onerbl 9V AC/DC Adapter

onerbl 9V AC/DC Adapter Instruction Manual

For Halex Electronic Dartboards and Compatible Devices

Introduction

This manual provides essential information for the safe and effective use of your onerbl 9V AC/DC Adapter. Please read these instructions carefully before using the product and retain them for future reference. This adapter is designed as a replacement power supply for various electronic dartboards, including specific Halex models, and other compatible devices requiring a 9V DC power input with a barrel connector.

Safety Information

Your safety is paramount. Please observe the following precautions:

- Ensure the adapter's voltage and current ratings match your device's requirements before connecting.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to severe impact.
- Do not attempt to open or modify the adapter. Refer all servicing to qualified personnel.
- Unplug the adapter from the wall outlet when not in use for extended periods.
- This adapter features built-in protections against over-voltage, over-current, and short-circuit conditions to safeguard your devices.

The adapter includes multiple protection features for electrical safety.

Product Overview

The onerbl 9V AC/DC Adapter is a high-quality replacement power supply designed for reliability and durability. It features a universal AC input (100-240V) for worldwide compatibility and provides a stable 9V DC output.

What's Included:

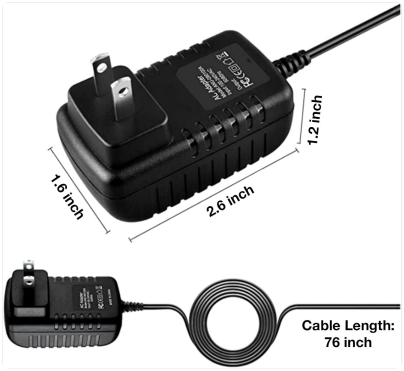

- 1 x onerbl 9V AC/DC Adapter

Key Features:

- **Input:** AC 100-240V 50/60Hz (Worldwide AC Input)
- **Output:** 9V DC
- **Protections:** Over Voltage Protection, Over Heat Protection, Short-Circuit Protection
- **Design:** Durable construction with copper wire and PVC jacket for enhanced longevity.
- **Portability:** Compact and lightweight design, suitable for travel.

Front and side view of the adapter.

Adapter dimensions and cable length (76 inches).

Internal construction highlighting durable copper wire and PVC jacket.

Setup

Follow these steps to set up your onerbl 9V AC/DC Adapter:

1. **Verify Compatibility:** Before connecting, ensure your device requires a 9V DC input and has a compatible barrel connector.
2. **Connect to Device:** Insert the barrel connector end of the adapter firmly into the power input port of your electronic device (e.g., Halex electronic dartboard).
3. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard 100-240V AC wall outlet.
4. **Power On:** Once connected, your device should receive power. Turn on your device as per its own instructions.

The adapter connected to a power strip and a device.

Operating Instructions

The onerbl 9V AC/DC Adapter operates as a simple plug-and-play power supply. Once correctly connected to both the power outlet and your compatible device, it will provide continuous power. There are no user-adjustable settings on the adapter itself.

- Always ensure the adapter is securely plugged into both the wall outlet and the device.
- If your device has an on/off switch, use that to control its power.
- Disconnect the adapter from the wall outlet before disconnecting it from the device to prevent accidental short circuits.

Maintenance

To ensure the longevity and optimal performance of your adapter, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the adapter. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use.

- **Cable Care:** Avoid bending or crimping the cable excessively, especially near the connectors, to prevent internal wire damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires or cracked casing. If damage is found, discontinue use immediately.

Troubleshooting

If you encounter issues with your adapter, try the following troubleshooting steps:

- **No Power to Device:**
  - Ensure the adapter is securely plugged into both the wall outlet and the device.
  - Test the wall outlet with another device to confirm it is functional.
  - Verify that your device is compatible with a 9V DC power supply and a barrel connector.
  - Check the adapter and cable for any visible damage.
- **Device Malfunction:** If your device is not functioning correctly after connecting the adapter, ensure the adapter's specifications (voltage, current) precisely match your device's requirements. An incorrect adapter can damage your device.
- **Adapter Overheating:** While the adapter has over-heat protection, if it feels excessively hot, unplug it immediately. Ensure it is used in a well-ventilated area and not covered.

If these steps do not resolve the issue, please contact customer support.

Specifications

Brand	onerbl
Model	9V AC/DC Adapter
Input Voltage	AC 100-240V, 50/60Hz
Output Voltage	DC 9V
Wattage	36.5 watts
Connector Type	Barrel Connector
Compatible Devices	Dart Boards (e.g., Halex Electronic Dartboard Meteor 64302, 64510, 64417, 64626, 500 Mini 64501, Cyclone 65012, Nova 1.0 64311, Tar 64620, Zeta 64310, 64301)
Cable Length	76 inches (approx. 6.3 feet)
Special Features	Travel-friendly, Over Voltage Protection, Over Heat Protection, Short-Circuit Protection
Item Weight	8 Ounces
Included Components	1 x AC Adapter

Warranty and Support

For warranty information or technical support, please refer to the documentation provided with your purchase or contact the seller

directly. Keep your purchase receipt as proof of purchase.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
