This image illustrates the overall dimensions of the chair, including backrest length, seat depth, armrest adjustability, and wheelbase diameter, providing a comprehensive overview for assembly and placement.

Operating Instructions

Your Anda Seat Kaiser 3 Gaming Chair offers multiple adjustment options to customize your seating experience for optimal comfort and ergonomic support.

Magnetic Head Pillow

Image: Close-up of the magnetic memory foam neck pillow.

The head pillow features a magnetic attachment, allowing you to easily clip it on and move it to your desired position along the backrest. It is made of molded memory foam with a cooling pad for maximum comfort and neck support.

MagSwap 4D Armrests

Image: Illustration of the MagSwap 4D armrests.

These ergonomically designed armrests offer 4-way adjustability: up/down, forward/backward, side-to-side, and pivot. The magnetic tops can be swapped for different colors or extended accessories, providing optimum comfort and relieving wrist pressure.

Adaptive Lumbar Support

Image: Diagram showing the 4-way adjustable lumbar support.

The built-in 4-way adaptive lumbar support system allows for precise adjustments in and out, and up and down. This feature provides personalized firmness and support to your lower back, enhancing comfort during long sitting sessions.

Recline Function

Image: Visual representation of the chair's recline range.

The chair allows for a recline range from 90° (upright) to 160° (nearly flat), providing versatility for work, gaming, or relaxation. Use the lever on the side of the seat to adjust the recline angle.

Seat Height Adjustment

Adjust the seat height using the lever located beneath the seat. Ensure your feet are flat on the floor and your knees are at a 90-degree angle for optimal ergonomic posture.

Maintenance

Care and Cleaning

To maintain the quality and appearance of your Anda Seat Kaiser 3 Gaming Chair, follow these simple care instructions:

- **PVC Leather:** Wipe clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners, as they may damage the material.
- **Wheels:** Periodically check and clean the 65mm silent wheels to ensure smooth movement and prevent

debris buildup.

- **General:** Inspect all bolts and connections regularly to ensure they are secure. Tighten if necessary.

Troubleshooting

Common Issues and Solutions

- **Cushion Compression:** The chair uses high-density memory foam. Over time, some compression may occur. This is normal and the foam is designed to retain its shape. For optimal longevity, rotate your sitting position periodically.
- **Lumbar Support Comfort:** If the lumbar support feels uncomfortable, adjust its position (in/out, up/down) until it provides optimal support for your back's natural curve. Experiment with different settings to find what works best for you.

Technical Specifications

Feature	Specification
