Spigen Tough Armor MagFit Case for iPhone 14 Pro Max Instruction Manual

INTRODUCTION

Product Overview

The Spigen Tough Armor MagFit case is engineered to provide robust protection for your iPhone 14 Pro Max. It features a dual-layer construction with advanced shock-absorbing materials and is fully compatible with MagSafe accessories. This manual provides essential instructions for the proper installation, usage, and care of your case, ensuring optimal performance and longevity.

SETUP

Case Installation

To ensure optimal protection and a secure fit, follow these steps for installing your Spigen Tough Armor MagFit case on your iPhone 14 Pro Max:

1. Ensure your iPhone 14 Pro Max is clean and free of any dust, dirt, or debris.

TOUGH ARMOR MAGFIT

This image illustrates the separate components of the Tough Armor MagFit case and the iPhone 14 Pro Max, ready for assembly.

2. Gently insert the iPhone 14 Pro Max into the soft, flexible Thermoplastic Polyurethane (TPU) inner layer of the case. Ensure all corners of the phone are properly seated within this layer.

FORTIFIED

The phone is being carefully placed into the flexible inner layer of the case.

3. Once the phone is securely positioned in the inner TPU layer, align the rigid polycarbonate outer shell and snap it firmly into place around the TPU layer.

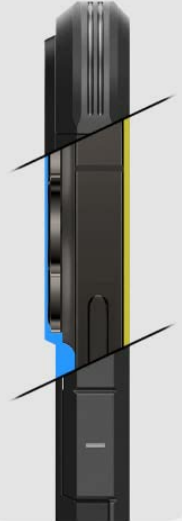

The rigid outer shell is being secured over the inner layer, completing the case assembly.

4. Verify that all buttons (power, volume) are functional and all ports (charging, speakers) are accessible and unobstructed.

OPERATING INSTRUCTIONS

MagSafe Compatibility

The Spigen Tough Armor MagFit case features integrated magnets, ensuring full compatibility with MagSafe accessories. To use, simply align your MagSafe charger or other MagSafe-compatible accessory with the back of the case for a secure magnetic connection and efficient wireless charging.

Charge on without
losing the protection.

A MagSafe charger is shown magnetically attached to the back of the Spigen Tough Armor MagFit case, indicating wireless charging compatibility.

Kickstand Functionality

The case includes a reinforced kickstand for convenient hands-free viewing. To deploy the kickstand, gently pull it out from the back of the case until it clicks into its locked position. This allows for stable horizontal viewing of your device, ideal for watching videos or making video calls.

you **snap** into reality.

The integrated kickstand is extended from the back of the case, providing a stand for hands-free media viewing.

Shock Absorption and Air Cushion Technology

This case incorporates Spigen's advanced Air Cushion Technology and XRD Foam for superior shock absorption. These features are strategically designed to dissipate impact forces during accidental drops, providing robust protection for your device against daily bumps and falls.

A close-up view highlights the Air Cushion Technology in the corners of the case, designed to absorb impact.

MAINTENANCE

To maintain the appearance and protective qualities of your Spigen Tough Armor MagFit case, adhere to the following guidelines:

- **Cleaning:** Wipe the case regularly with a soft, slightly damp cloth. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the material or finish of the case.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight to prevent material degradation or discoloration.
- **Inspection:** Periodically inspect the case for any signs of wear, cracks, or damage, especially after significant impacts. If the case is severely damaged, it is recommended to replace it to ensure continued and effective protection for your device.

TROUBLESHOOTING

Common Issues and Solutions

- **Case not fitting correctly:** Double-check that you have the correct model case for your iPhone 14 Pro Max. Ensure the phone is fully and evenly seated within the inner TPU layer before attempting to attach the outer polycarbonate shell.
- **MagSafe accessories not attaching securely:** Inspect the back of the case and the MagSafe accessory for any debris or obstructions that might interfere with the magnetic connection. Confirm that the accessory itself is genuinely MagSafe compatible.
- **Kickstand not deploying or retracting smoothly:** Check for any foreign objects or obstructions in the kickstand mechanism. If it feels stiff, gently operate it back and forth a few times to loosen it. Avoid applying excessive force to prevent damage.
- **Discoloration or fading:** Over extended periods of use, some materials may exhibit cosmetic discoloration or fading due to exposure to sunlight, natural oils from skin, or certain environmental factors. This is typically a cosmetic change and does not compromise the protective function of the case.

Specifications

Feature	Detail
Brand	Spigen
Model Name	Tough Armor MagFit
Model Number	ACS04840
Compatible Phone Models	iPhone 14 Pro Max
