

## NUSVAN 6050W

# NUSVAN Vanity Mirror with Lights Model 6050W User Manual

Brand: NUSVAN | Model: 6050W

## INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your NUSVAN Vanity Mirror with Lights, Model 6050W. Please read this manual thoroughly before use to ensure proper function and longevity of your product.

## IMPORTANT SAFETY INFORMATION

Please observe the following safety guidelines:

- Handle the mirror with care to prevent damage.
- Keep this product out of reach of children.
- Avoid using the mirror while sleeping or in a completely dark room to prevent potential injury.

## PRODUCT OVERVIEW

The NUSVAN Vanity Mirror with Lights Model 6050W is designed to enhance your makeup and grooming routine with its advanced features. Key functionalities include:

- **Adjustable Brightness:** Customize LED brightness to suit your environment.
- **Three Color Lighting Modes:** Choose between Cold Light (6000K), Natural Light (4000K), and Warm Light (3000K).
- **Detachable 10X Magnifying Mirror:** For detailed application of makeup.
- **Touch-Sensitive Control:** Intuitive control for power, lighting modes, and brightness.
- **Smart Memory Function:** Recalls your last used light settings.
- **Integrated USB Charging Port:** Conveniently charge your devices.
- **Durable Construction:** Features 17 frosted LED globe bulbs with a 50,000-hour lifespan and a stable metal base.

## PACKAGE CONTENTS

---

Upon opening the package, please verify that all components are present:

- NUSVAN Vanity Mirror with Lights (Model 6050W)
- Detachable 10X Magnifying Mirror
- Power Adapter
- Base (for tabletop use)
- Mounting Hardware (for wall-mounted option)
- User Manual (this document)

## SETUP

---

Your NUSVAN Vanity Mirror offers two installation options: tabletop or wall-mounted.

### Tabletop Setup

1. Carefully unpack all components from the box.
2. Attach the mirror to its base. Ensure it is securely fastened.
3. Place the assembled mirror on a stable, flat surface. The base includes rubber pads to prevent slipping.
4. Connect the power adapter to the mirror's DC port and plug it into a standard electrical outlet.

## Wall-Mounted Setup

1. Remove the base from the mirror if it is already attached.
2. Identify the wall-mounted screw holes on the back of the mirror (refer to product diagrams).
3. Using appropriate tools and the provided mounting hardware, securely attach the mirror to a wall.  
Ensure the wall can support the mirror's weight (approximately 12.97 pounds).
4. Connect the power adapter to the mirror's DC port and plug it into a standard electrical outlet.

### Wall mounted

You need to install screws on the wall first, remove the base and hang it on

## OPERATING INSTRUCTIONS

The mirror features touch-sensitive controls located at the bottom center of the mirror surface.

Image: Detail of the touch control panel with 'M' (Mode), Power, and 'P' (Brightness) buttons.

## Power On/Off

- To turn the mirror on or off, gently touch the **Power button** (center button) on the mirror screen.

## Adjusting Lighting Modes

The mirror offers three distinct color lighting modes:

- **Cold Light (6000K):** Suitable for outdoor activities or bright environments.
- **Natural Light (4000K):** Ideal for office or indoor makeup application.
- **Warm Light (3000K):** Best for evening makeup or parties.

To switch between these modes, gently touch the **'M' button** (left button) on the mirror screen.

Image: Visual guide to the three color lighting modes (6000K Cold, 4000K Natural, 3000K Warm) and their recommended uses.

## Adjusting Brightness

The brightness of the LED bulbs can be adjusted to your preference.

- To adjust the brightness, press and hold the **'P' button** (right button) on the mirror screen. The brightness will cycle through its levels. Release the button when the desired brightness is achieved.
- The mirror features a smart memory function that will recall your last adjusted brightness setting.

# Adjustment Of Brightness

***High  
Brightness***

80%-100% Detailed care for spots on the face

***Medium  
Brightness***

50%-70% For full-face skincare use

***Low  
Brightness***

10%-40% For daily skincare use

Image: Visual guide to adjusting brightness levels (High, Medium, Low) and their suggested applications.

