

OneOdio A71

OneOdio A71 Headphone Cable with 3.5mm Aux and Microphone User Manual

Model: A71

1. INTRODUCTION

This manual provides essential instructions for the proper use and maintenance of your OneOdio A71 Headphone Cable. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

2. PRODUCT OVERVIEW

The OneOdio A71 Headphone Cable is a 1.2-meter auxiliary audio cable designed for use with OneOdio A71 headphones. It features 3.5mm male connectors on both ends and includes an integrated microphone for communication.

Figure 1: OneOdio A71 Headphone Cable. This image displays the black 1.2-meter cable with a 3.5mm jack on each end. One end features a standard 3.5mm TRRS connector, while the other end also has a 3.5mm TRRS connector with an inline module containing the microphone. The cable is shown in a U-shape, highlighting its length and flexibility.

Key Features:

- **Length:** 1.2 meters (approximately 4 feet)
- **Connectors:** Dual 3.5mm male auxiliary (AUX) jacks
- **Microphone:** Integrated for voice communication
- **Compatibility:** Specifically designed for OneOdio A71 headphones

3. SETUP

To set up your OneOdio A71 Headphone Cable, follow these steps:

1. **Identify Connectors:** Locate the 3.5mm audio input port on your OneOdio A71 headphones. This is typically found on one of the earcups.
2. **Connect to Headphones:** Insert one end of the 3.5mm cable into the audio input port of your OneOdio A71 headphones. Ensure it is fully seated.
3. **Connect to Device:** Insert the other end of the 3.5mm cable into the audio output jack of your desired audio source (e.g., smartphone, computer, gaming console controller).
4. **Verify Connection:** Ensure both ends of the cable are securely connected to prevent audio interruptions or poor sound quality.

4. OPERATING INSTRUCTIONS

Once the cable is connected, you can use your headphones for audio playback and the integrated microphone for voice input.

- **Audio Playback:** Audio from your connected device will be transmitted to your headphones. Adjust volume directly on your audio source or headphones if they have built-in controls.
- **Microphone Usage:** The integrated microphone allows for voice communication. When connected to a compatible device, the microphone will automatically activate for calls, voice chat, or recording. Position the microphone close to your mouth for clear audio capture.

5. MAINTENANCE

Proper care will extend the life of your headphone cable:

- **Storage:** When not in use, coil the cable loosely. Avoid tight coiling or sharp bends, which can damage the internal wires.
- **Cleaning:** Wipe the cable with a soft, dry cloth to remove dust or dirt. Do not use harsh chemicals or abrasive cleaners.
- **Handling:** Always grasp the connector housing when plugging or unplugging the cable, rather than pulling on the cable itself.
- **Avoid Stress:** Do not expose the cable to excessive tension, crushing, or extreme temperatures.

6. TROUBLESHOOTING

If you encounter issues with your OneOdio A71 Headphone Cable, refer to the following common problems and solutions:

Problem	Possible Solution
No audio or intermittent audio	• Ensure both 3.5mm connectors are fully inserted into the headphone and device jacks. • Check the volume settings on your audio source and headphones. • Test the cable with another device or pair of headphones to rule out a device-specific issue. • Inspect the cable for visible damage (kinks, cuts).

Problem	Possible Solution
Microphone not working	• Verify the cable is fully connected to both devices. • Check the microphone input settings on your connected device (e.g., computer sound settings, app permissions). • Ensure the microphone is not muted on your device or within the application you are using. • Test the microphone with another application or device.
Poor sound quality (static, distortion)	• Ensure connectors are clean and free of debris. • Try connecting to a different audio source to check for interference. • Avoid placing the cable near strong electromagnetic fields.

7. SPECIFICATIONS

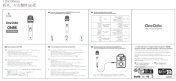

- **Brand:** OneOdio
- **Model:** A71
- **Cable Type:** AUX (Auxiliary Audio)
- **Connectors:** 3.5mm Male to 3.5mm Male (TRRS compatible for microphone)
- **Length:** 1.2 meters
- **Color:** Black
- **Special Feature:** Integrated Microphone
- **Compatible Devices:** OneOdio A71 Headphones, devices with 3.5mm audio jacks
- **Product Dimensions:** 9 x 2.5 x 1.5 cm (packaging); 15 grams (weight)
- **ASIN:** B0B187ZGWD

8. WARRANTY AND SUPPORT

For information regarding warranty coverage and customer support, please refer to the documentation included with your original product purchase or visit the official OneOdio website. Keep your proof of purchase for warranty claims.

For further assistance, you may contact OneOdio customer service through their official channels.
