3. SETUP

3.1 Battery Installation

The Mountain Vehicle 4x4 requires 2 x 1.5V-R03 (AAA) batteries. These batteries are included with the product.

1. Locate the battery compartment on the underside of the vehicle.
2. Using a small screwdriver (not included), unscrew the battery compartment cover.
3. Insert the 2 x 1.5V-R03 (AAA) batteries, ensuring correct polarity (+/-).
4. Replace the battery compartment cover and secure it with the screw.

Note: Always use new batteries of the specified type. Do not mix old and new batteries or different types of batteries. Remove exhausted batteries promptly.

4. OPERATING INSTRUCTIONS

4.1 Placing the Fireman Sam Figure

The vehicle's doors can be opened to allow the Fireman Sam figure to sit behind the steering wheel.

1. Gently open the driver's side door of the 4x4 vehicle.
2. Position the Fireman Sam figure into the driver's seat.
3. Close the door securely.

4.2 Activating Lights

The SUV headlights can be activated for realistic play.

- Locate the button on the left side of the vehicle, next to the driver's door.
- Press this button to turn the headlights on. Press again to turn them off.

Image: The front of the yellow Mountain Vehicle 4x4 is shown with its headlights brightly illuminated, indicating the light function is active.

4.3 Using the Winch

The vehicle is equipped with a functional winch on the front bumper for rescue scenarios.

- Extend the winch cable by gently pulling the hook at the front of the vehicle.
- Attach the hook to another toy vehicle or object for simulated towing.
- To retract the winch cable, manually wind it back into the bumper.

5. MAINTENANCE

5.1 Cleaning

To clean the vehicle and accessories, wipe them with a soft, damp cloth. Do not immerse the vehicle in water, especially the electronic components.

5.2 Battery Care

If the toy will not be used for an extended period, remove the batteries to prevent leakage and damage.

6. TROUBLESHOOTING

6.1 Lights Not Working

- **Check Batteries:** Ensure batteries are correctly installed with the proper polarity.
- **Replace Batteries:** If the batteries are old or depleted, replace them with new 1.5V-R03 (AAA) batteries.
- **Button Function:** Ensure the light activation button is being pressed firmly.

6.2 Winch Not Operating Smoothly

- **Check for Tangles:** Ensure the winch cable is not tangled or obstructed.
- **Manual Operation:** The winch is designed for manual operation; ensure no excessive force is applied.
