Linenspa Heavy Duty Metal Platform Bed Frame Instruction Manual

Model: LS0001MPFKKBK

PRODUCT OVERVIEW

When it comes to bedroom furniture, start with a strong foundation. The sleek lines of the Linenspa Heavy Duty Metal Platform Bed will give your room a minimal and clean look. Featuring lightweight, matte-black metal, this king bed frame is made to last and can support up to 1200 pounds—twice the typical weight limit of other platform beds. The metal bed base is comprised of sturdy steel slats, offering impressive support for virtually any type of king mattress, including memory foam, hybrid, and innerspring mattresses. With a modern low-profile height, this king platform bed works best without a box spring. Underneath, you'll find 14 inches of underbed storage for shoes, clothing, extra blankets, and more. The simple metal frame is also incredibly easy to put together. The lightweight steel bars quickly click together in under five minutes, with no additional tools or helpers needed. With durability, clean lines, storage space, and easy assembly, this minimal platform bed frame checks all the boxes.

SETUP AND ASSEMBLY

The Linenspa Heavy Duty Metal Platform Bed Frame is designed for simple, tool-free assembly, typically taking less than 5 minutes. Follow these steps for quick setup:

- 1. Unbox Components:** Carefully remove all parts from the packaging. Ensure all frame sections and slats are present.
- 2. Unfold the Base:** The bed frame comes pre-assembled in foldable sections. Unfold the main sections of the frame on a flat, clear surface.
- 3. Snap Slats Together:** Connect the steel slats by snapping them into place. The design allows for quick and secure interlocking without the need for additional tools.
- 4. Tighten Leg Bolts (if applicable):** While largely tool-free, some models may have pre-attached leg bolts that require a final tightening by hand to ensure maximum stability.

5. **Position and Add Mattress:** Once the frame is fully assembled and stable, position it in your desired location and place your mattress directly on top. A box spring is not required.

Simple Assembly

OPERATING INSTRUCTIONS

The Linenspa Heavy Duty Metal Platform Bed Frame provides a stable and supportive foundation for your mattress without the need for a box spring. Its design allows for optimal mattress support and convenient underbed storage.

- **Mattress Compatibility:** This frame is compatible with virtually any type of mattress, including memory foam, hybrid, and innerspring mattresses.

- **Weight Capacity:** The frame is designed to support up to 1,200 pounds, providing exceptional stability and durability.
- **Underbed Storage:** Utilize the 14 inches of clearance beneath the frame for convenient storage of items such as shoes, clothing, or extra bedding.

MAINTENANCE

To ensure the longevity and appearance of your Linenspa Heavy Duty Metal Platform Bed Frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame with a damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Regular Inspection:** Periodically check all connections and bolts to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.

- **Avoid Excessive Weight:** While designed for heavy duty use, avoid placing excessive or uneven weight on the frame to prevent damage.

TROUBLESHOOTING

If you encounter any issues with your bed frame, consider the following common troubleshooting tips:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-check and tighten all bolts and connections on the frame. Ensure the mattress is properly seated on the slats.
- **Mattress Sliding:** If your mattress tends to slide, ensure it is centered on the frame. Some users find that placing a non-slip mat or rug gripper between the mattress and the slats can help.
- **Uneven Support:** Verify that the frame is assembled correctly and all legs are fully extended and locked into place. Ensure the frame is on a level surface.

SPECIFICATIONS

Feature	Detail
Size	King
Product Dimensions	78.84"L x 74.87"W x 14"H
Special Features	Durable, Easy Assembly, Lightweight, No Box Spring Needed, No Tools Needed
