SAFETY INFORMATION

- Ensure proper assembly of all components before use.
- Place the desk on a stable and level surface.
- Avoid touching moving parts during height adjustment.
- Keep all cables organized and clear of moving mechanisms.
- Do not exceed the maximum weight recommendation of 220 pounds.
- The desk features an anti-collision system to prevent damage. If resistance is detected during adjustment, the desk will stop and reverse slightly.

PACKAGE CONTENTS

Your SANODESK standing desk will arrive in two separate packages:

- Desk Top (Bamboo)
- Desk Frame (White)

ARRIVES IN 2 BOXES

 *May come 1-2 days apart*

ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately one hour. It is recommended that two people assemble the desk for ease and safety.

1. Unpack all components and verify against the parts list (not provided in this document, refer to included physical manual).
2. Attach the desk legs to the desktop. Note that some pilot holes for the middle braces may need to be drilled by the user. A hand drill is recommended for this step.
3. Connect the control panel and power cables according to the diagrams in the physical manual.
4. Ensure all screws are tightened securely.

OPERATING INSTRUCTIONS

Control Panel Overview

The control panel, located on the underside of the desktop, features an LED display and several buttons for operation.

Saving 4 Position

Height Adjustment

- Customize High/Low Limit(within the allowable range)

Image: Control panel with height display and adjustment buttons.

Height Adjustment

- Use the up (^) and down (v) arrow buttons to manually adjust the desk height.
- The LED display will show the current height in inches.

Memory Presets

The desk features four memory preset buttons (1, 2, 3, 4) to save and recall preferred sitting and standing heights.

1. Adjust the desk to your desired height using the up/down arrows.
2. Press the 'M' button (or similar 'Set' button, refer to physical manual) followed by one of the number buttons (1, 2, 3, or 4) to save the current height.
3. To recall a saved height, simply press the corresponding number button. The desk will automatically move to that position.

Sit-Stand Reminder

The control panel includes a sit-stand reminder function to encourage regular movement. Consult your physical manual for instructions on how to activate and customize this feature.

Anti-Collision Feature

For safety, the desk is equipped with an anti-collision system. If the desk encounters an obstacle during upward or downward movement, it will automatically stop and reverse slightly to prevent damage or injury.

PRODUCT FEATURES

Dual Motor Design

The desk features a dual-motor design for smooth, stable, and quiet height adjustments. This design also contributes to a higher weight capacity and longer lifespan compared to single-motor desks.

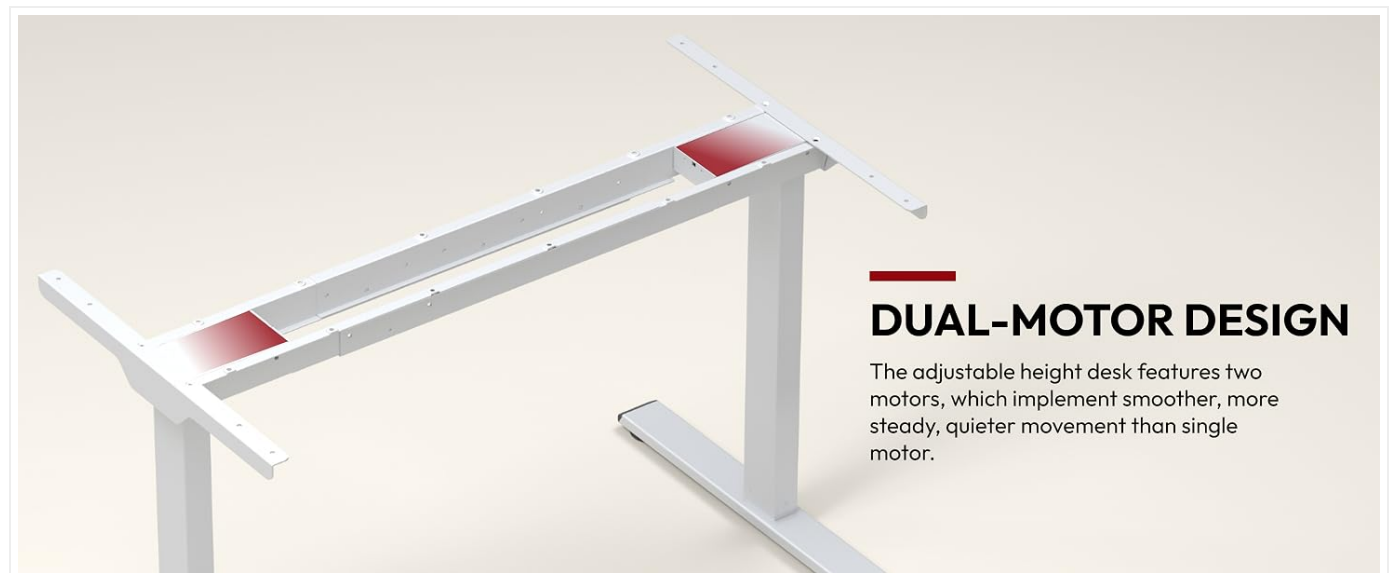

Image: Dual-motor design for enhanced stability and performance.

