1. IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Exercise caution around sharp edges during unpacking and assembly.
- Assemble the bed frame on a soft, clean surface to prevent scratches and damage.
- Ensure all connections are securely tightened before use to prevent instability. Periodically check and retighten fasteners.
- Due to the size and weight of the components, it is recommended to lift with care and have at least two people for assembly.
- Do not exceed the maximum weight capacity: Twin size supports up to 350 lbs; all other sizes (including Queen) support up to 700 lbs.

2. PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, do not proceed with assembly and contact ZINUS customer support.

- Headboard (Bamboo slats)
- Side Rails (Metal)
- Center Support Beam (Metal)
- Support Legs (Metal)
- Metal Slats
- Assembly Hardware (Bolts, Washers, Nuts)
- Assembly Tools (Allen wrench, Ratchet wrench)
- Instruction Manual (This document)

3. SETUP INSTRUCTIONS

Assembly is designed to be straightforward and typically takes less than one hour with two people. All necessary tools are included.

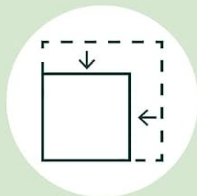

Image: Close-up of assembly tools, including a time-saving ratchet and numbered parts for quick assembly.

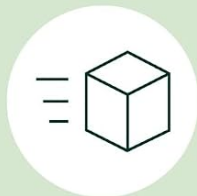

1. **Prepare the Area:** Clear a space large enough for assembly. Lay out all components and hardware on a soft, clean surface to prevent damage.
2. **Attach Headboard to Side Rails:** Connect the bamboo headboard to the designated metal side rails using the provided hardware. Ensure all bolts are finger-tightened initially.
3. **Assemble Footboard and Side Rails:** Connect the footboard (if separate, or the remaining side rail sections) to complete the rectangular frame.
4. **Install Center Support:** Secure the center support beam and any associated legs to the main frame.
5. **Place Metal Slats:** Lay the metal slats across the frame. Many ZINUS frames feature a hook-and-loop fastener system or snap-in design for easy slat installation. Ensure slats are evenly spaced and secured.

6. **Final Tightening:** Once all parts are in place and aligned, use the provided ratchet wrench to fully tighten all bolts. Do not overtighten.
7. **Position the Bed:** Carefully move the assembled bed frame to its desired location.
8. **Add Mattress:** Place your mattress directly onto the metal slat platform. A box spring is not required.

4. OPERATING INSTRUCTIONS

The ZINUS Figari Platform Bed Frame is designed for direct mattress support without the need for a box spring.

- **Mattress Placement:** Place your Queen-sized mattress directly onto the metal slats. The frame is compatible with various mattress types, including memory foam, spring, and hybrid.
- **Weight Capacity:** The Queen size frame is designed to support a maximum weight of 700 lbs (including mattress and occupants). Do not exceed this limit.
- **Under-Bed Storage:** The frame provides approximately 10.4 inches of clearance beneath the bed, suitable for storage

containers. Ensure items stored do not obstruct airflow or put undue pressure on the mattress foundation.

5. MAINTENANCE

Regular maintenance helps ensure the longevity and stability of your bed frame.

- **Cleaning:** Wipe the metal frame and bamboo headboard with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, which may damage the finish.
- **Fastener Check:** Periodically (e.g., every 3-6 months) inspect all bolts and connections. Retighten any loose fasteners to maintain structural integrity and prevent squeaking.
- **Slat Inspection:** Ensure all metal slats remain properly seated and undamaged.

6. TROUBLESHOOTING

Common issues and their solutions.

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose bolts or uneven assembly.	Ensure all bolts are fully tightened. Check that the frame is assembled squarely and on a level surface.
Squeaking noises.	Loose connections or friction between metal parts.	Retighten all bolts. Apply a small amount of lubricant (e.g., silicone spray) to points of friction if necessary. Ensure slats are properly seated.
Mattress slides on the frame.	Smooth mattress bottom or frame surface.	Some ZINUS frames include non-slip tape on slats. If not present or effective, place a non-slip mat between the mattress and slats.
Missing parts or damaged components.	Manufacturing defect or shipping damage.	Do not proceed with assembly. Contact ZINUS customer support immediately for replacement parts.

7. SPECIFICATIONS

Image: Diagram illustrating the dimensions of the ZINUS Figari Queen bed frame, including length, width, and headboard height.

Feature	Detail
Model Number	ZU-FBOBH1-39Q
Size	Queen
Product Dimensions (L x W x H)	80.5" x 59.7" x 39"
Item Weight	45.7 pounds
Material	Bamboo Headboard, Alloy Steel Frame

Feature	Detail
Color	Coffee Bean
Under-Bed Clearance	10.4 inches
Weight Capacity (Queen)	Up to 700 lbs
Assembly Required	Yes
Box Spring Needed	No

8. WARRANTY AND SUPPORT

The ZINUS Figari Bamboo and Metal Platform Bed Frame includes a **5-year manufacturer warranty**. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for warranty claims.

For warranty service, missing parts, or any questions regarding your product, please contact ZINUS customer support directly. Refer to the contact information provided with your product packaging or visit the official ZINUS website. You can also find additional support and product information on the [ZINUS Brand Store on Amazon](#).

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
