Energizer 039800140623

Energizer Rechargeable Neck Light Instruction Manual

Model: 039800140623

PRODUCT OVERVIEW

The Energizer Rechargeable Neck Light is designed for hands-free illumination, ideal for various tasks such as reading, crafting, camping, and repairs. It features adjustable brightness and color temperature settings, along with a flexible design for comfortable wear.

This device provides up to 100 lumens of light and offers a 5-hour runtime on a single charge. Its dim start feature helps prevent disturbance in low-light environments.

SETUP AND CHARGING

Initial Charge

Before first use, fully charge the neck light. A USB charging cable is included. The charging port is located on the central unit at the back of the neck band.

Image: A hand plugging a micro-USB cable into the charging port of the Energizer Neck Light's central unit. A small red indicator light is visible.

- Locate the micro-USB port on the back of the neck light's central unit.
- Connect the provided USB cable to the port and plug the other end into a compatible USB power source (e.g., computer, wall adapter).
- The indicator light will show charging status. Allow approximately 4 hours for a full charge.

OPERATING INSTRUCTIONS

Wearing the Neck Light

Place the neck light around your neck with the central unit resting at the back of your neck. The flexible arms can be adjusted to direct the light as needed.

Image: A woman wearing the Energizer Neck Light while sewing, demonstrating its comfortable, lightweight, hands-free, and flexible design.

Power On/Off and Brightness Adjustment

Each light head has an independent power button. The light starts on a low setting to avoid sudden bright illumination.

