Gofunly C3

Gofunly Kids Digital Camera C3 Instruction Manual

Model: C3 | Brand: Gofunly

INTRODUCTION

Thank you for choosing the Gofunly C3 Kids Digital Camera. This camera is designed to provide children aged 3-12 with a fun and engaging way to explore photography and videography. Featuring a 20MP dual lens, 1080P HD video recording, a 2.0-inch IPS screen, and a durable silicone case, it's perfect for capturing precious moments. Please read this manual carefully to ensure proper use and maintenance of your camera.

PRODUCT OVERVIEW

Key Features

- **20MP Dual Lens:** High-resolution front and rear cameras for photos and selfies.
- **1080P HD Video:** Record clear and vibrant videos.
- **2.0-inch IPS Screen:** Bright and clear display for viewing photos and videos.
- **32GB Micro SD Card Included:** Ample storage for thousands of photos and videos.
- **Multifunctional:** Supports original photo capture, video recording, playback, time-lapse, 8x zoom, 28 cartoon photo frames, 6 photo filters, and 5 mirror effects.
- **Built-in Games:** Includes 3 classic puzzle games (Snake, Tetris, Sokoban) for entertainment.
- **Durable Design:** Cute, eco-friendly, soft silicone shockproof case for protection.
- **Portable:** Compact and lightweight, with two lanyards for easy carrying.
- **Rechargeable Battery:** Built-in 1000mAh lithium battery for extended use.

What's in the Box

- 1 x Gofunly Kids Digital Camera (Green Dinosaur)
- 1 x 32GB Micro SD Card
- 1 x USB Cable
- 1 x Card Reader
- 2 x Lanyards
- 1 x Reset Pin
- 1 x User Manual

SETUP

1. Charging the Camera

Before first use, fully charge the camera battery. Use the included USB cable to connect the camera to a computer's USB

port or a standard USB wall adapter (not included).

- The charging indicator light will illuminate during charging.
- The light will turn off or change color once charging is complete.
- A full charge typically takes 2-3 hours.

2. Inserting the Micro SD Card

The camera requires a Micro SD card to save photos and videos. A 32GB card is included in the package.

1. Locate the Micro SD card slot on the side of the camera.
2. Insert the Micro SD card with the gold contacts facing down, gently pushing until it clicks into place.
3. To remove the card, push it in again until it clicks, and it will spring out.

OPERATING INSTRUCTIONS

Basic Functions

- **Power On/Off:** Press and hold the power button (usually marked with a circle and line) for a few seconds.
- **Take a Photo:** In photo mode, press the shutter button (usually a large button on top or side) to capture an image.
- **Record Video:** Switch to video mode (if applicable, via a mode button), then press the shutter button to start/stop recording.
- **Playback:** Press the playback button (often an arrow icon) to view saved photos and videos. Use the navigation buttons to browse.
- **Menu Navigation:** Use the up/down/left/right buttons to navigate through menus and select options with the OK/shutter button.

Special Features

- **Selfie Mode:** The camera features a dual lens. Switch to selfie mode (check camera interface for icon) to use the front-facing camera.

- **Time-Lapse:** Set the camera to time-lapse mode (2s/5s/10s options) to capture a series of photos at set intervals, creating a time-lapse video.
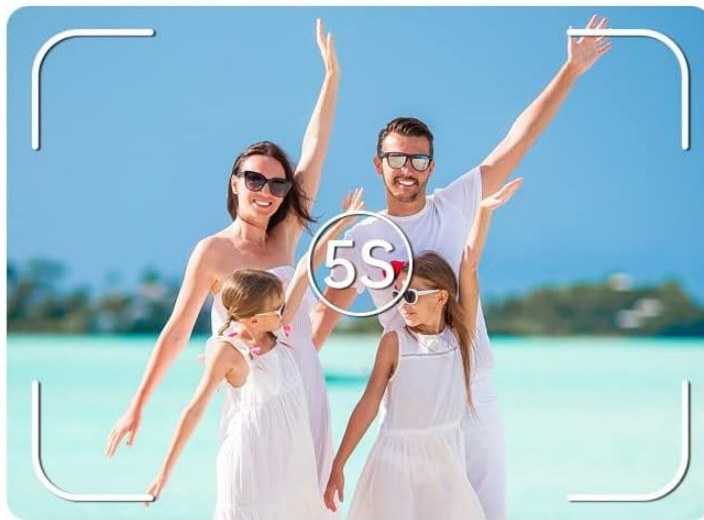

Image: The camera screen showing a time-lapse sequence, alongside examples of photos captured with 2x, 4x, 6x, and 8x digital zoom.

- **8x Digital Zoom:** Use the zoom buttons (often up/down navigation) to digitally zoom in on your subject.

Image: A visual sequence demonstrating the camera's 8x digital zoom, showing how the image becomes progressively closer to the subject.

- **Photo Frames & Filters:** Enhance your photos with 28 cartoon photo frames, 6 photo filters, and 5 mirror effects. Access these options through the camera's menu.

MAINTENANCE

Cleaning

- Wipe the camera body with a soft, dry cloth.
- For stubborn dirt, slightly dampen the cloth with water. Do not use harsh chemicals or abrasive cleaners.
- Clean the lens gently with a microfiber cloth specifically designed for camera lenses.

Battery Care

- Avoid fully discharging the battery frequently.
- Charge the camera regularly, even if not in use, to maintain battery health.
- Do not expose the camera to extreme temperatures, as this can affect battery life.

Storage

- Store the camera in a cool, dry place away from direct sunlight.
- When storing for extended periods, ensure the battery is partially charged (around 50%).

TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera won't turn on.	Battery is dead or low.	Charge the camera for at least 30 minutes.
Cannot take photos/videos.	No SD card inserted or card is full/corrupted.	Insert a Micro SD card. If already inserted, check if it's full and delete some files, or try formatting the card (this will erase all data).
Screen is frozen.	Software glitch.	Use the included reset pin to press the reset button (usually a small hole near the charging port). This will restart the camera without losing data.
Poor image quality.	Dirty lens or low light conditions.	Clean the camera lens with a soft, clean cloth. Ensure adequate lighting when taking photos.
Cannot connect to computer.	Faulty USB cable or driver issue.	Try a different USB cable or USB port on your computer. Ensure the camera is powered on when connecting.
