white light using the dedicated color buttons or color slider on the remote.
- **Brightness Adjustment:** Increase or decrease the light brightness using the dimmer buttons on the remote.
- **Party Mode:** Activate Party Mode to sync the light colors with the rhythm of your music, creating a dynamic atmosphere.

### Audio Control

- **Bluetooth Audio Streaming:** Once paired, stream audio wirelessly from your smartphone, tablet, or any other Bluetooth-enabled device directly to the bulb's integrated speaker.

- **Volume Adjustment:** Control the speaker volume using the volume up/down buttons on the remote.
- **Track Control:** Skip tracks forward or backward using the dedicated track control buttons on the remote.
- **Multi-Bulb Sync:** For an enhanced surround sound experience, connect up to 10 GE LED+ speaker bulbs within 25 feet of the parent bulb. Turn on all bulbs to automatically sync them to the parent bulb for synchronized light and sound.

## MAINTENANCE

The GE LED+ A21 LED Light Bulb is designed for long-lasting performance and minimal maintenance.

- **Cleaning:** Ensure the bulb is cool and the power is off before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Energy Efficiency:** This LED bulb uses only 9 watts of power, equivalent to a traditional 60-watt incandescent bulb, contributing to significant energy savings over its lifespan.
- **Lifespan:** The bulb has an estimated lifespan of 13.7 years, based on typical usage.

## TROUBLESHOOTING

- **Bulb Not Lighting Up:** Ensure the light fixture is receiving power and the bulb is securely screwed into the socket. Test the bulb in another working fixture if possible.
- **Bluetooth Connectivity Issues:** Ensure Bluetooth is enabled on your device and the bulb is within range (approximately 25 feet). Try unpairing and re-pairing the bulb. If connecting multiple bulbs, ensure they are within range of the parent bulb.
- **No Sound or Low Volume:** Check the volume settings on both your connected device and using the

remote control. Ensure the bulb is successfully paired via Bluetooth.

- **Remote Control Not Responding:** Check the battery in the remote control and replace it if necessary. Ensure there are no obstructions between the remote and the bulb.
- **Incompatibility:** This light bulb is not compatible with voice control devices like Amazon Alexa or Google Assistant. It is also not designed for use with dimmer switches.

SPECIFICATIONS

Feature	Specification
Brand	GE Lighting
Model Name	LED+ Speaker Soft White & Color A21 (1-Pack)
Part Number	93129723
Light Type	LED
Bulb Shape Size	A21
Bulb Base	E26 Medium
