## GrowDaily EDP-02

# GrowDaily Electric Kids Drum Set User Manual

Model: EDP-02

Brand: GrowDaily

## INTRODUCTION

Welcome to the GrowDaily Electric Kids Drum Set. This electronic drum set is designed for both beginners and experienced players, offering a realistic drumming experience in a compact and portable form. Featuring 9 sensitive pads, dual stereo speakers, MIDI connectivity, and vibrant light-up drumsticks, it provides a comprehensive and engaging musical journey. This manual will guide you through the setup, operation, and maintenance of your new drum set.

## WHAT'S IN THE BOX

---

Upon opening your GrowDaily Electric Kids Drum Set package, please ensure all the following components are present:

- Electronic Drum Pad Unit (with integrated control panel and speakers)
- Adjustable Drum Stand
- Light-Up Drumsticks (15 color-changing)
- Standard Wooden Drumsticks
- Drum Pedals (for kick drum and hi-hat)
- USB-C Cable (for power and MIDI connection)
- Power Adapter
- User Manual (this document)

## SETUP

---

Follow these steps to assemble your GrowDaily Electric Kids Drum Set:

1. Unpack all components from the box.
2. Assemble the drum stand by connecting the base (1) to the main vertical pole (2).
3. Locate the small bolt on the part that connects the drum pad to the stand (3). Remove this bolt.
4. Thread the top section of the stand (4) through the hole of the top tube (5) of the drum pad platform. Secure it with the bolt removed in step 3.
5. Attach the assembled drum pad platform (5) to the top of the main vertical pole (6) of the stand.
6. Place the electronic drum pad unit (8) onto the platform (7).
7. Connect the foot pedals to the designated ports on the drum unit.
8. Connect the USB-C power cable to the drum unit and a power source.

## Plug in headphones and enjoy your personal drum sound

For detailed visual instructions, you may also refer to the official Installation Manual (PDF) available online or the product's demo video.

## OPERATING INSTRUCTIONS

---

### Basic Operation

The GrowDaily Electric Drum Set features a 9-pad layout, including 3 toms (high drum, low tom, floor tom), 2 crash cymbals, 1 hi-hat, 1 ride cymbal, 1 snare, and 1 bass drum.

- **Power On/Off:** Press and hold the power button on the control unit to turn the device on or off.
- **Playing Drums:** Use the included drumsticks to strike the pads. The control unit will produce the corresponding drum sounds through its built-in dual stereo speakers.
- **Foot Pedals:** Connect the two foot pedals for the kick drum and hi-hat functions.
- **Demo Songs:** The drum set comes with 10 pre-loaded DEMO songs. Use the control panel buttons to browse and play these songs.

- **Tones and Rhythms:** Explore 5 different tones and 10 rhythms to customize your playing experience. Refer to the control panel for specific button functions.

## Connectivity

- **Headphone Output:** For private practice, plug your headphones into the dedicated headphone jack. This allows you to play without disturbing others.

- **AUX Input:** Connect external audio devices (MP3 players, cell phones) via the AUX interface to play along with your favorite music.
- **MIDI Connectivity:** The drum set supports MIDI protocol. Connect to a computer via the USB-C cable or an OTG conversion cable to play various electronic drum games through mobile applications or use it as a MIDI controller.

## MAINTENANCE

To ensure the longevity and optimal performance of your GrowDaily Electric Kids Drum Set, follow these maintenance guidelines:

- **Cleaning:** Wipe the drum pads and control unit with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, but ensure no moisture enters the electronic components. Avoid abrasive cleaners or solvents.
- **Storage:** When not in use, roll up the drum pad and store it in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the stand is collapsed and stored safely.
- **Battery Care:** For optimal battery life, avoid fully discharging the battery frequently. Charge the unit regularly, even if not in constant use. If storing for an extended period, charge the battery to about 50% capacity.
- **Cable Management:** Avoid sharp bends or kinks in the cables. Store them neatly to prevent damage.

## TROUBLESHOOTING

If you encounter any issues with your drum set, please refer to the following common troubleshooting tips:

| Problem                | Possible Cause / Solution                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| No Sound from Speakers | Ensure the unit is powered on and charged.<br>Check the volume level on the control unit.<br>If headphones are plugged in, unplug them to enable speaker output. |

| Problem                                             | Possible Cause / Solution                                                                                                                                                                                                   |
|-----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Pads Not Responding                                 | Verify the unit is powered on.<br>Ensure the drum pad is properly connected to the control unit (if detachable).<br>Check for any physical damage to the pads.                                                              |
| Light-Up Drumsticks Not Lighting Up                 | Ensure the drumsticks are charged. They may have a separate charging port.<br>Check if there's an on/off switch on the drumsticks themselves.                                                                               |
| Difficulty Assembling Stand (e.g., "missing piece") | Some components, like the top pole for the stand, might be nested inside other parts for shipping. Carefully check all larger tubes and packaging.<br>Refer to the detailed setup instructions and diagrams in this manual. |
| Foot Pedals Slide During Use                        | Ensure the pedals are placed on a non-slip surface.<br>Consider placing them against a wall or using a small mat to prevent movement.                                                                                       |