3-Stage Lifting System

The 3-stage inverted lifting column provides a wide height adjustment range from 23.6 inches to 49.2 inches, accommodating various user heights and preferences for sitting or standing positions.

WHY WE NEED 3 STAGE LEGS?

The 3 stage legs offers a wider adjustment range, providing greater flexibility and adaptability to accommodate users of different heights, allowing everyone to find a comfortable working height.

Adjustment Range

23.6 inch- 49.2 inch /60 cm-125 cm

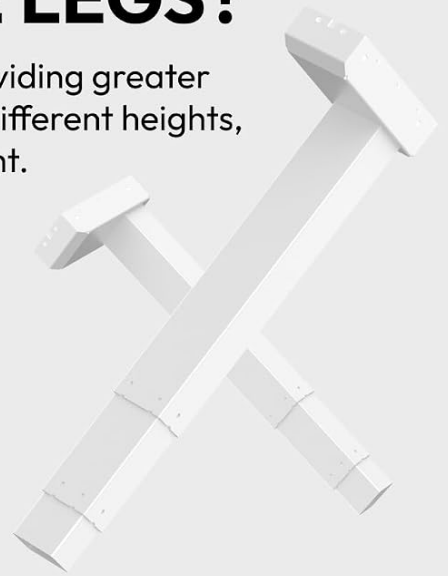

Image: Explanation of the 3-stage leg system and its adjustment range.

Solid Bamboo Desktop

The desktop is constructed from mature, seamless bamboo, offering exceptional flexibility, tensile strength, and durability. It provides a smooth, easy-to-maintain surface that adds a sophisticated touch to any workspace.

SOLID BAMBOO SLAB

Beautiful, eco-friendly and durable

Image: Close-up of the solid bamboo desktop surface.

Weight Capacity

The desk supports an impressive weight capacity of up to 220 pounds, ensuring stability even with multiple monitors and office equipment.

MAXIMUM LOAD CAPACITY

Up to **220 lbs** with maximum stability and sturdiness

Image: Visual representation of the desk's weight capacity.

Certified Safety

The standing desk is UL certified, incorporating advanced safety features such as overload protection, overheating protection, overcurrent protection, and power outage protection.

CERTIFIED SAFETY

The standing desk is proudly UL certified, with advanced features like overload protection, overheating protection, overcurrent protection, and power outage protection.

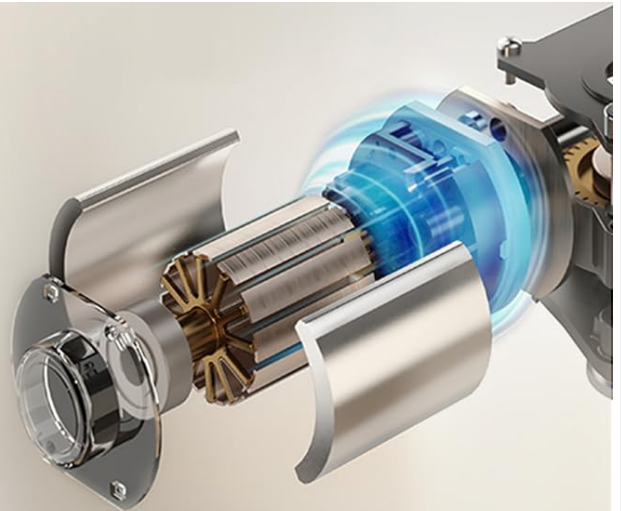

Image: UL certification for safety and reliability.

MAINTENANCE

- Clean the bamboo desktop with a damp cloth.
- Avoid using abrasive cleaners, which can damage the finish.
- Do not expose the desktop to direct sunlight for prolonged periods to prevent discoloration or warping.
- Regularly check all fasteners to ensure they remain tight.

TROUBLESHOOTING

- **Desk not moving:** Ensure all power cables are securely connected and the power outlet is functional.
- **Desk stops during adjustment:** The anti-collision feature may have been activated. Remove any obstacles and try again.

- **Unusual noises:** Check for any loose components or obstructions. If the noise persists, contact customer support.
- **Pilot holes not aligning during assembly:** While the desk is designed for straightforward assembly, minor adjustments or drilling of new pilot holes may be necessary in some cases.

For further assistance, please refer to the comprehensive troubleshooting guide in your physical manual or contact SANODESK customer support.
