Scrub Daddy SDDAML

Scrub Daddy Damp Duster Instruction Manual

Model: SDDAML | Brand: Scrub Daddy

1. PRODUCT OVERVIEW

The Scrub Daddy Damp Duster is an innovative cleaning sponge designed to efficiently capture and hold dust, pollen, pet hair, and other debris from various surfaces. Its unique rippled design ensures effective dust collection without scattering particles into the air. This reusable tool is an eco-friendly alternative to traditional dusting methods, requiring only water for activation and cleaning.

2. SETUP

The Damp Duster comes pre-moistened and is ready for its first use directly out of the packaging. For subsequent uses, follow these simple steps:

1. **Unpack:** Carefully remove the Damp Duster from its packaging.
2. **Moisten:** Before each use, run the duster under warm water to soften the foam. Ensure it is thoroughly damp but not dripping wet.
3. **Wring:** Gently squeeze out any excess water until the sponge is soft and pliable.

Simply moisten before each use to soften the foam

3. OPERATING INSTRUCTIONS

The Damp Duster's rippled surface is designed to trap dust effectively. Use it on various surfaces throughout your home.

- **General Dusting:** Gently wipe the damp duster across dusty surfaces. The ripples will collect and hold the dust.
- **Versatile Use:** Ideal for blinds (wooden and Venetian), vents, radiators, skirting boards, railings, mirrors, and other flat or textured surfaces.
- **Pet Hair:** The damp surface is particularly effective at picking up pet hair.
- **Corners and Tight Spaces:** The flexible material allows the duster to conform to corners and tight spaces, ensuring thorough cleaning.

**The Damp Duster
collects & traps dust in
one quick wipe!**

Video 3.2: This video highlights the Damp Duster's effectiveness in picking up pet hair.

4. MAINTENANCE

Maintaining your Damp Duster is simple and ensures its longevity and effectiveness.

1. **Rinse After Use:** After dusting, rinse the sponge thoroughly under running water. The trapped dust and debris will easily wash away.
2. **No Chemicals Needed:** The Damp Duster is designed to work effectively with water alone. Avoid using harsh chemicals, as they may damage the sponge material.
3. **Air Dry:** After rinsing, gently squeeze out excess water and allow the duster to air dry completely before storing.
4. **Storage:** Store in a cool, dry place.

Video 4.1: This video demonstrates how easily the Damp Duster can be rinsed clean after use.

5. TROUBLESHOOTING

- **Duster feels stiff:** If the duster has dried out and feels stiff, simply re-moisten it under warm water until it becomes soft and pliable again.
- **Dust not picking up effectively:** Ensure the duster is adequately damp. If it's too dry, it may not trap dust as efficiently. If it's too wet, it might leave streaks. Adjust moisture level as needed.
- **Duster appears discolored:** Over time, the duster may show signs of discoloration from trapped dirt. This does not affect its performance. Rinse thoroughly after each use to minimize discoloration.

6. SPECIFICATIONS

Feature	Detail
Brand	Scrub Daddy
Model Number	SDDAMLP
Material	Polyurethane (PU)
Color	Light Pink
Product Dimensions	1.57"L x 2.36"W x 5.91"Th
Item Weight	40 Grams (1.41 ounces)
Special Feature	Washable, Reusable
Recommended Uses	Blinds, Vents, Radiators, Skirting Boards, Mirrors, Cobwebs
UPC	810044131420
