Ca'Lefort CLF-WS15-A

Ca'Lefort 15 Inch Wine Fridge Instruction Manual

Model: **CLF-WS15-A** | Brand: **Ca'Lefort**

1. Important Safety Information

Please read all instructions carefully before using your Ca'Lefort Wine Fridge. Retain this manual for future reference.

- Ensure the appliance is properly grounded.
- Do not operate if the power cord is damaged.
- Keep ventilation openings clear of obstruction.
- Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- Do not damage the refrigerant circuit.
- Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

2. Product Overview

The Ca'Lefort 15 Inch Wine Fridge is designed to provide optimal storage conditions for your wine collection. It features a sleek design suitable for both built-in and freestanding installations.

- **Capacity:** 3.00 cu.ft, holding up to 33 standard 750ml wine bottles.
- **Temperature Range:** Precise control from 40-65°F (5-18°C).
- **Shelves:** Durable, eco-friendly Sapele wood shelves, designed for easy access and accommodating various bottle sizes.
- **Door:** Double-glazed stainless steel door with UV protection and high sealing for stable internal temperature. Features an anti-fingerprint and anti-rust brushed finish.
- **Lighting:** 3-color LED interior lighting (Amber, Blue, White) to suit different moods and visibility.
- **Cooling System:** High-performance compressor with quiet, even air circulation and automatic defrosting.

- **Memory Function:** Power failure memory automatically restores previous settings.

3. Installation & Setup

3.1 Unpacking

Carefully remove all packaging materials. It is recommended to let the wine fridge stand upright for at least 24 hours before plugging it in to allow the refrigerant to settle.

3.2 Placement

The unit is designed for both built-in and freestanding applications. Ensure adequate ventilation around the unit, especially

for built-in installations, as it features a front vent design.

- **Dimensions:** 22.4"D x 14.8"W x 34"H (25.1"D with handle).
- **Cabinet Opening (Built-in):** 15.05"W x 22.65"D x 34.25"H.
- Ensure the floor is level and strong enough to support the unit when fully loaded.
- Avoid direct sunlight or heat sources.
- Maintain a minimum of 1 inch clearance at the back and sides for proper air circulation if freestanding.

Image: The wine fridge displayed in both freestanding and built-in configurations, highlighting its versatility.

3.3 Electrical Connection

Plug the unit into a dedicated, grounded 3-prong outlet. Do not use extension cords or adapters.

4. Operating Instructions

The digital control panel allows for easy adjustment of temperature and lighting.

Image: Digital control panel with temperature display and buttons for power, lighting, and temperature adjustment.

- **Power ON/OFF:** Press the power button (**U**) to turn the unit on or off.
- **Temperature Adjustment:** Use the Up (**^**) and Down (**v**) arrows to set your desired temperature between 40-65°F. The temperature can be adjusted by 1°F increments.
- **Lighting Control:** Press the light bulb icon () to cycle through the 3 LED colors: Amber, Blue, and White.
- **Temperature Unit:** Press the °C/°F button to switch between Celsius and Fahrenheit display.

5. Loading & Storage

The wine fridge features removable Sapele wood shelves designed to cradle your wine bottles securely.

- Each shelf can hold multiple standard 750ml bottles.
- To accommodate larger or irregularly shaped bottles, shelves can be removed.
- Always ensure bottles are placed horizontally to keep corks moist, preventing air from entering and spoiling the

wine.

6. Maintenance & Care

6.1 Cleaning

- Unplug the unit before cleaning.
- Clean the interior with a mild detergent and warm water. Avoid abrasive cleaners.
- Wipe down the exterior with a soft cloth. For stainless steel surfaces, use a stainless steel cleaner.
- The wooden shelves can be wiped with a damp cloth and dried thoroughly.

6.2 Defrosting

The unit features an automatic defrosting function, minimizing the need for manual defrosting.

6.3 Door Seal

Regularly check the door seal for any damage or gaps to ensure efficient operation and temperature retention.

7. Troubleshooting

Problem	Possible Cause	Solution
Unit does not operate	Not plugged in; circuit breaker tripped; power outage.	Check power connection; reset circuit breaker; check household power.
Temperature is not cold enough	Door not closed properly; excessive door openings; warm ambient temperature; unit overloaded.	Ensure door is sealed; reduce door openings; relocate unit if ambient temp is too high; reduce number of bottles.
Unit is noisy	Unit not level; loose parts; normal compressor operation.	Adjust leveling feet; check for loose components; some noise is normal.

Problem	Possible Cause	Solution
Vibration	Unit not level.	Adjust leveling feet.
