Baseus 65W Power Bank User Manual

Model: PPJL65C

Brand: Baseus

INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Baseus 65W Power Bank. Please read thoroughly before use to ensure proper functionality and to prevent damage or injury.

PRODUCT OVERVIEW

The Baseus 65W Power Bank is a high-capacity portable charger designed for various devices, including laptops, tablets, and smartphones. It features a built-in USB-C cable, multiple output ports, and a digital display for convenience.

Front view of the Baseus 65W Power Bank, showcasing its sleek black design, digital display, and integrated orange USB-C cable.

65W Fixed USB C Cable

65W PD Fast Charging Both Input and Output

Detail of the integrated 17.5cm USB-C cable, highlighting its 65W PD fast charging capability for both input and output.

Digital Display

A large display shows the battery level

The large digital display provides real-time battery level information, ensuring you are always aware of the remaining power.

KEY FEATURES

- **Two-way 65W PD Cable:** Integrated USB-C cable supports 65W input and 65W output, allowing for rapid charging of both the power bank and connected devices. Fully charges the power bank in approximately 1.3 hours with a 65W wall charger (not included).
- **Fast Charging for Laptops:** Compatible with mainstream fast-charging protocols (PD3.0, QC3.0, QC4+, AFC, FCP). Capable of charging a MacBook Pro 13" from 0% to 40% in 30 minutes, and a Samsung S22 Ultra from 0% to 64% in 30 minutes.
- **4 Outputs and 2 Inputs:** Equipped with dual USB-C outputs, two USB-A outputs, and two inputs (USB-C and Lightning). Allows simultaneous charging of up to four devices.
- **20000mAh Large Capacity:** Provides significant power, capable of charging an iPhone 14 approximately 3.6 times or a MacBook Pro 14" approximately 1.0 times. Air-travel compatible.

- **Intelligent Current Distribution:** Automatically adjusts current distribution for optimal charging of multiple devices simultaneously. (Note: Charging multiple devices may slow down individual charging speeds).

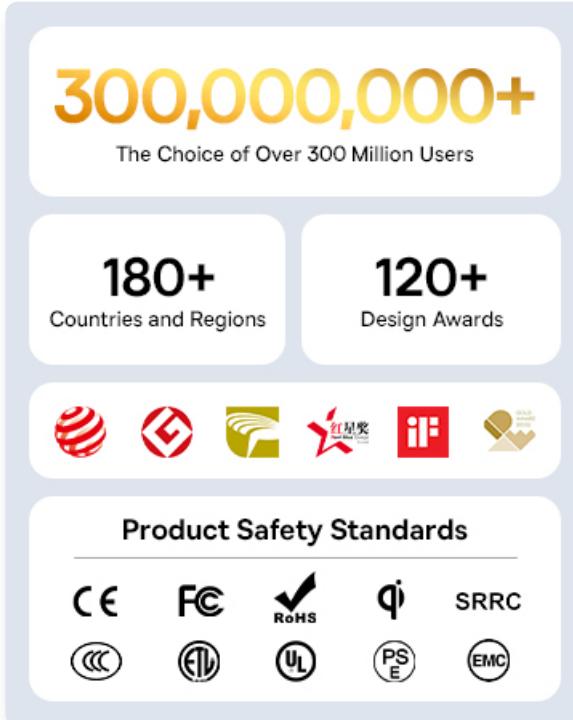

SETUP

1. **Unboxing:** Carefully remove the power bank and all accessories from the packaging.
2. **Initial Charge:** Before first use, fully charge the power bank using a compatible 65W PD wall charger (not included) via the integrated USB-C cable or the dedicated USB-C input port. The digital display will show the charging progress.

OPERATING INSTRUCTIONS

Charging the Power Bank

Connect the integrated USB-C cable or a separate USB-C cable to the power bank's USB-C input port and to a compatible wall charger. The digital display will indicate the charging percentage.

The power bank can be fully recharged in approximately 1 hour and 18 minutes using a PD 65W or higher wall charger.

Charging Your Devices

The power bank offers multiple output options:

- **Integrated USB-C Cable:** Connect the built-in USB-C cable directly to your compatible device (e.g., laptop, tablet, smartphone).

- **USB-C Output Ports:** Use your own USB-C to USB-C cable to connect devices to the power bank's USB-C output ports.
- **USB-A Output Ports:** Use your own USB-A cable to connect devices to the power bank's USB-A output ports.

The digital display will show the current battery level.

Demonstration of the power bank's ability to intelligently distribute power when charging multiple devices, such as a laptop, tablet, and smartphone.

The power bank provides 65W PD fast charging, capable of significantly charging a MacBook Pro 13" in 30 minutes.

MAINTENANCE

- Keep the power bank away from extreme temperatures, direct sunlight, and liquids.
- Do not disassemble or attempt to repair the device.

- Store in a cool, dry place when not in use.
- Clean the surface with a soft, dry cloth. Avoid abrasive cleaners.

TROUBLESHOOTING

Device Not Charging / Power Bank Not Charging

- Ensure all cables are securely connected to both the power bank and the device/wall charger.
- Verify that the wall charger used for the power bank is compatible and provides sufficient wattage (e.g., 65W PD for optimal speed).
- Check the digital display for battery level. If the power bank is depleted, recharge it.
- Try using different cables or ports to rule out faulty connections.

Slow Charging

- Ensure your device supports fast charging protocols compatible with the power bank.
- Charging multiple devices simultaneously may reduce the charging speed for individual devices.
- Use high-quality, compatible charging cables.

SPECIFICATIONS

Property	Value
Product Dimensions	7.72 x 1.61 x 2.83 inches
Item Weight	1.01 pounds
Item Model Number	PPJL65C
Batteries	1 Lithium Polymer batteries required.
Manufacturer	Baseus
Connector Type	USB Type C
Brand	Baseus
Battery Capacity	20000mAh
Color	black

Special Features

Built In Cable, Digital Display, Fast Charging, Lightweight, Over Charging Protection

SAFETY INFORMATION

- Do not expose the power bank to fire or water.
- Avoid dropping or subjecting the device to strong impacts.
- Keep out of reach of children.
- Discontinue use if the power bank becomes excessively hot, emits smoke, or shows signs of damage.
- Dispose of the product responsibly according to local regulations.
