## Troubleshooting

If you encounter any issues with your Magic Mixies Crystal Ball, please refer to the following common solutions:

Problem	Possible Solution
Crystal Ball / Mixie / Wand not turning on or responding.	Check battery installation and ensure correct polarity. Replace all batteries with new ones. Ensure the power switch is in the 'ON' position.
Mist effect is weak or not appearing.	Ensure the Crystal Ball has sufficient power (new batteries). Follow the spell instructions precisely, as mist generation is part of the magical progression.
Wand not interacting with the Crystal Ball or Mixie.	Ensure the wand's batteries are fresh and correctly installed. Point the wand directly at the designated sensor areas. Try turning the Crystal Ball off and on again.
Mixie not making sounds or lights.	Check the Mixie's batteries. Ensure you are interacting with the correct sensor points on the Mixie (e.g., forehead).
Toy makes unexpected sounds or behaves erratically.	Turn the toy off, wait a few seconds, and turn it back on. This can often resolve minor electronic glitches.
