Livpure LIV-BOLT-COPPER-UV

Livpure Bolt Copper UV+UF Water Purifier User Manual

Model: LIV-BOLT-COPPER-UV

1. INTRODUCTION

Thank you for choosing the Livpure Bolt Copper UV+UF Water Purifier. This appliance is designed to provide safe and clean drinking water for your home, utilizing advanced multi-stage purification technology. This manual provides essential information for the proper installation, operation, maintenance, and troubleshooting of your water purifier.

Key Features:

- **Multi-Stage Purification:** Incorporates Sediment Filter, Carbon Block Filter, UV Disinfection Column, Ultrafiltration, and Copper enrichment for comprehensive water treatment.
- **UV+UF Technology:** Effectively removes bacteria, viruses, and suspended impurities while retaining essential minerals.
- **Copper Infusion:** Enriches water with beneficial copper, known for its immune-boosting and health-promoting properties.
- **7 Liters Storage Capacity:** Ensures a continuous supply of purified water.
- **LED Indicators:** Provides operational status at a glance.
- **Spill-Proof Tap:** Designed for convenient and mess-free water dispensing.

2. IMPORTANT SAFETY INSTRUCTIONS

Please read all safety instructions carefully before installing or operating the water purifier. Failure to follow these instructions may result in injury or damage to the product.

- Ensure the power supply matches the specifications indicated on the product label.
- Do not operate the purifier with a damaged power cord or plug.
- Keep the appliance away from direct sunlight, heat sources, and flammable materials.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- This purifier is designed for municipal water sources only. **Do not use with borewell or tanker water.**
- Children should be supervised to ensure they do not play with the appliance.
- Only use genuine Livpure replacement parts and filters.

- Disconnect the power supply before performing any maintenance or cleaning.

3. PACKAGE CONTENTS

Upon unpacking, please ensure all the following items are present and undamaged:

- Livpure Bolt Copper UV+UF Water Purifier Unit
- Installation Kit (mounting screws, wall plugs, inlet pipe, outlet pipe)
- User Manual (this document)
- Warranty Card

4. SETUP AND INSTALLATION

The Livpure Bolt Copper UV+UF Water Purifier is designed for wall-mounted installation. It is recommended to have the installation performed by a qualified service technician to ensure proper setup and optimal performance.

Installation Steps:

1. **Site Selection:** Choose a clean, dry, and well-ventilated location near a municipal water supply and an electrical outlet. Ensure sufficient space around the unit for maintenance.
2. **Mounting:** Using the provided mounting template (if included) and hardware, securely mount the purifier on a sturdy wall.
3. **Water Connection:** Connect the inlet pipe from the municipal water supply to the purifier's inlet port. Ensure all connections are tight to prevent leaks.
4. **Drain Connection:** Connect the drain pipe to the purifier's drain outlet and route it to a suitable drainage point.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet.
6. **Initial Flush:** Before first use, open the water supply valve and allow the purifier to fill and flush for approximately 10-15 minutes. Dispense and discard the first few liters of purified water to remove any manufacturing residues.

5. OPERATING INSTRUCTIONS

Operating your Livpure Bolt Copper UV+UF Water Purifier is straightforward.

Basic Operation:

1. **Power On:** Ensure the purifier is plugged in and the main power switch (if present) is turned on. The LED indicators will illuminate, showing the operational status.
2. **Water Dispensing:** Place a clean container under the spill-proof tap. Turn the tap handle to dispense purified water. Close the tap after use.
3. **Automatic Filling:** The purifier will automatically refill its 7-liter storage tank as water is consumed.

LED Indicators:

The front panel features LED indicators to provide information about the purifier's status:

- **Power Indicator:** Illuminates when the unit is powered on.
- **Purification/Tank Full Indicator:** Shows when purification is in progress or when the storage tank is full.
- **Service/Filter Change Indicator:** Alerts you when maintenance is due or filters need replacement. Refer to the troubleshooting section for specific actions.

6. MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your water purifier. Always disconnect the power supply before performing any maintenance.

Filter Replacement:

The purification system relies on multiple filters that require periodic replacement. The frequency depends on water quality and usage, but generally:

- **Sediment Filter & Carbon Block Filter:** Typically every 6-12 months.
- **UV Lamp & UF Membrane:** Typically every 12 months or as indicated by the service light.
- **Copper Filter:** Typically every 12 months.

It is highly recommended to contact authorized Livpure service personnel for filter replacement to ensure proper installation and use of genuine parts.

Cleaning:

- **Exterior:** Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage Tank:** The internal storage tank should be cleaned periodically by a service technician during routine maintenance.

7. TROUBLESHOOTING

If you encounter any issues with your water purifier, refer to the table below for common problems and their solutions. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
No water dispensing	No power supply Water supply valve closed Storage tank empty Blocked filters	Check power connection and switch Open the water supply valve Wait for the tank to fill Contact service for filter inspection/replacement
Slow water flow	Low water pressure Clogged filters	Check household water pressure Contact service for filter inspection/replacement
Water leakage	Loose connections Damaged components	Immediately turn off water supply and power. Tighten connections. If leakage persists, contact service.
Bad taste or odor in water	Expired carbon filter Contaminated storage tank	Contact service for carbon filter replacement and tank cleaning.
Service/Filter Change LED is on	Filters due for replacement UV lamp malfunction	Contact authorized service for filter replacement or UV lamp inspection.

8. SPECIFICATIONS

Detailed technical specifications for the Livpure Bolt Copper UV+UF Water Purifier.

Feature	Detail
Brand	Livpure
Model Name	LIV-BOLT-COPPER-UV
Purification Method	UV + UF + Copper + Activated Carbon + Sediment
Storage Capacity	7 Liters
Installation Type	Wall-Mounted
Product Dimensions (L x W x H)	29.5L x 27.5W x 50.5H Centimeters
Item Weight	7.4 Kilograms
Material	Plastic
Power Source Type	Corded Electric
Supported Water TDS Level Maximum	2000 PPM
Upper Temperature Rating	10 Degrees Celsius
Special Features	Multi Stage Purification, Spill Proof Tap, LED Indicator
