Sonew Stainless Steel Hair Dryer Holder Instruction Manual

Model: B0B2R87ND5

Brand: Sonew

1. INTRODUCTION

This manual provides essential information for the proper use and care of your Sonew Stainless Steel Hair Dryer Holder. Designed for both home and professional salon environments, this holder offers a practical and durable solution for organizing hair care tools. Please read these instructions carefully before use to ensure optimal performance and longevity of your product.

2. PRODUCT FEATURES

- **Blower Holder:** This stainless steel storage rack securely holds hair dryers, promoting ventilation and dryness. It is compatible with various furniture types.
- **Practical Use:** The rustproof hairdryer holder is suitable for home use, beauty salons, bathrooms, or hairdressing carts, meeting diverse organizational needs.
- **Better Design:** With a height of 9cm, an inner diameter of 5cm, and an outer diameter of 6cm, it is designed to fit most standard furniture cutouts.
- **Good Material:** Constructed from stainless steel, the blow dry rack is resistant to deformation, damage, and wear, ensuring long-term durability.
- **Easy Installation:** No complex installation is required. Simply embed it into a suitable container or surface cutout. It can also hold other items as needed.

Suitable for home use and also suitable for use in the salon
Stainless steel material, not easy to deform and very durable
No installation required, can be used by embedding in container

4. SETUP (INSTALLATION)

The Sonew Stainless Steel Hair Dryer Holder is designed for simple, tool-free installation. It is intended to be embedded into a pre-drilled hole in a suitable surface, such as a salon cart, vanity, or countertop.

Installation Steps:

1. **Prepare the Surface:** Ensure you have a clean, stable surface with a pre-drilled circular opening that matches the outer diameter of the holder (approximately 6.5cm / 2.56in).
2. **Insert the Holder:** Gently place the hair dryer holder into the prepared opening. The flared rim at the top should rest flush with the surface.
3. **Secure (Optional):** The holder is designed to fit snugly. If additional stability is desired, you may use a small amount of adhesive suitable for your surface material around the rim (not included).

5. OPERATING INSTRUCTIONS (USAGE)

Once installed, the hair dryer holder is ready for immediate use. Its design allows for convenient storage of various hair care tools.

How to Use:

1. **Place Hair Dryer:** Insert the nozzle or handle of your hair dryer into the holder. The open-ended design accommodates various lengths and styles.
2. **Store Other Tools:** The holder can also be used to store other hair care tools such as curling irons, straighteners, brushes, or combs, depending on their size and shape.
3. **Ensure Ventilation:** The design promotes air circulation, helping to keep tools dry and cool after use.

6. MAINTENANCE

To maintain the appearance and functionality of your stainless steel hair dryer holder, follow these simple cleaning guidelines:

- **Regular Cleaning:** Wipe the holder regularly with a soft, damp cloth to remove dust and residue.
- **Stubborn Stains:** For more stubborn stains, use a mild soap solution and a soft cloth. Avoid abrasive cleaners or scouring pads, which can scratch the stainless steel surface.
- **Drying:** After cleaning, dry the holder thoroughly with a clean, dry cloth to prevent water spots and maintain its shine.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals, bleach, or acidic cleaners, as these can damage the stainless steel finish.

7. TROUBLESHOOTING

This is a simple, non-mechanical product, so troubleshooting is minimal. However, if you encounter any issues, consider the following:

- **Holder Does Not Fit:** Ensure the pre-drilled hole in your surface matches the outer diameter of the holder (approx. 6.5cm / 2.56in). If the hole is too small, it may need to be enlarged. If too large, the holder may be unstable and require a different size or additional securing methods.
- **Tools Fall Out:** Verify that the tools you are storing have a diameter smaller than the inner diameter of the holder (approx. 4.7cm / 1.85in) but large enough to be securely held without falling through.
- **Rust or Discoloration:** While made of rustproof stainless steel, prolonged exposure to harsh chemicals or abrasive cleaning can affect the finish. Refer to the Maintenance section for proper cleaning.