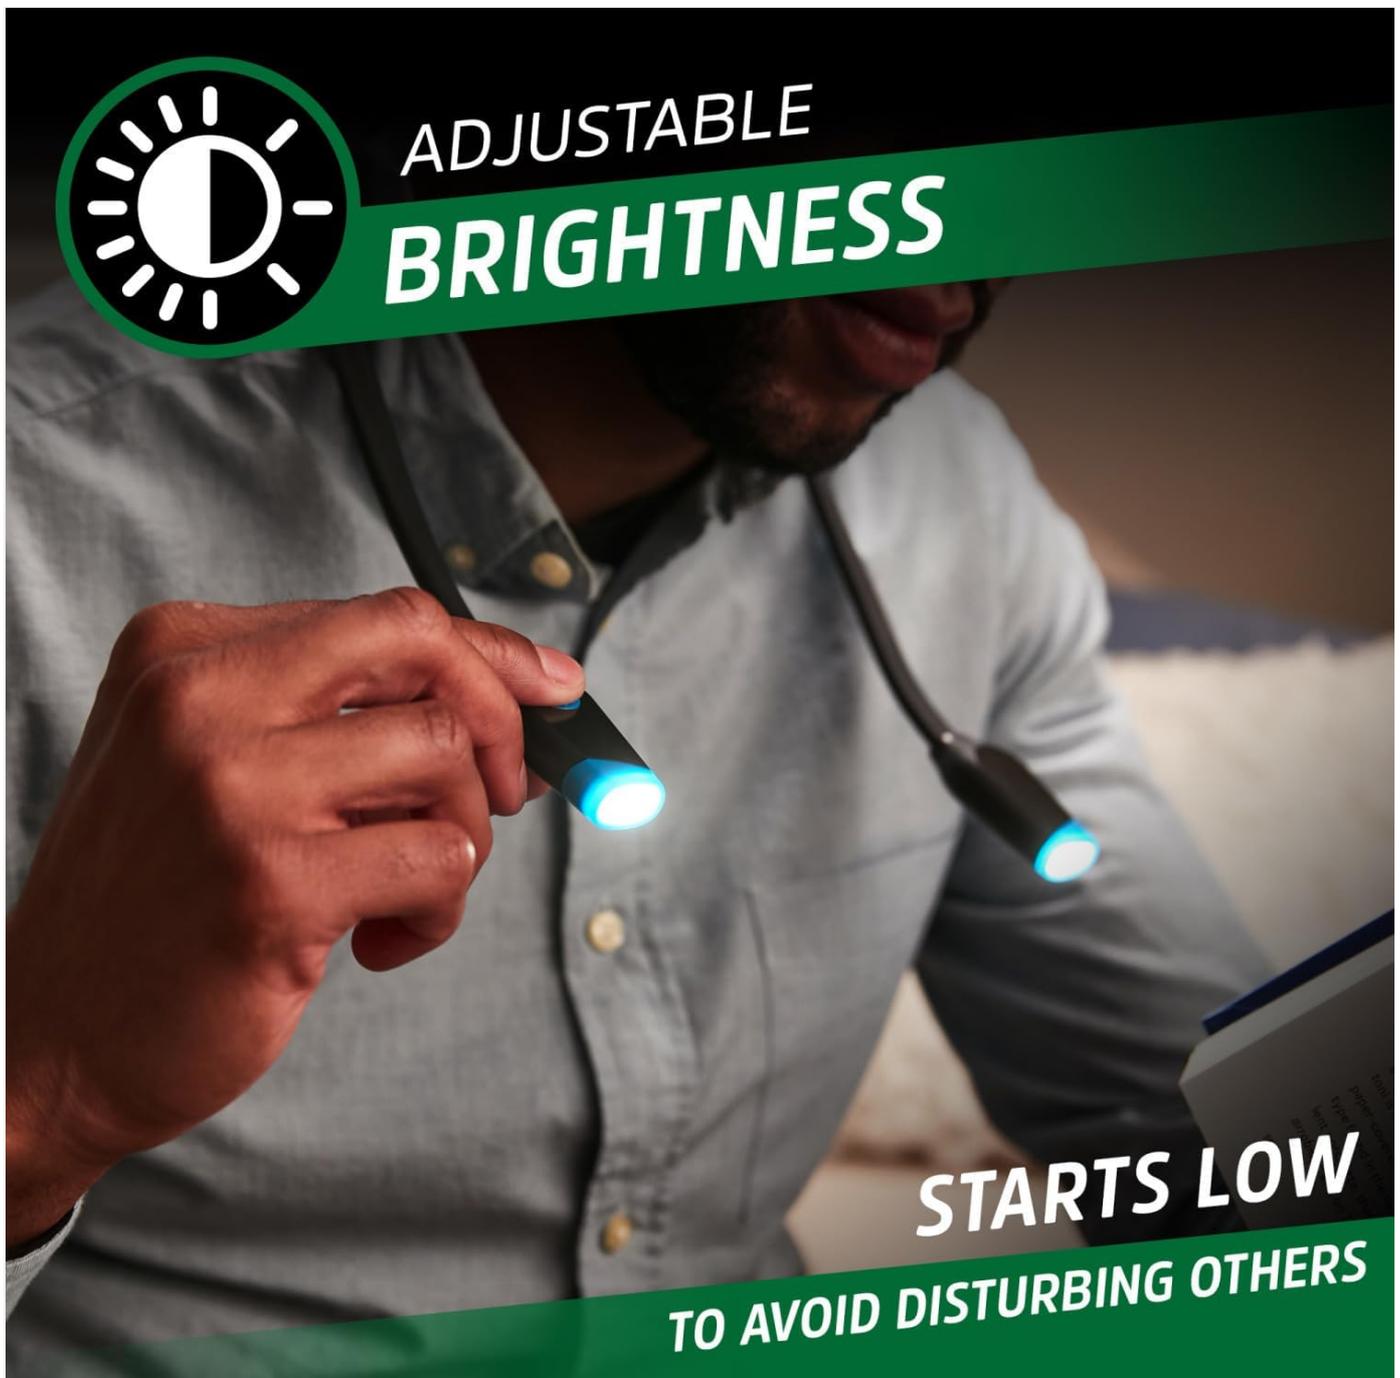

Image: A man wearing the Energizer Neck Light, pressing a button on one of the light heads to adjust its brightness while reading a book.

- To turn on: Press the power button on either light head. The light will activate at a low brightness setting.
- To adjust brightness: Press and hold the power button to cycle through brightness levels up to 100 lumens. Release the button at your desired brightness.
- To turn off: Press the power button until the light turns off.

Color Temperature Modes

The neck light offers three color temperature modes: Warm, Cool, and Combined. These modes can be selected to suit different preferences and environments.

Image: A woman reading with the Energizer Neck Light, illustrating the three available light modes, including dimming functionality.

- To change color mode: With the light on, short press the power button to cycle through Warm, Cool, and Combined light settings.
- Warm light is recommended for blue light reduction, especially during nighttime reading.

MAINTENANCE

- **Cleaning:** Wipe the neck light with a soft, damp cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the neck light in a cool, dry place when not in use.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge when the light output diminishes.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Battery is discharged.	Charge the neck light using the provided USB cable.
Light output is dim.	Low battery or low brightness setting.	Recharge the device. Press and hold the power button to increase brightness.
Cannot change color mode.	Incorrect button press.	Ensure the light is on, then short press the power button to cycle through modes.

SPECIFICATIONS

Brand: Energizer

Model Number: 039800140623

Light Source Type: LED

Maximum Lumens: 100

Runtime: Up to 5 hours (on high setting), up to 22 hours (on low setting)

Power Source: Battery Powered (Rechargeable via USB)

Connectivity Technology: USB

Control Method: Push Button / Touch

Color Modes: Warm, Cool, Combined

Product Dimensions: 1.89"D x 5.12"W x 6.46"H

Item Weight: 5.61 ounces

Material Type: Plastic

Water Resistance Level: Not Water Resistant
