Panasonic ES-LV9U

Panasonic ES-LV9U Electric Shaver User Manual

Model: ES-LV9U

1. Important Safety Information

Please read all instructions carefully before using this appliance to ensure safe and effective operation. Keep this manual for future reference.

- This electric shaver is designed for both wet and dry use. However, it should**not** be used near water sources such as bathtubs, showers, or sinks when plugged into the charger.
- Do not use this appliance on infants or individuals with sensitive skin without prior consultation with a dermatologist.
- Always clean and maintain the shaver according to the manufacturer's instructions to prevent skin irritation or other injuries.
- Ensure the charging unit and shaver are completely dry before connecting to power.
- Do not disassemble, repair, or modify the shaver yourself. Contact authorized service personnel for any repairs.

2. Product Overview

The Panasonic ES-LV9U is a high-performance 5-blade electric shaver designed for a precise and comfortable shave. It features advanced Japanese blade technology and a flexible head for optimal contour following.

Key Features:

- **5 Advanced Japanese Blades:** Engineered for efficient cutting of all beard types.

- **Linear Motor:** Delivers 70,000 cross-cutting operations per minute for a fast and smooth shave.
- **Beard Sensor:** Automatically adjusts motor power based on beard density to prevent skin irritation.
- **20D Flexible Shaver Head:** Moves in 10 directions, allowing the 5 blades to move independently for close contact with facial contours.
- **Wet & Dry Performance:** Suitable for use with foam or gel, or for a convenient dry shave.
- **Pop-up Trimmer:** Integrated for precise pre-shaving and detailing sideburns or mustaches.
- **Automatic Cleaning and Charging Station:** Automatically charges and cleans the shaver, maintaining hygiene.
- **LED Display:** Provides battery status and other operational information.

The shaver head features 5 advanced Japanese blades for efficient cutting.

Individual shaving features include a shaving sensor, pop-up trimmer, wet & dry performance, and 30° nano polished blades.

The linear motor ensures a smooth and powerful shave.

The LED display provides clear information on battery status and usage mode.

3. Setup

Unpacking and Initial Charge:

1. Carefully remove all components from the packaging. The package includes the shaver, automatic cleaning and charging station, charger, cleaning brush, oil, and travel case.
2. Place the automatic cleaning and charging station on a flat, stable surface near a power outlet.
3. Connect the charger to the cleaning station, then plug it into a power outlet.
4. Place the shaver into the cleaning station. Ensure it is correctly seated. The LED display on the shaver will indicate charging status.
5. Allow the shaver to charge fully before its first use. A full charge typically takes approximately 1 hour.

The complete set of components for the Panasonic ES-LV9U.

4. Operating Instructions

Shaving Techniques:

- **Dry Shaving:** For a quick and convenient shave, ensure your face is clean and dry. Turn on the shaver and gently move it against the direction of hair growth.
- **Wet Shaving:** For a smoother, more comfortable shave, apply shaving foam or gel to your face. Turn on the shaver and glide it over your skin. The shaver is fully waterproof for wet use.
- **Flexible Head:** The 20D flexible shaver head adapts to your facial contours. Apply light pressure and allow the head to follow the curves of your face for optimal contact.
- **Beard Sensor:** The integrated beard sensor automatically adjusts the motor speed to match your beard density, providing a consistent and gentle shave.
- **Pop-up Trimmer:** Slide the trimmer switch upwards to engage the pop-up trimmer. Use it for precise trimming of sideburns, mustaches, or for pre-shaving longer hairs.

The 20D flexible shaver head ensures efficient and gentle shaving by adapting to facial contours.

For best results, move the shaver gently against the direction of hair growth.

5. Maintenance

Regular cleaning and maintenance are crucial for optimal performance and longevity of your shaver.

Daily Cleaning:

- After each use, especially with foam or gel, rinse the shaver head thoroughly under running water.
- For a more thorough clean, you can remove the outer foil and rinse the inner blades.
- Shake off excess water and allow the shaver to air dry.

Automatic Cleaning and Charging Station:

- The automatic cleaning and charging station provides a hygienic and convenient way to clean and dry your shaver.
- Place the shaver in the station after use. The station will automatically initiate a cleaning cycle and then charge the shaver.
- Refer to the cleaning station's specific instructions for details on replacing the cleaning cartridge and maintaining the station itself.

Blade and Foil Replacement:

For continued optimal shaving performance, it is recommended to replace the outer foil and inner blades periodically. The replacement blade set for the ES-LV9U is model **WES9040** (sold separately).

- To replace the outer foil, gently press the release buttons on the sides of the shaver head and lift off the old foil. Snap the new foil into place.
- To replace the inner blades, carefully pull them out from the shaver head. Insert the new inner blades, ensuring they are correctly aligned.

The shaver is washable for easy maintenance and features an auto cleaning and charging system.

The automatic cleaning and charging station keeps your shaver hygienic and ready for use.

The WES9040 replacement blade set ensures continued optimal performance.

6. Troubleshooting

If you encounter any issues with your Panasonic ES-LV9U shaver, please refer to the following common troubleshooting tips:

- **Shaver not turning on:** Ensure the shaver is fully charged. If using the cleaning station, check that it is properly plugged in and the shaver is correctly seated.
- **Reduced shaving performance:** Clean the shaver head thoroughly. If performance does not improve, the outer foil and inner blades may need replacement (refer to Section 5).
- **Skin irritation:** Ensure you are using the correct shaving technique (light pressure, against hair growth). If wet shaving, try different shaving foams or gels. If irritation persists, consult a dermatologist.
- **Cleaning station not operating:** Check that the station is plugged in and the shaver is correctly placed. Ensure the cleaning cartridge has sufficient solution.

For more complex issues or if troubleshooting steps do not resolve the problem, please contact Panasonic customer support.

7. Specifications

Feature	Specification
Brand	Panasonic
Model Name	ES-LV9U
Model Number	ES-LV9U-K811
Recommended Uses	Beard, Face
Special Features	Wet & Dry Use
Power Source	Battery Powered (Rechargeable)
Battery Life	Up to 3 days of use per charge (actual usage may vary)
Product Weight	210 Grams
Color	Black
