U`King LED Stage Light Wall Washer Bar ZQ06074 User Manual

Model: ZQ06074

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your U`King LED Stage Light Wall Washer Bar. Please read this manual thoroughly before use and retain it for future reference.

SAFETY INFORMATION

- Ensure the product is connected to a power source within the specified voltage range (AC 100-240V).
- Do not expose the device to rain or moisture to prevent fire or shock hazards.
- Avoid direct eye exposure to the light source as it may cause eye injury.
- Always disconnect from the power supply before cleaning or servicing.
- Ensure proper ventilation to prevent overheating.

PACKAGE CONTENTS

- U`King LED Stage Light Wall Washer Bar (1 unit)
- Mounting Brackets (2 units)
- Thumb Screws (2 units)
- Power Cord (1 unit)
- Instruction Manual (1 unit)

PRODUCT OVERVIEW

The U`King LED Stage Light Wall Washer Bar is a versatile lighting fixture designed for various applications. It features 48 RGB LEDs capable of producing a wide range of colors and dynamic effects.

Key Features:

- **Powerful Color Combination:** Utilizes RGB LEDs for vibrant color mixing and wide washing effects.
- **Multiple Control Modes:** Supports DMX-512, automatic operation, master-slave, and sound activation.
- **Dynamic Lighting Effects:** Includes strobe, jump, gradual change, pulse change, and chasing effects.
- **Durable Construction:** Made from premium aluminum alloy with an efficient and noiseless heat dissipation system.
- **Adjustable Angle:** Features a 360° adjustable bracket for flexible positioning.

SETUP

Mounting the Bracket:

1. Attach the adjustable mounting brackets to the sides of the light bar using the provided thumb screws.
2. Tighten the screws to secure the brackets. The brackets allow for 360° adjustment of the light's angle.

Power Connection:

- Connect the provided power cord to the "POWER IN" port on the back of the light bar.
- Plug the other end of the power cord into a suitable power outlet.
- For connecting multiple units, use the "POWER OUT" port to daisy-chain power to additional light bars.

OPERATING MODES

The light bar offers various operating modes to suit different lighting needs. Use the 4-button menu with the digital display on the back of the unit to navigate and select modes.

- **DMX-512 Mode:** For professional control using a DMX controller.
- **Automatic Operation:** Cycles through pre-programmed lighting effects automatically.
- **Master-Slave Mode:** Connect multiple units for synchronized operation.
- **Sound Activation:** Lights react to ambient sound or music.
- **Linear Dimming (0-100%):** Adjust brightness smoothly.
- **Strobe Effect:** Rapid flashing of lights.
- **Jump Effect:** Instantaneous color changes.
- **Gradual Change:** Smooth transitions between colors.
- **Pulse Change:** Rhythmic pulsing of colors.
- **Chasing Effect:** Lights move in a sequential pattern.

DMX CONTROL

The light bar is compatible with standard DMX512 protocol. Connect your DMX controller to the "DMX IN" port. Use the "DMX OUT" port to connect to other DMX-compatible devices for synchronized control.

The 4-button menu on the back panel allows you to set the DMX address and select control channels (e.g., 2, 8, or 12 channels).

MAINTENANCE

- Regularly clean the lens and housing with a soft, dry cloth to maintain optimal light output.
- Ensure the heat dissipation system (fins on the back) remains clear of obstructions.
- Periodically check all cables and connections for wear or damage.
- Store the device in a cool, dry place when not in use.

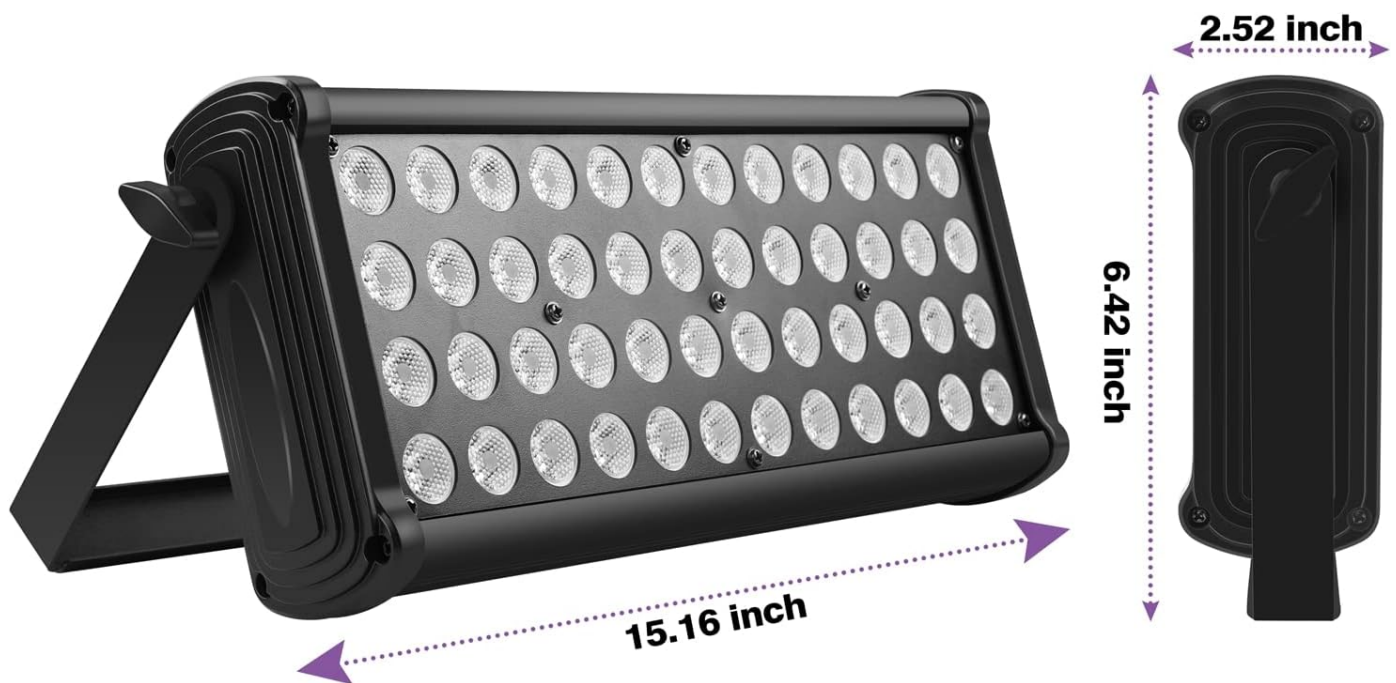

Image: The light bar's dimensions, showing the heat dissipation fins on the side, which are crucial for maintaining performance.

TROUBLESHOOTING

- **No Power:** Check the power cord connection and ensure the power outlet is functional.
- **No Light Output:** Verify the selected mode is active and not in a dimmed state. Check DMX connections if applicable.
- **Incorrect DMX Control:** Ensure the DMX address is correctly set and the DMX cable connections are secure.
- **Overheating:** Check for obstructions around the heat dissipation fins. Reduce ambient temperature if possible.

SPECIFICATIONS

Attribute	Detail
Brand	U`King

Model Number	ZQ06074
Color	RGB (Red, Green, Blue)
Wattage	80 watts
Number of Light Sources	48 LEDs
Light Source Type	Light Emitting Diode
Material	Aluminum
Product Dimensions	3.14"L x 16.1"W x 7"H
Item Weight	5.19 pounds
Voltage	240 Volts
