If you encounter issues with your desk, consider the following common solutions:

- **Drawers Not Closing/Opening Smoothly:**

 - Check for any obstructions within the drawer tracks or items inside the drawer preventing full closure.
 - Verify that all screws securing the drawer slides to the desk and the drawer box are tight.
- **Desk Wobbles:**
 - Confirm that the desk is placed on a level surface.
 - Check all assembly fasteners for tightness. Loose connections can cause instability.
