Redragon S101

Redragon S101 Gaming Combo User Manual

Model: S101

1. Introduction

Thank you for purchasing the Redragon S101 Gaming Combo. This comprehensive kit includes an RGB backlit gaming keyboard, a red backlit gaming mouse, a large gaming mouse pad, and a lightweight gaming headset with a microphone. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your products.

Package Contents:

- Redragon S101 Gaming Keyboard
- Redragon M601 Gaming Mouse
- Redragon Gaming Mouse Pad
- Redragon H101 Gaming Headset with Microphone
- User Manual (this document)

2. Setup

Follow these steps to connect your Redragon S101 Gaming Combo components to your computer.

2.1 Keyboard Setup

1. Locate the USB cable attached to the Redragon S101 Gaming Keyboard.
2. Plug the USB connector into an available USB port on your computer.
3. The keyboard will automatically install the necessary drivers. The RGB backlighting will illuminate upon successful connection.

2.2 Mouse Setup

1. Locate the USB cable attached to the Redragon M601 Gaming Mouse.

2. Plug the USB connector into an available USB port on your computer.
3. The mouse will automatically install the necessary drivers. The red backlighting will illuminate upon successful connection.

2.3 Headset Setup

1. The Redragon H101 Gaming Headset has a 3.5mm plug.
2. If your computer has a combined audio jack (headphone/microphone), plug the 3.5mm connector directly into it.
3. If your computer has separate audio (headphone) and microphone jacks, use the included 3.5mm Y-adapter. Plug the headset's 3.5mm connector into the Y-adapter, then plug the two Y-adapter connectors into the corresponding headphone and microphone jacks on your computer.
4. Adjust your computer's audio settings to select the headset as the default playback and recording device.

2.4 Mouse Pad Placement

Place the Redragon Gaming Mouse Pad on a flat, stable surface. Its non-slip rubber base will keep it securely in place during use.

3. Operating Instructions

3.1 Redragon S101 Gaming Keyboard

The S101 keyboard features RGB backlighting, anti-ghosting, and multimedia keys for enhanced gaming and productivity.

- **RGB Backlighting:** The keyboard offers 7 different RGB lighting modes and effects. Use the dedicated backlight control keys (usually located near the arrow keys or function row) to cycle through modes, adjust brightness (4 levels), and change breathing speed.
- **Anti-Ghosting:** The keyboard supports 25 conflict-free keys, ensuring that multiple key presses are registered

accurately during intense gaming sessions.

- **Multimedia Keys:** It includes 10 dedicated multimedia keys and 12 additional FN + multimedia keys for quick access to volume control, media playback, and other functions.
- **WIN Key Lock:** The Windows key can be disabled during gaming to prevent accidental interruptions. Refer to the keyboard's specific function key combinations for this feature (often FN + WIN key).
- **Adjustable Feet:** The keyboard has adjustable feet to set your preferred typing angle.

3.2 Redragon M601 Gaming Mouse

The M601 mouse is designed for precision and customization in gaming.

- **DPI Adjustment:** The mouse features user-adjustable DPI settings up to 3200 DPI. Use the DPI button (usually located below the scroll wheel) to cycle through different sensitivity levels.
- **Programmable Buttons:** It has 6 buttons, 5 of which are user-programmable via Redragon software. Install the software (if available from the Redragon website) to customize button functions and create user profiles.
- **Weight Tuning:** An 8-piece weight tuning set (8 x 2.4g weights) allows you to adjust the mouse's weight and balance to your preference. Access the weight compartment on the underside of the mouse.
- **Teflon Pads:** The smooth Teflon pads ensure effortless gliding across the mouse pad.

Image: The Redragon M601 Gaming Mouse, highlighting its adjustable DPI, programmable buttons, and weight tuning system.

3.3 Redragon H101 Gaming Headset

The H101 headset provides clear audio and communication for gaming.

- **Audio Precision:** Equipped with 40mm directional drivers and 103dB sensitivity for high-quality stereo sound.
- **Comfort:** Features soft, comfortable memory foam ear cups that reduce noise, and a highly adjustable headband for extended gaming sessions.
- **Microphone:** The integrated microphone allows for clear in-game communication. Ensure it is properly configured in your computer's sound settings.
- **Compatibility:** Works with PC, laptops, tablets, and PS4.

3.4 Redragon Gaming Mouse Pad

The mouse pad is designed for smooth and precise mouse movements.

- **Surface:** Features a waterproof silk-processed cloth surface for optimal mouse tracking.
- **Non-Slip Base:** The natural processed foam rubber base prevents the mouse pad from sliding during use.
- **Durable Edges:** Stitched edges prevent fraying and curling, extending the lifespan of the mouse pad.

4. Maintenance

Proper care will help maintain the performance and appearance of your Redragon S101 Gaming Combo.

4.1 Cleaning

- **Keyboard:** Use a soft, slightly damp cloth to wipe the keys and surface. For deeper cleaning, use compressed air to remove debris from under the keycaps. Avoid excessive moisture.
- **Mouse:** Wipe the mouse surface with a soft, dry cloth. Use a cotton swab lightly dampened with rubbing alcohol to clean the optical sensor area if tracking issues occur.
- **Headset:** Wipe the ear cups and headband with a soft, damp cloth. Do not immerse the headset in water.
- **Mouse Pad:** The waterproof surface can be wiped clean with a damp cloth and mild soap. Allow it to air dry completely before use.

4.2 Storage

When not in use, store the components in a clean, dry environment away from direct sunlight and extreme temperatures.

5. Troubleshooting

If you encounter issues with your Redragon S101 Gaming Combo, refer to the following common solutions.

Problem	Possible Cause	Solution
Keyboard/Mouse not responding	Loose USB connection, faulty USB port, driver issue.	Ensure USB cables are securely plugged in. Try a different USB port. Restart your computer. Check Device Manager for driver status.
Keyboard/Mouse backlighting not working	Backlight turned off or brightness set to minimum.	Use the backlight control keys on the keyboard/mouse to adjust brightness or cycle through modes.
Mouse tracking issues	Dirty sensor, unsuitable surface, incorrect DPI setting.	Clean the optical sensor. Ensure the mouse pad surface is clean. Adjust DPI settings.
Headset audio not working	Incorrect audio jack connection, computer audio settings, volume too low.	Verify the 3.5mm plug(s) are fully inserted. Check your computer's sound settings to ensure the headset is selected as the default playback device and volume is up.
Headset microphone not working	Incorrect audio jack connection, computer audio settings, microphone muted.	Verify the 3.5mm plug(s) are fully inserted (especially the microphone plug if using Y-adapter). Check your computer's sound settings to ensure the headset microphone is selected as the default recording device and is not muted.
