

Zephyr ZVE-E30DS

Zephyr ZVE-E30D Venezia Wall Mounted Range Hood User Manual

Model: ZVE-E30DS | Brand: Zephyr

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, installation, and maintenance of your Zephyr Venezia Wall Mounted Range Hood. Please read this manual thoroughly before installation and use, and retain it for future reference.

The Zephyr Venezia range hood features a classic modern design with a pyramid shape, constructed from stainless steel. It incorporates baffle filters, a powerful blower, and LumiLight LED lighting to enhance your kitchen environment.

2. SAFETY INFORMATION

Always follow basic safety precautions when using this appliance to reduce the risk of fire, electric shock, or injury to persons.

- **Installation:** Installation must be performed by a qualified technician in accordance with all local codes and standards.
- **Electrical Safety:** Ensure the electrical supply matches the requirements specified on the rating label. Disconnect power before servicing.
- **Ventilation:** Proper ventilation is crucial. Do not exhaust air into walls, ceilings, attics, crawl spaces, or garages.
- **Cleaning:** Clean grease filters regularly to prevent grease fires. Never operate the hood without filters in place.
- **Flammable Materials:** Do not use the hood to exhaust flammable or explosive materials.

3. SETUP & INSTALLATION

The Zephyr Venezia range hood is designed for wall-mounted installation. Due to the complexity and safety requirements, professional installation is highly recommended.

3.1 Ducting Options

This range hood supports both ducted and ductless (recirculating) installations. An optional ductless recirculating kit is available for situations where external venting is not possible. This kit utilizes charcoal filters to purify air before reintroducing it into the kitchen.

3.2 Airflow Control Technology (ACT)

The Airflow Control Technology (ACT) allows installers to set maximum CFM levels to comply with local building codes. Consult your installer for details on setting the appropriate CFM for your region.

3.3 Extension Duct Cover

An extension duct cover kit is available to accommodate ceiling heights up to 12 feet. Refer to the specific product sheets for detailed information on this accessory.

4. OPERATING INSTRUCTIONS

Your Venezia range hood features intuitive controls for fan speed, lighting, and special functions.

4.1 Controls

The hood is equipped with a soft-touch display for easy operation. An optional wireless remote control is also available for convenient operation from anywhere in the kitchen.

Figure 3: Control panel of the range hood.

4.2 Fan Speeds

The blower offers multiple speed settings, ranging from 200 CFM to 700 CFM, to effectively remove cooking fumes and odors. Adjust the fan speed based on your cooking needs.

4.3 LumiLight LED Lighting

The hood features two multi-level dimmable LumiLight LED lights. These eco-friendly lights provide uniform illumination of the cooking area, remain cool to the touch, and have a long lifespan of over 25,000 hours.

4.4 CleanAir Function

The CleanAir Function automatically activates the hood every four hours for 10 minutes to refresh the cooking area, ensuring a consistently clean air environment.

4.5 Zephyr Connect App

The range hood is compatible with the Zephyr Connect App, allowing for smart control and monitoring of your appliance.

5. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your range hood.

5.1 Baffle Filters

The Venezia range hood is equipped with baffle filters. These filters are designed to capture grease and are easily removable and dishwasher-safe for convenient cleaning. Regular cleaning prevents grease buildup and maintains efficient air extraction.

Figure 4: Baffle filters and LumiLight LED lighting.

5.2 Exterior Cleaning

Clean the stainless steel exterior with a soft cloth and a non-abrasive stainless steel cleaner. Avoid harsh chemicals or abrasive pads that could scratch the surface.

6. TROUBLESHOOTING

If you encounter issues with your range hood, review the following general troubleshooting steps. For persistent problems, contact customer support.

- **No Power:** Check the circuit breaker and ensure the hood is properly plugged in.
- **Poor Suction:** Verify that the filters are clean and properly installed. Ensure no obstructions are present in the ductwork.
- **Excessive Noise:** Check for loose parts or obstructions in the fan blades. Ensure the hood is securely mounted.
- **Lights Not Working:** Check the light settings on the control panel. If individual lights are out, they may need replacement.

7. SPECIFICATIONS

Specification	Value
Brand	Zephyr
Model Info	ZVE-E30DS

Specification	Value
Product Dimensions	24"D x 29.9"W x 44"H (60.96 cm D x 75.95 cm W x 111.76 cm H)
Item Weight	50.9 pounds (23.09 kg)
Material	Stainless Steel
Color	Stainless Steel
Mounting Type	Wall Mount
Air Flow Capacity (CFM)	200, 290, 700
Number of Speeds	6
Light Source Type	LED (LumiLight)
Controls Type	Remote (Optional), Soft-touch display
Filter Type	Baffle
Special Features	Ductless Recirculating (Optional Kit), Zephyr Connect App, CleanAir Function, ADA Compliant (with optional remote)
Voltage	120 Volts
Wattage	600 watts
UPC	646328008474
