SETUP INSTRUCTIONS

1. **Connect Power:** Plug the provided power adapter into the DC input port on the back of the alarm clock. Then, plug the adapter into a standard wall outlet. The display will light up.
2. **Connect Vibrating Shaker:** Plug the cable from the vibrating shaker into the designated port on the back of the alarm clock.
3. **Position Shaker:** Place the vibrating shaker under your pillow or mattress for optimal vibration transfer.

OPERATING INSTRUCTIONS

Setting Time and Date

(Assume standard button functions like SET, UP, DOWN, or MODE buttons. Specific button names are not provided in the input, so generic terms are used.)

1. Press and hold the **SET** button (or similar) to enter time setting mode. The hour digits will flash.
2. Use the **UP** and **DOWN** buttons to adjust the hour.
3. Press **SET** again to move to minute setting. Adjust minutes with **UP** and **DOWN**.
4. Continue pressing **SET** to cycle through year, month, and day settings, adjusting each with **UP** and **DOWN**.
5. Press **SET** one last time or wait a few seconds for the settings to save and exit the setting mode.

Setting Alarms

The clock typically supports multiple alarms (e.g., AL1, AL2). Refer to the specific buttons on your device, often labeled ALARM or AL1/AL2.

1. Press the **ALARM** button (or AL1/AL2) to select an alarm. The alarm time will flash.
2. Press and hold the **ALARM** button to enter alarm setting mode. The hour digits will flash.
3. Use the **UP** and **DOWN** buttons to adjust the alarm hour.
4. Press **ALARM** again to move to minute setting. Adjust minutes with **UP** and **DOWN**.
5. Press **ALARM** one last time or wait a few seconds to save and activate the alarm. An alarm icon will appear on the display.
6. To turn off an active alarm, press any button when it sounds. To disable an alarm completely, press the **ALARM** button until the alarm icon disappears.

Choosing Wake-Up Modes (Vibrating Shaker)

The vibrating shaker offers three distinct wake-up modes. Select your preferred mode using the switch located on the shaker unit.

- **1. Vibrate Only:** The shaker will vibrate without producing sound. Ideal for waking up without disturbing others.
- **2. Sound Only:** The alarm clock will produce an audible sound without vibration.
- **3. Both Vibrate & Sound:** The shaker will vibrate, and the alarm clock will produce an audible sound simultaneously.

Adjusting Display Brightness

The display brightness can usually be adjusted to suit your preference. Look for a dedicated **BRIGHTNESS** button or a function accessible via the **SET** or **MODE** button.

1. Press the **BRIGHTNESS** button (or similar) repeatedly to cycle through different brightness levels (e.g., High, Medium, Low, Off).

Temperature and Humidity Display

The clock automatically displays the current room temperature and humidity. No specific setting is required for this feature.

Using the USB Charging Port

A USB charging port is integrated into the vibrating shaker unit, allowing you to charge your mobile devices overnight.

1. Connect your device's USB charging cable to the USB port on the vibrating shaker.

2. Connect the other end of the cable to your smartphone or other USB-powered device.
3. Ensure the alarm clock is powered on for the USB charging port to function.
