## INSTALLATION INSTRUCTIONS

Professional installation is recommended. Ensure power is disconnected at the circuit breaker before proceeding.

- 1. Prepare for Installation:** Turn off the main power supply at the circuit breaker or fuse box. Clear the work area.
- 2. Mounting Bracket Installation:** Attach the mounting bracket to the junction box in the wall using the provided screws. Ensure it is securely fastened.
- 3. Electrical Connections:** Carefully connect the fixture's wires to the household electrical wires. Match the wires: black to black (live), white to white (neutral), and green/bare copper to green/bare

copper (ground). Secure connections with wire nuts.

4. **Secure the Fixture:** Align the fixture with the mounting bracket and secure it in place using the provided screws. Ensure the fixture is flush against the wall.
5. **Restore Power:** Once the fixture is securely installed and all connections are checked, restore power at the circuit breaker.

## OPERATION

This EDISLIVE LED Vanity Light Fixture is designed for simple operation once installed.

- **Turning On/Off:** Use your standard wall switch to turn the light fixture on or off.
- **Dimming Function:** To utilize the dimming feature, a compatible external dimmer switch (not included) must be installed. Once installed, you can adjust the brightness from 10% to 100% according to your preference.

## MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your light fixture.

- **Cleaning:** Always disconnect power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the fixture. Avoid abrasive cleaners, solvents, or polishes as they may damage the finish or glass.
- **Bulb Replacement:** This fixture uses integrated LED lights, which are not user-replaceable. The LEDs have a long lifespan and should not require replacement under normal use.
- **Inspection:** Periodically check for any loose connections or signs of wear. If any issues are found, consult a qualified electrician.

## TROUBLESHOOTING

---

If you encounter issues with your light fixture, refer to the following common problems and solutions:

<b>Problem</b>	<b>Possible Cause</b>	<b>Solution</b>
Light does not turn on	No power supply; Loose wiring; Faulty wall switch	Check circuit breaker/fuse; Verify all wire connections are secure; Test wall switch.
Light flickers or dims unexpectedly	Incompatible dimmer switch; Loose wiring; Voltage fluctuations	Ensure dimmer switch is LED-compatible; Check wiring connections; Consult an electrician for voltage issues.
Light is not bright enough	Dimmer setting too low; Room size/lighting needs	Adjust dimmer to maximum brightness; Consider additional lighting if needed.

If the problem persists after trying these solutions, please contact customer support.
