Yitong Angel MT05-JD-14K

Yitong Angel King Bed Frame (Model MT05-JD-14K) Instruction Manual

Your guide to assembly, use, and maintenance.

1. Introduction

Thank you for choosing the Yitong Angel King Bed Frame. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. Safety Information

WARNING: Do not exceed the maximum weight capacity of 3500 lbs. Ensure all parts are securely assembled according to the instructions to prevent instability or collapse. Failure to follow these instructions may result in injury or product damage.

- Keep all small parts and packaging materials away from children.
- Assemble the bed frame on a soft, clean surface to prevent scratches.
- Periodically check all connections and tighten as necessary to maintain stability.
- Do not stand or jump on the bed frame.

3. Package Contents

Before assembly, verify that all components are present and undamaged. All necessary assembly tools are included in the package.

- Headboard/Footboard sections (if applicable)
- Side rails
- Steel slats
- Support legs
- Anti-slip gaskets (4 pieces)
- Thickened rubber pads for feet
- Assembly hardware (bolts, washers, nuts)
- Assembly tools (e.g., Allen wrench, mini ratchet)
- Instruction manual

4. Setup and Assembly Instructions

Assembly typically takes approximately 15 minutes. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent damage.
2. **Assemble Frame Sections:** Connect the main frame sections using the provided bolts and tools. Ensure all connections are finger-tight initially.
3. **Attach Support Legs:** Securely attach all support legs to the frame. The thickened rubber pads should be at the bottom of each leg to protect your floor and prevent sliding.
4. **Install Steel Slats:** Place the steel slats into the designated U-shaped grooves on the frame. The unique U-shaped slot design helps prevent slats from slipping.
5. **Secure Anti-Slip Gaskets:** Position the four anti-slip gaskets on the steel slats where the mattress will rest. These help reduce mattress movement.

6. **Final Tightening:** Once all components are in place, systematically tighten all bolts with the provided tools until secure. Do not overtighten.

Image 4.2: Detail of the U-shaped groove for slat stability.

5. Operating Instructions

This bed frame is designed for use with various mattress types without the need for a box spring.

- **Mattress Placement:** Place your latex, memory foam, or innerspring mattress directly onto the steel slats. The slats provide ample support, extending the life of your mattress.
- **Noise Reduction:** The robust alloy steel construction and secure slat design contribute to a noise-free experience.
- **Under-bed Storage:** The 14-inch high frame provides approximately 12 inches of clearance underneath, offering convenient storage space for items such as seasonal clothing, shoes, or storage bins.

Image 5.1: Demonstrating the ample under-bed storage space.

6. Maintenance

To ensure the longevity and optimal performance of your Yitong Angel bed frame, follow these maintenance guidelines:

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Regular Inspection:** Periodically (e.g., every 3-6 months) inspect all bolts and connections to ensure they remain tight. Re-tighten any loose hardware to maintain the frame's stability and prevent noise.
- **Floor Protection:** Ensure the rubber pads on the bottom of the legs are intact to protect your flooring from scratches and prevent the bed frame from sliding. Replace if worn.

7. Troubleshooting

Problem	Possible Cause	Solution
Bed frame is noisy or squeaks.	Loose bolts or connections.	Check and tighten all bolts and connections securely. Ensure all slats are properly seated in their grooves.
Mattress slides on the frame.	Anti-slip tape or gaskets are not properly installed or are worn.	Ensure the four strips of tape on the steel slats are intact. Verify that the anti-slip gaskets are correctly positioned and not dislodged. Re-position or replace if necessary.
Frame feels unstable.	Incomplete assembly or uneven floor.	Review assembly steps to ensure all parts are correctly installed and tightened. If the floor is uneven, consider using shims under the legs.

8. Specifications

Feature	Detail
Model Number	MT05-JD-14K
Size	King
Product Dimensions (L x W x H)	80" x 75.5" x 14"
Compatible Mattress Size	80" x 76"
Material	Alloy Steel
Color	Black
Finish Type	Matte
Maximum Weight Capacity	3500 lbs
Under-bed Clearance	12 Inches
Assembly Required	Yes
Item Weight	40 pounds
UPC	794261899014
