LVAINIT LV-CLIPPER-MEN-1PC

LVAINIT Cordless LCD Rechargeable Hair Trimmer

Model: LV-CLIPPER-MEN-1PC

Brand: LVAINIT

1. PRODUCT OVERVIEW

The LVAINIT Cordless LCD Rechargeable Hair Trimmer is a versatile grooming tool designed for precise hair cutting and beard trimming. It features advanced technology for efficient and comfortable use, suitable for both professional and home use.

Figure 1: LVAINIT Hair Clipper and Included Accessories

Key Features:

- **Multifunctional Grooming Kit:** Features a slide switch for 5 adjustable micro lengths (0.8/1.1/1.4/1.7/2.0mm) and 4 guide combs (3, 6, 9, 12mm) for comprehensive hair cutting.
- **Efficient Hair Cutting:** Equipped with a titanium fixed blade and ceramic movable blade for precise and smooth cutting performance. The R-shaped blade design ensures safety and prevents skin irritation.
- **Cordless and Portable:** Designed for convenience, this compact and lightweight clipper is ideal for home use or travel.
- **Powerful Rotary Motor:** Maintains stable and rapid cutting speed, effectively handling even the thickest hair without snagging or pulling.
- **Rechargeable & LED Display:** Built-in 1200mAh lithium-ion battery provides up to 120 minutes of clipping time after a 2-hour charge. The LED display clearly shows the remaining battery percentage.

2. SETUP

Charging the Device:

Before first use, fully charge the hair clipper. Connect the provided USB charging cable to the clipper's USB-C port and plug the other end into a 5V USB power adapter (not included). The LED display will show the charging progress. A full charge takes approximately 2 hours and provides up to 120 minutes of cordless operation.

Figure 2: Charging the Hair Clipper

Initial Inspection:

Upon unboxing, ensure all components are present and undamaged. The package should include the hair clipper, 4 guide combs (3mm, 6mm, 9mm, 12mm), a cleaning brush, and a USB charging cable.

3. OPERATING INSTRUCTIONS

Power On/Off and Speed Control:

Press the power button to turn the clipper on. The LED display will illuminate, showing the current battery percentage. The clipper typically operates at two speeds. Press the power button again to switch between speeds or to turn off the device.

Adjusting Cutting Length:

The clipper features a built-in adjustable slide switch for micro-length adjustments from 0.8mm to 2.0mm. Rotate the ring below the blade to select your desired length. For longer cuts, attach one of the provided guide combs.

Figure 3: Hair Clipper with Guide Combs

Using Guide Combs:

Select the appropriate guide comb (3mm, 6mm, 9mm, or 12mm) for your desired hair length. Align the comb with the clipper head and push it firmly until it clicks into place. Ensure it is securely attached before use. To remove, gently pull the comb away from the clipper head.

Where Style Meets Precision

Elevate Your Look, Redefine Your Confidence

4. MAINTENANCE

Cleaning the Blades:

The detachable cutter cap and all accessories are washable under running water. After each use, turn off the clipper and detach the blade unit by gently pushing it forward from the clipper body. Use the provided cleaning brush to remove any loose hairs from the blades and the clipper body. Rinse the blade unit under running water. Ensure the blade unit is completely dry before reattaching or storing.

Disassembly and washing steps

Hassle-Free Cleaning

Featuring a full-body washable design, simply rinse it under the tap to remove residual hair. This keeps the clipper clean and hygienic, ensuring worry-free use for the next grooming session.

Figure 5: Disassembly for Cleaning

Reassembling the Blade Unit:

To reattach the blade unit, align the small plastic tabs on the back of the blade unit with the corresponding slots on the clipper body. Gently press the blade unit back into place until it clicks securely. Ensure it is flush with the clipper body and does not wobble. If you encounter difficulty, ensure the internal mechanism is correctly positioned before attempting to snap the blade back on. Avoid excessive force to prevent damage.

Blade Oiling:

For optimal performance and longevity, it is recommended to regularly oil the blades. Apply a small drop of clipper oil (not included) to the teeth of the blades after cleaning and before storage. Run the clipper for a few seconds to distribute the oil evenly.

5. TROUBLESHOOTING

- **Clipper not turning on:** Ensure the battery is charged. Check the LED display for battery percentage. If low,

charge the device.

- **Clipper pulling or tugging hair:** This usually indicates dull blades or accumulated hair/debris. Clean the blades thoroughly as described in the Maintenance section. Consider oiling the blades.
- **Difficulty reassembling blade unit:** As noted in user feedback, reattaching the blade unit can be tricky. Ensure the internal components are correctly aligned and apply gentle, even pressure until it clicks into place. Do not force it. If issues persist, contact customer support.
- **Reduced battery life:** Over time, battery capacity may decrease. Ensure you are fully charging the device. If battery life significantly degrades, it may be time for a replacement.

6. SPECIFICATIONS

Feature	Detail
Brand	LVAINIT
Model Number	LV-CLIPPER-MEN-1PC
Power Source	Battery Powered
Battery Type	1 Lithium Ion battery (included)
Charging Time	Approx. 2 hours
Operating Time	Approx. 120 minutes
