

Reebok Work N Cushion 4.0

Reebok Women's Work N Cushion 4.0 Walking Shoe Instruction Manual

Model: Work N Cushion 4.0 (JAG97)

1. INTRODUCTION

The Reebok Women's Work N Cushion 4.0 Walking Shoe is designed for individuals who spend extended periods on their feet. This footwear provides a balance of breathable comfort and support. The integrated foam sockliner enhances cushioning, while the slip-resistant outsole is engineered to offer reliable traction on various surfaces, including wet or slippery environments.

2. KEY FEATURES

- **Comfort and Support:** Engineered for long hours of wear, providing cushioning and stability.
- **Breathable Design:** Materials selected to promote airflow and maintain foot comfort.
- **Foam Sockliner:** Offers an air-cushioned feel with every step.
- **Slip-Resistant Outsole:** Designed for confident grip on various floor types, including wet surfaces.
- **Durable Construction:** Built with quality materials for longevity in daily use.
- **Versatile Use:** Suitable for walking and various athletic activities.

3. WEARING YOUR SHOES

To ensure optimal comfort and performance, follow these steps when wearing your Reebok Work N Cushion 4.0 shoes:

1. **Preparation:** Ensure your socks are comfortable and appropriate for walking.
2. **Loosen Fasteners:** Fully open the hook-and-loop (Velcro) straps to allow your foot to slide in easily.
3. **Insert Foot:** Gently slide your foot into the shoe, ensuring your heel is seated firmly against the back of the shoe.
4. **Adjust Straps:** Fasten the hook-and-loop straps, adjusting them to a snug but comfortable fit. Avoid overtightening, which can restrict circulation, or leaving them too loose, which can cause instability.
5. **Check Fit:** Stand up and walk a few steps to confirm the fit. Your toes should have a small amount of space at the front, and your heel should not slip excessively.

4. DAILY USE AND PERFORMANCE

The Work N Cushion 4.0 is designed for everyday walking and activities requiring extended periods on your feet. Its features contribute to a comfortable and secure experience:

- **Walking:** The cushioned sole and supportive design are ideal for daily walks, providing shock absorption and reducing foot fatigue.
- **Work Environments:** The slip-resistant outsole makes these shoes suitable for various work settings where traction on potentially wet or smooth floors is crucial.
- **Stability:** The shoe's construction offers stability, which is beneficial for maintaining balance during movement.

5. CARE AND MAINTENANCE

Proper care will extend the life and maintain the appearance of your Reebok Work N Cushion 4.0 shoes:

- **Cleaning:**
 - For surface dirt, wipe with a damp cloth and mild soap.
 - For tougher stains, use a soft brush or sponge with a shoe cleaner specifically designed for athletic footwear.
 - Do not machine wash or tumble dry, as this can damage the materials and construction.
- **Drying:** Allow shoes to air dry naturally at room temperature. Avoid direct heat sources like radiators or direct sunlight, which can cause material degradation.
- **Storage:** Store shoes in a cool, dry place away from direct sunlight when not in use.
- **Odor Control:** If odors develop, remove the sockliner (if removable) and air it out. Shoe deodorizers can also be used.

6. TROUBLESHOOTING

If you encounter issues with your Work N Cushion 4.0 shoes, consider the following:

- **Discomfort or Tightness:**
 - Ensure the hook-and-loop straps are not overtightened. Adjust for a comfortable fit.
 - Verify you have selected the correct size. Footwear sizing can vary, and it is recommended to try on shoes to ensure proper fit.
 - Consider the type of socks worn; thicker socks may require a slightly larger shoe size.
- **Slipping Heel:**
 - Tighten the hook-and-loop straps slightly to secure the foot more firmly.
 - Ensure your heel is fully seated in the shoe.
- **Reduced Traction:**
 - Clean the outsole regularly to remove accumulated dirt or debris that may reduce grip.
 - Note that while slip-resistant, no shoe can guarantee complete prevention of slips on all surfaces. Exercise caution on extremely slippery conditions.

7. SPECIFICATIONS

Feature	Detail
Brand	Reebok
Model Name	Work N Cushion 4.0
Item Model Number	JAG97
Department	Women's
Outer Material	Rubber
Sole Material	Rubber
Shaft Height	Low-top
