

NineSky H2

NineSky H2 Dehumidifier Instruction Manual

Model: H2 | Brand: NineSky

INTRODUCTION

The NineSky H2 Dehumidifier is designed to efficiently remove excess moisture from your indoor environment, creating a more comfortable and healthier living space. Utilizing semiconductor condensation technology, it can extract up to 34 ounces of water per day under optimal conditions (30°C, 80% RH). This compact and portable unit features an auto shut-off function for safety and includes a 5-color LED light for ambient illumination.

This manual provides essential information for the safe and effective operation and maintenance of your NineSky H2 Dehumidifier.

KEY FEATURES

- **Efficient Dehumidification:** Employs semiconductor condensation technology to remove up to 34 OZ/day of moisture.
- **Auto Shut-Off Protection:** Automatically turns off when the 98 OZ water tank is full, preventing overflow.
- **Ultra-Quiet Operation:** Operates at less than 40dB, suitable for bedrooms and quiet environments.
- **5-Color LED Light:** Features customizable ambient lighting with blue (default), purple, orange, yellow, or no light options.
- **Compact and Portable Design:** Measures approximately 10"(L) x 6.1"(W) x 14.2"(H) with a built-in handle and cord storage for easy relocation and organization.
- **Wide Coverage:** Effective for areas up to 800 sq. ft., ideal for bedrooms, bathrooms, basements, and RVs.

SETUP

1. **Unpacking:** Carefully remove the dehumidifier from its packaging. Ensure all packing materials are removed.
2. **Placement:** Place the dehumidifier on a flat, stable surface in the desired room. Ensure there is adequate space around the unit for proper air circulation (at least 10 cm from walls or furniture).
3. **Power Connection:** Locate the power cord storage slot on the side of the unit. Unwind the power cord and plug the dehumidifier into a standard 120V AC electrical outlet.

Dual Semiconductors

High-Efficiency Dehumidification

OPERATING INSTRUCTIONS

1. **Power On/Off:** Press the power button () located on the top of the unit to turn the dehumidifier ON or OFF. The blue indicator lights will illuminate when the unit is running.
2. **LED Light Control:**
 - To activate the light switch mode, press and hold the power button for 5 seconds. The indicator lights will blink.
 - Once in light switch mode, press the power button again to cycle through the 5 available colors (Blue, Purple, Orange, Yellow) or to turn the light off.
3. **Auto Shut-Off:** The dehumidifier is equipped with an automatic shut-off feature. When the water tank reaches its full capacity, the unit will stop operating, and a red indicator light will flash, accompanied by an audible beep. This prevents water overflow.

MAINTENANCE

1. Emptying the Water Tank:

- When the water tank is full, the unit will automatically shut off.
- Turn off the dehumidifier and carefully pull out the water tank from the back of the unit.
- Open the tank lid and discard the collected water.
- Replace the tank lid securely and slide the empty water tank back into the dehumidifier until it clicks into place.

2. **Cleaning:** Regularly wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.

Dehumidification Capacity	34 OZ/day (under 30°C, 80% RH)
Noise Level	<40dB
Special Features	Automatic Shutoff, Portable, Quiet Operation, Removable Tank, 5 Colors LED Light
Product Dimensions	6.1"D x 10"W x 14.2"H
Material	Plastic
Item Weight	6.89 pounds

TROUBLESHOOTING

If the dehumidifier is not operating as expected, please check the following:

- **Unit not turning on:** Ensure the power cord is securely plugged into a working electrical outlet.
- **Unit not collecting water:** Verify that the water tank is correctly inserted. Check the humidity level in the room; the unit may not collect water if the humidity is already low.
- **Unit automatically shut off:** The water tank may be full. Empty the tank and reinsert it properly.
- **LED light not changing:** Ensure you are pressing and holding the power button for 5 seconds to enter light switch mode before attempting to change colors.
