

DaVinci M12801CT

DaVinci Charlie 4-in-1 Convertible Baby Crib Instruction Manual

MODEL: M12801CT | COLOR: CHESTNUT

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your DaVinci Charlie 4-in-1 Convertible Baby Crib. Designed to grow with your child, this versatile crib transitions seamlessly from a baby crib to a toddler bed, daybed, and full-size bed.

1. INTRODUCTION

The DaVinci Charlie 4-in-1 Convertible Baby Crib offers a perfect blend of versatility, safety, and style for your nursery. Crafted from sustainably sourced solid New Zealand pine wood, this crib is built for durability and features a non-toxic finish, ensuring a safe and healthy environment for your child. Its innovative design allows it to adapt to your child's changing needs from infancy through their toddler years and beyond.

This crib is GREENGUARD Gold Certified, meaning it has undergone rigorous testing for over 10,000 chemical emissions, contributing to a healthier indoor air quality. The hidden hardware design provides a clean, polished look without visible screws or bolts on the exterior.

2. PRODUCT FEATURES

- **4-in-1 Convertibility:** Seamlessly transitions from a baby crib to a toddler bed, daybed, and full-size bed. Conversion kits (Toddler kit No. M12599, Full-size conversion kit No. M5789, and full-size bunkie board No. M26058B) are sold separately.
- **GREENGUARD Gold Certified:** Tested for over 10,000 chemical emissions (VOCs) to ensure a healthier indoor environment.
- **Adjustable Mattress Heights:** Features four adjustable mattress positions to accommodate your growing baby, making it easier to reach newborns and adjust as they age.
- **Durable Construction:** Built from 100% sustainably sourced New Zealand pine wood, ensuring strength and longevity.
- **Hidden Hardware:** Provides a clean, polished aesthetic with no visible screws or bolts on the exterior.

3. SETUP AND ASSEMBLY

Assembly is required for the DaVinci Charlie Crib. It is recommended to have two people for assembly to ensure stability and ease of construction. All necessary hardware and an assembly instruction manual are included with your purchase. A power drill may be helpful for quicker assembly, but is not strictly required.

3.1 Initial Crib Assembly

1. Unpack all components and verify against the parts list in the included instruction manual.
2. Assemble the crib frame according to the step-by-step instructions provided. Ensure all fasteners are securely tightened to prevent wobbles or creaks.
3. Install the mattress support at the desired height. Refer to Section 4.1 for guidance on mattress height adjustments.

3.2 Conversion to Toddler Bed, Daybed, or Full-Size Bed

To convert the crib into a toddler bed, daybed, or full-size bed, specific conversion kits must be purchased separately.

Follow the instructions included with each conversion kit for proper and safe transformation.

- Toddler Bed Conversion Kit: No. M12599
- Full-Size Bed Conversion Kit: No. M5789
- Full-Size Bunkie Board: No. M26058B (required for full-size bed conversion)

4. OPERATING INSTRUCTIONS

4.1 Adjusting Mattress Height

The DaVinci Charlie Crib features four adjustable mattress height positions to ensure safety and convenience as your baby grows. Always select the appropriate height based on your child's developmental stage:

- **Highest Position:** Ideal for newborns and infants who cannot yet push up on their hands and knees. This position allows for easy access to your baby.
- **Mid-High Position:** Use when your baby begins to roll over.
- **Mid-Low Position:** Adjust to this height when your baby can sit up unassisted.
- **Lowest Position:** Essential when your baby begins to stand. This prevents them from climbing out of the crib.

To adjust the mattress height, carefully remove the mattress and mattress support. Re-position the mattress support to the desired height using the designated holes and secure it with the provided hardware. Ensure all connections are tight before placing the mattress back into the crib.

5. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and safety of your DaVinci Charlie Crib. Regularly inspect all parts and follow these care instructions:

- **Cleaning:** Wipe the crib surfaces with a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish or pose a risk to your child.
- **Inspections:** Periodically check all screws, bolts, and fasteners to ensure they are tight and secure. Loose hardware can compromise the crib's stability and safety.
- **Storage:** If disassembling for storage, keep all hardware in a secure bag and store components in a dry, temperate environment to prevent warping or damage.

6. TROUBLESHOOTING

If you encounter any issues with your DaVinci Charlie Crib, consider the following common solutions:

- **Crib Feels Wobbly:** This is often due to loose fasteners. Re-tighten all screws and bolts, ensuring they are snug but not overtightened to avoid stripping or damaging the wood.
- **Difficulty Adjusting Mattress Height:** Ensure the mattress support is properly aligned with the designated holes on all four corners. Do not force the support into place.
- **Missing or Damaged Parts:** If any parts are missing or damaged upon arrival, do not attempt to assemble the crib. Contact customer support immediately for replacement parts.
- **Paint Chipping:** While the crib is finished with a non-toxic painting process, minor paint chips can occur with use. Monitor any chipping to ensure it does not pose a hazard.

7. SPECIFICATIONS

Attribute	Detail
Brand	DaVinci
Model Number	M12801CT
Color	Chestnut
Material	New Zealand Pine Wood and TSCA compliant MDF
