

Amazon Basics 63763

Amazon Basics 14-Inch Round Propane Fire Pit

MODEL: 63763

Instruction Manual

1. Introduction

Thank you for choosing the Amazon Basics 14-Inch Round Propane Fire Pit. This portable tabletop fire pit is designed to provide ambiance and warmth to your outdoor living spaces. Please read this manual thoroughly before assembly and use to ensure safe and proper operation.

2. Important Safety Information

Fire Alert: Keep children away from the fire when the pit is in use. Always supervise the fire pit during operation. Ensure adequate ventilation and never use indoors. Keep flammable materials away from the unit. Do not move the fire pit while it is in operation or still hot. Allow the unit to cool completely before handling or storage.

3. Product Features

- **Easy Mounting:** Specifically designed to mount securely through minimum 2-inch umbrella holes in patio tables, offering a perfect integrated design for outdoor dining spaces.
- **Premium Construction:** Round outdoor fire pit crafted from durable steel with a protective glass wind guard for maximum heat efficiency and flame protection.
- **Versatile Use:** Tabletop gas-powered fire pit brings ambiance to any balcony, back deck, patio, or other outdoor living space.
- **Efficient Heating:** Features a 9,000 BTU stainless steel burner, flame igniter, and fire glass, offering the ease of a fire without messy ashes.
- **Fuel Source:** Runs on a 1-pound LP gas tank (not included); the tank hides out of sight underneath the unit via an included bracket.
- **Adjustable Flame:** Easily adjustable flame height from approximately 4 to 10 inches.
- **Certified Safety:** CSA certified for safety and peace of mind.
- **Quick Assembly:** Designed for quick assembly with included instructions.
- **Compact Dimensions:** Product dimensions: 14 x 14 x 8 inches (LxWxH).

4. Package Contents

Your Amazon Basics 14-Inch Round Propane Fire Pit package includes:

- Fire Pit Unit (with integrated burner and igniter)
- Glass Wind Guard
- Fire Glass Stones
- Propane Tank Bracket
- Assembly Hardware
- Instruction Manual

5. Setup Instructions

1. **Unpack Components:** Carefully remove all items from the packaging and ensure all parts listed in Section 4 are present.
2. **Position the Fire Pit:** Place the fire pit unit on a stable, non-combustible surface. If using with a patio table, ensure the table has a minimum 2-inch umbrella hole.
3. **Install Propane Tank Bracket:** Attach the propane tank bracket to the underside of the fire pit unit using the provided hardware. This bracket is designed to secure a 1-pound LP gas tank.
4. **Connect Propane Tank:** Screw a 1-pound LP gas tank (not included) into the connection point on the underside of the fire pit. Ensure a tight, leak-free connection. The tank will hang discreetly beneath the table if mounted through an umbrella hole.
5. **Add Fire Glass:** Carefully distribute the provided fire glass stones over the burner area within the fire pit. Ensure the burner is not completely covered to allow for proper flame distribution.
6. **Install Glass Wind Guard:** Place the glass wind guard securely around the perimeter of the fire pit's burner area. This helps to protect the flame from wind and improve heat efficiency.

Sturdy & Convenient

Ideal for home use and camping

Easily adjustable
flame height from
4 to 10 in / 10.2 to 25.4 cm

Durable steel with heat-resistant
finish and glass wind guard

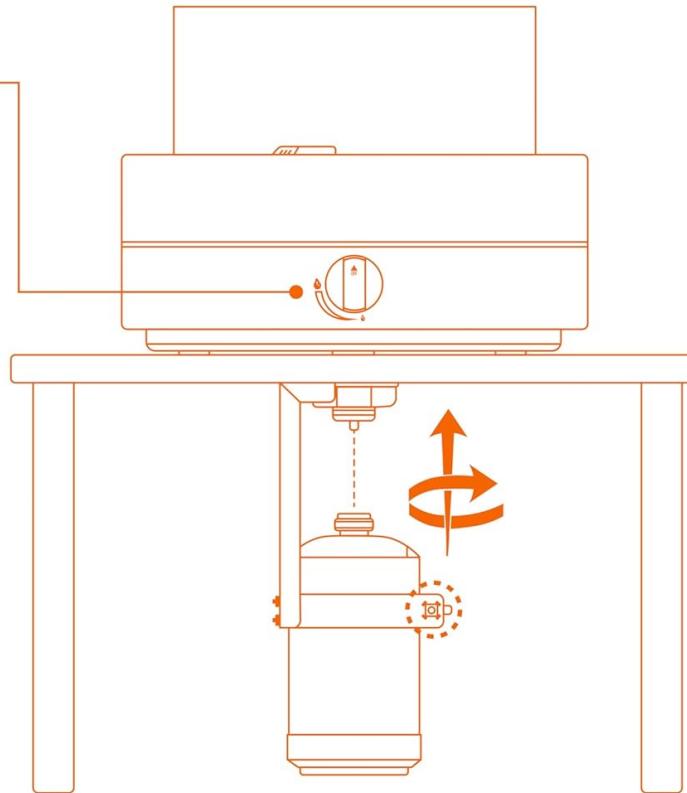

Must be mounted to table with table's
standard 2 in / 5.1 cm umbrella hole

6. Operating Instructions

- 1. Before Lighting:** Ensure the fire pit is on a stable surface and away from any flammable materials. Check all gas connections for leaks.
- 2. Lighting the Fire Pit:** Locate the control knob on the side of the unit. Push and turn the knob counter-clockwise to the 'LOW' position while simultaneously pressing the igniter button. Hold for a few seconds until the flame ignites.
- 3. Adjusting Flame Height:** Once lit, rotate the control knob to adjust the flame height to your desired level (between 4 to 10 inches).
- 4. Turning Off:** To extinguish the flame, turn the control knob clockwise to the 'OFF' position. Ensure the flame is completely out before leaving the unit unattended.

Efficient & User-Friendly

Easy assembly and clean operation

Resistant to various weather conditions

Effortless and quick setup

Smokeless operation ensures clean burning

7. Maintenance

- **Cleaning:** Allow the fire pit to cool completely before cleaning. Wipe exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or harsh chemicals.
- **Fire Glass:** Periodically inspect the fire glass for debris. Clean with mild soap and water if necessary, ensuring they are completely dry before placing back in the unit.
- **Storage:** When not in use, especially during inclement weather or off-season, disconnect the propane tank and store the fire pit in a cool, dry place. Consider using a protective cover to shield it from elements.

8. Troubleshooting

- **Fire Pit Does Not Ignite:**

- Check if the propane tank is empty or properly connected.
- Ensure the control knob is pushed in and turned to the 'LOW' position before pressing the igniter.
- Verify the igniter is sparking. If not, the igniter may need replacement or adjustment.

- **Low Flame:**

- Check the propane tank level.
- Ensure the control knob is fully open.
- Inspect the burner ports for any blockages.
