6. MAINTENANCE

To ensure the longevity and hygienic operation of your device, regular maintenance is recommended:

- **Cleaning:** After each use, wipe the suction cup and the device's surface with a soft, damp cloth. Do not immerse the device in water or use abrasive cleaners.
- **Filter Cottons:** Replace the filter cottons as needed to maintain optimal suction performance and hygiene.
- **Charging Port:** Keep the charging port free of dust and debris to ensure proper charging.
- **Storage:** Store the device in a cool, dry place, away from direct sunlight and extreme temperatures. Use the provided storage bag for protection.

7. TROUBLESHOOTING

If you encounter any issues with your device, please refer to the following common solutions:

- **Device not turning on:** Ensure the device is fully charged. Press and hold the power button for 1.5 seconds.
- **Weak suction:** Check if the suction cup is clean and free of debris. Ensure the device is placed firmly on the skin. Verify that the filter cottons are clean and properly installed.
- **No heat:** Ensure the device is powered on and the temperature control setting is active.
- **Device shuts off unexpectedly:** The device has a smart shutdown feature after 15 minutes of continuous use. If it shuts off before this, ensure it is fully charged.

If the problem persists after attempting these solutions, please contact customer support.
