Anda Seat AD12YDC-L-01-B-CF

Anda Seat Kaiser 3 Large Gaming Chair

Instruction Manual - Model: AD12YDC-L-01-B-CF

Brand: Anda Seat

Introduction

The Anda Seat Kaiser 3 Large Gaming Chair is engineered for adults and professional gamers, providing an ergonomic and comfortable seating experience. Designed with high-quality materials and advanced features, this chair supports long hours of work and play without fatigue. This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your new gaming chair.

Key Features

- **Ergonomic Design:** The Kaiser 3 is designed to support optimum ergonomics, allowing for fatigue-free sitting during extended periods.
- **Magnetic Neck Pillow:** Features a magnetic clip-on molded 4lb/ft³ memory foam neck pillow with a cooling pad for maximum comfort and to alleviate 'sagging' over time.
- **Adaptive Lumbar Support:** Built-in 4-way adjustable adaptive lumbar support system (in & out, up & down) provides precise firmness for your back.

- **4D Magnetic Armrests:** Full-metal mechanism armrests with 4D movement for optimal comfort and wrist pressure relief. The armrest tops are magnetic and interchangeable.
- **Wide Seat & Recline:** A spacious seat with flatter wings ensures comfort without constraints. The chair reclines from 90° to 160° with a rocking motion.
- **Premium Fabric:** Constructed with Eversolft Linen Fabric, providing a soft, comfortable, and breathable sitting experience.
- **Heavy-Duty Construction:** Features a precision steel framework and an aluminum 5-point base for stability and strength, supported by 65mm silent and smooth movement wheels.

Setup and Assembly

The Anda Seat Kaiser 3 chair features MagClapAD+ technology, designed for an effortless assembly system that minimizes the need for screws. The chair comes with a well-written, picture-based instruction manual to guide you through the setup process step-by-step.

Follow the included pictorial instructions carefully to ensure correct and secure assembly. Most components are designed to snap or slide into place, significantly simplifying the process.

Operating Instructions

Your Anda Seat Kaiser 3 chair offers multiple adjustment options to customize your seating experience:

- **Recline Function:** Use the recline lever, typically located on the side of the seat, to adjust the backrest angle from 90° (upright) to 160° (nearly flat). The chair also supports a rocking motion.
- **Lumbar Support Adjustment:** The built-in adaptive lumbar support can be adjusted in four ways:*in and out* to control firmness, and *up and down* to position it correctly for your spine. Locate the adjustment knobs or levers on the side or back of the chair.
- **Armrest Adjustment:** The 4D armrests can be adjusted in height, forward/backward, left/right, and rotated inwards/outwards to find your optimal arm and wrist support position.
- **Magnetic Neck Pillow:** The neck pillow attaches magnetically and can be easily slid up or down to align with your neck and head for personalized support.
- **Seat Height Adjustment:** Use the lever under the seat to raise or lower the chair to your desired height, ensuring your feet are flat on the floor or a footrest.

Image: Visual demonstration of the chair's recline range from 90 to 165 degrees, highlighting its full adjustability for maximum comfort.

Maintenance

To ensure the longevity and appearance of your Anda Seat Kaiser 3 gaming chair, follow these simple maintenance guidelines:

- **Cleaning:** The fabric material of the chair can be cleaned by wiping it with a damp cloth. For tougher stains, use a mild fabric cleaner and follow the product instructions, testing on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they are secure. Tighten any loose fasteners to maintain stability and safety.
- **Wheel Care:** Keep the wheels clean from dust, hair, and debris to ensure smooth movement. While the 65mm wheels

are designed for smooth movement, they may not perform optimally on thick carpets. Consider specialized carpet casters if primarily using on carpeted surfaces.

- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your chair away from direct sunlight when possible.

Troubleshooting

This section addresses common issues you might encounter with your Anda Seat Kaiser 3 gaming chair.

- **Issue: Lumbar Support Discomfort.**
  Description: Some users may find the built-in lumbar support feels too firm or causes discomfort.
  Solution: Utilize the 4-way adjustable lumbar support system to fine-tune its position and firmness. Adjust it both in/out and up/down to find the setting that best contours to your lower back. If discomfort persists, consider using a thin, external lumbar pillow in conjunction with the chair's built-in support to achieve personalized comfort.
- **Issue: Chair does not roll smoothly on carpet.**
  Description: The chair's wheels may not glide easily on carpeted surfaces.
  Solution: The standard 65mm wheels are optimized for hard floors. For improved mobility on carpet, consider replacing the standard casters with specialized carpet-friendly wheels, which are typically larger or designed with different materials to reduce friction on soft surfaces.
- **Issue: Chair feels wobbly or unstable.**
  Description: The chair might feel loose or unstable during use.
  Solution: This is often due to loose connections. Re-check all assembly points, especially the bolts connecting the backrest to the seat, and the base to the gas lift. Ensure all fasteners are tightened securely.
- **Issue: Armrests are not adjusting properly.**
  Description: The 4D armrests may stick or not move through their full range of motion.
  Solution: Check for any obstructions or debris in the armrest mechanisms. Apply a small amount of silicone-based lubricant to the moving parts if necessary. Ensure the adjustment buttons or levers are fully engaged when attempting to move the armrests.

Specifications

Feature	Specification
Brand	Anda Seat
Model Number	AD12YDC-L-01-B-CF
Color	Black Fabric
Product Dimensions (D x W x H)	20.86" x 20.47" x 54.9"
Size	Large

Maximum Weight Recommendation	260 lbs (Recommended), 400 lbs (Maximum)