## Using the 10X Magnifying Mirror

A detachable 10X magnifying mirror is included for detailed tasks such as applying mascara, eyeliner, or precise skincare.

- Attach the 10X magnifying mirror to the main mirror surface using its suction cups.
- Position it as needed for close-up work.

Image: The detachable 10X magnifying mirror shown in detail and its application for precise makeup tasks.

## USB Charging Port

The mirror is equipped with a USB charging port for convenient charging of your electronic devices.

- Locate the USB port on the side of the mirror frame.
- Connect your device's USB charging cable to this port.
- **Note:** Do not connect direct current to the charging port. This port is for output charging only.

## USB Charging Port

It can charge your phone, lpad, facial stream, etc. with the USB charger port

Don't connect direct current to the charging port.

Image: Detail of the USB charging port and the DC power input on the side of the mirror frame.

## MAINTENANCE

To ensure the longevity and optimal performance of your NUSVAN Vanity Mirror, follow these maintenance guidelines:

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to avoid liquid seeping into the electrical components.
- **Cleaning the Frame:** Wipe the frame with a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
- **Bulb Replacement:** The LED globe bulbs are designed for a long lifespan (50,000 hours) and typically do not require replacement. If a bulb malfunctions, please contact customer support.
- **Storage:** If storing the mirror for an extended period, disconnect it from power and store it in a dry, safe place, preferably in its original packaging.

## TROUBLESHOOTING

If you encounter any issues with your NUSVAN Vanity Mirror, please refer to the following troubleshooting steps:

1. **Mirror Lights Not Turning On:**

- Ensure the power adapter is securely plugged into both the mirror's DC port and a functional wall outlet.
- Try plugging the mirror into a different electrical outlet to rule out a faulty power source.
- Verify that the power button on the mirror's touch control panel is being pressed correctly.
- If the issue persists, disconnect the power for a few minutes, then reconnect and try again.

2. **Touch Controls Unresponsive:**

- Ensure your fingers are clean and dry when operating the touch controls.
- Clean the touch control area on the mirror surface with a soft, dry cloth.
- Disconnect and reconnect the power to reset the mirror's electronics.

3. **Magnifying Mirror Not Sticking:**

- Ensure both the suction cups and the main mirror surface are clean and dry.
- Press firmly on the magnifying mirror to create a strong suction.

If these steps do not resolve the issue, please contact NUSVAN customer support for further assistance.

**SPECIFICATIONS**

Feature	Detail
Brand	NUSVAN
Model Number	6050W

ADAM-6000-14	Yes	Yes
ADAM-6000-15	Yes	Yes
ADAM-6000-16	Yes	Yes
ADAM-6000-17	Yes	Yes
ADAM-6000-18	Yes	Yes
ADAM-6000-19	Yes	Yes
ADAM-6000-20	Yes	Yes

Q: Are there any other modules for P2P and GCL functionality support?

No, the ADAM-6000 series is currently the only module that supports P2P and GCL functionality. It is designed to provide the most comprehensive support for P2P and GCL functionality in a single module.

Q: How can I use these modules with P2P and GCL?

The ADAM-6000 series modules support P2P and GCL functionality through a combination of hardware and software. The hardware includes a dedicated P2P and GCL controller, and the software includes a dedicated P2P and GCL application. The application is designed to be easy to use and can be installed on a variety of operating systems.

Q: Can I use the ADAM-6000 series modules with other devices?

Yes, the ADAM-6000 series modules can be used with a variety of other devices, including PCs, laptops, and tablets. The modules are designed to be compatible with a wide range of hardware and software configurations.

Q: What other resources are available for P2P and GCL?

There are a number of resources available for P2P and GCL, including online documentation, training materials, and support services. The online documentation provides detailed information about the P2P and GCL functionality, and the training materials provide hands-on experience with the modules.
