Yabano B09ZYCCMJV

Yabano Professional Countertop Blender

MODEL: B09ZYCCMJV

1. Important Safeguards

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before operating the blender.
- To protect against electrical shock, do not immerse the blender base, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts. Blades are sharp. Handle with care.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Always operate the blender with the lid in place.
- Ensure the pitcher is rotated clockwise until it locks in place on the base before operation.

2. Product Overview and Components

The Yabano Professional Countertop Blender is designed for efficient blending of various ingredients. Familiarize yourself with its components:

- **Blender Base:** Contains the motor and control dial.
- **Blender Jar:** 60 oz (1.8L) BPA-free AS plastic jar with measurement markings.
- **4-Blade System:** Thickened stainless steel blades for effective blending.

- **Lid with Measuring Cap:** Securely covers the jar and allows for adding ingredients during blending.

To ensure blender working correctly

please lock both of the lid and container
to the "lock" position.

Lid Off Safety Lock

Base Safety Lock

**IMPORTANT
NOTICE**

The handle direction of the
container should be the same
as the picture shows.

Image: A diagram illustrating the lid off safety lock and base safety lock mechanisms, crucial for ensuring the blender operates correctly.

Thickened Stainless Steel 4 Blades

It's designed to create a vortex and pull mixture down into the blades, to give you more smoother taste.

3. Setup

1. **Unpack:** Carefully remove all components from the packaging.

2. **Clean:** Before first use, wash the blender jar, lid, and blades with warm, soapy water. Rinse thoroughly and dry.
3. **Position Base:** Place the blender base on a stable, flat, and dry surface.
4. **Assemble Jar:** Ensure the 4-blade system is securely in place at the bottom of the blender jar.
5. **Secure Jar:** Place the blender jar onto the base unit. Rotate the jar clockwise until you hear a click, indicating it is securely locked into position. This activates the base safety lock.
6. **Attach Lid:** Place the lid onto the blender jar and ensure it is firmly seated and locked. This activates the lid safety lock.

4. Operating Instructions

Follow these steps for safe and effective blending:

1. **Add Ingredients:** Place your desired ingredients into the blender jar. Do not fill past the maximum fill line indicated on the jar.
2. **Secure Lid and Jar:** Ensure both the lid and the blender jar are securely locked into place on the base. The blender will not operate if these safety locks are not engaged.
3. **Plug In:** Connect the power cord to a suitable electrical outlet.
4. **Select Speed:** Turn the control dial to your desired setting:
 - **P (Pulse):** For short bursts of power, ideal for ice crushing, chopping, or controlled blending.
 - **1 (Speed 1):** Suitable for blending soft fruits, leafy greens, and preparing smoothies or shakes.
 - **2 (Speed 2):** Provides higher speed for harder ingredients like nuts, root vegetables, and more intensive blending tasks.
5. **Blend:** Allow the blender to operate until desired consistency is achieved.
6. **Stop:** Turn the control dial back to the '0' position to stop the blender.
7. **Unplug:** Always unplug the blender from the power outlet after use.

Pulse + 2 Preset

Pulse feature for added precision control and evenly mixing to get the perfect blending

1-SPEED

For shakes, Fruits, Vegetables

2-SPEED

For Nuts, Ice, Meat

5. Maintenance and Cleaning

Regular cleaning ensures optimal performance and longevity of your blender.

1. **Immediate Cleaning:** After each use, unplug the blender.
2. **Self-Cleaning Function:** For quick cleaning, add warm water (up to half the jar capacity) and a few drops of dish soap to the blender jar. Secure the lid. Run the blender on Pulse mode for 5 to 10 seconds. Discard the soapy water and rinse the jar thoroughly with clean water.
3. **Manual Cleaning (Jar and Lid):** Carefully remove the blender jar from the base. Disassemble the lid and its measuring cap. Wash the jar, lid, and measuring cap with warm, soapy water. Use a non-abrasive sponge or brush to clean around the blades. Rinse all parts thoroughly and allow them to air dry completely before reassembling or storing.
4. **Base Unit Cleaning:** Wipe the blender base with a damp cloth. Do not immerse the base unit in water or any other liquid.

6. Troubleshooting

If you encounter issues with your Yabano blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Power cord not plugged in, jar not locked, or lid not locked.	Ensure the power cord is securely plugged into an outlet. Verify the blender jar is rotated clockwise and locked onto the base. Confirm the lid is securely placed and locked on the jar.
Ingredients not blending smoothly.	Insufficient liquid, too many ingredients, or ingredients are too large.	Add more liquid. Reduce the amount of ingredients. Cut larger ingredients into smaller pieces. Use the Pulse function for stubborn items.
Motor stops during operation.	Overheating due to heavy load or prolonged use.	Unplug the blender and allow it to cool down for approximately 15-20 minutes. Reduce the amount of ingredients or blend in smaller batches.
